HOBOS SUCCESSFULLY OPERATE THEIR HOTEL

The de Gink Feeds 200 Men a Day For 2 Cents a Meal—Guests Do Not Find Fault With the Bill of Fare, It is Said.

By Carlton Ten Eyck  
(Written for the United Press.)  
New York, March 9.—The Hotel de Gink, derided and laughed at by city officials when Jeff Davis, the king of hobos, first "blew" into New York and suggested it, is a success.

The members of the Mayor's committee on unemployment now admit it. They left Jeff Davis and his bos alone for a month. At the end of thirty days they went on an inspection tour and what they saw opened their eyes, economically, to quite a large extent. On an average of two hundred men a day have been fed at the hotel since it opened; that is six hundred meals a day. The meals have cost on an average of slightly over 2 cents each and, furthermore, they have been clean, well cooked and satisfying. To be sure, there has been no cake and demi tasse served with them; neither do they start off with oysters, but none of the guests have found fault, and that is more than most hotels can say.

The Hotel de Gink has its own barber shop, its own tailoring establishment, its own judicial and law-making bodies, and its own hospital. There isn't a policeman to be found within a radius of two blocks of the place.

And it has been self-supporting! The city has had these men taken off its hands without 1 cent of cost to it. It solved an economic problem that had Judge Gary and his co-workers scratching their heads to find a solution for.

The city rented the dilapidated old building at Worth and Centre streets to the bo's on credit. It had formerly been occupied by a button factory, which had left behind it several tons of white button dust. What to do with the stuff puzzled them for a time. Then one of their number conceived the idea of making a sort of whitewash or calcimine of it. They did, and the place was thoroughly renovated and made clean. Button manufacturers formerly paid to get this stuff taken off their hands. Now they are selling it for three to five dollars a ton.

"JUDGE" PEEBLES FIRST TO CAST HIS HAT IN RING FOR CITY RECORDER.

"Judge" H. C. V. Peebles, the well known citizen and magistrate, is the first to cast his hat in the ring. His formal announcement as a candidate for city recorder is made in today's Free Press. Mr. Peebles has lived in Kinston all his life. He stands for the moral uplift of the community and for law enforcement. For the past six or eight years he has served as a magistrate, and feels that his experience in that capacity fits him for the duties of the newly-created office of city recorder. His candidacy is subject to the city election to be held in May.

What the world needs more than anything else is sympathy—sympathy between man and man, sympathy between class and class, sympathy between nation and nation.—W. J. Bryan.

PHILADELPHIA HAS NO PENNANT HOPES

Athletics' Famous Infield Looks Like Thirty Cents—Old Stars Missing From Phillies—Both Teams Badly Shaken Up.

(By a United Press Staff Correspondent)

Philadelphia, March 9.—The well known depths of despair hold Philadelphia's hopes for a pennant this season. Even the most optimistic fans cannot see themselves standing in line for worlds' series duets next October. Both teams have had the severest shake-up this winter in their history, and only a miracle can bring either of them to the tape ahead of fourteen other teams.

The disintegration of the Athletics' famous machine is the hardest blow. Philadelphia fans had come to look upon a world's series as an annual affair with Philadelphia—one that was theirs by divine right, or something of that sort—and the crash that shot the famous aggregation into history shook them to their toes.

The justly famous \$100,000 infield now looks like thirty cents—some of the more belligerent even assert the three should be erased. The famous "Barry-to-Collins-to-McInnis" that figured daily in the box scores is gone. Quaker fans began to sit up and take notice when Bender and Plank, the two men who have brought pennants to Philadelphia, year after year with their sterling performances, were gone. Then came the Collins deal. That left their hopes stunned a bit more. Before they had time to recover, Frank Baker, king-bee swatter of all world's series, announced he was through. That was the proverbial last straw.

The Phillies are about in the same boat with their fellow-townsmen. There, too, is the absence of old stars going to be felt. Sherwood Magee, a Mighty Son of Swat, has gone to Boston, and his old running mate, Honus Lobert, will be seen in a Giant uniform this season. Charley Doin has gone to Cincinnati. The Phils didn't have a whole lot to start the season with last year, thanks to Jim Gilmore's raiding cohorts, but they have less this season.

NUMBER WITHOUT PREFERENCE LARGE.

(Continued from Page 1)  
will be canvassed this week and the returns added to the figures in hand.

The fine spirit of co-operation on the part of all of the workers made the work a success. Often canvassers would finish their section and then go to the help of a group of workers in another part of the city. This happened in a number of instances. Some of the workers took two sections instead of one.

The figures shown above include both the church members and those who are in any way affiliated with the churches. One of the surprises of the census was the very unusual number of persons who expressed no church preference. Dr. B. W. Spilman, who had general direction of the census, took part in the first census of this kind in Louisville, Ky., 22 years ago. He has assisted in this kind of work in a large number of cities and towns since, he says that the proportion of persons expressing no church preference is larger in Kinston than in any census which he has ever known. This affords a remarkably fine opportunity for evangelistic work during the coming simultaneous evangelistic campaign.

Each church in the city will be supplied with names of all persons who expressed a preference for that church and the list of those who expressed no church preference will be available for any who may wish it.

"The Thinkers of the Country Are the Tobacco Chewers" —  
said one of the greatest thinkers this country ever produced.

Says the Ball Player:

"There wouldn't be many double plays pulled off, if we players didn't think pretty straight and quick and right. We need snap judgment but it's got to be good judgment too.

"We can't afford to get up in the air except when the ball's up there."

"That's why we use PICNIC TWIST instead of a dark heavy tobacco. PICNIC TWIST is mild and it's better than water for keeping you from getting dry."

Men everywhere are finding that there's all the tobacco satisfaction in a mild, sweet, long lasting chew of PICNIC TWIST without the "comeback" on the nerves, found in strong tobacco.

Try one of these soft twists of the mild, mellow part of the leaf and see for yourself.

When sending your clothing to be pressed have you ever realized, and every clean-minded man would shudder with disgust at the thought, that the cloth used to press your suit had just previously been used to press the suit of a man suffering from disease, filthy habits, etc.—the cloth in the interim being wet and wrung out in a pail of probably dirtier water, especially so toward the end of the day's work?

To overcome this we have installed an up-to-date Sanitary Steam Pressing Machine, known as "The Hoff-man." A garment that passes thru this machine is disinfected; as no germs or microbes can exist under a temperature as high as the dry steam we inject; at the same time it removes any odor, takes away the grimy appearances, raises the nap, revives the colors and imparts to the garment that freshness desired by all dressers.

We will appreciate your patronage and guarantee quick and satisfactory service.
