NEW FRENCH AIR SUCCESS

Birdman Destroyed Turkish Aviation Station-British Dirigible Explodes in Injuring Many

(By the United Press)

Paris, July 28 .- The battle for the trenches in the country around Souchez has been resumed by the Ger- SAYS WILSON DON'T KNOW mans after a week's lull. Three furious charges occurred last night. The war office admitted that the Teutons penetrated the French trenches on a 20-yard front. Soissons was heavily bombarded during the night. A French aeroplane bombarded a Turkish aviation camp north of Chanak, on the Asiatic side of the Dardanelles, firing

bangars and the gasoline depot, and causing a big blaze that destroyed London, July 28 .- Three were killed

and twenty injured in the explosion of an army dirigible in a hangar in Wormwood Scrubs. They were mostly mechanicians. It is believed escaping gas was ignited by a cigar. Ring Tightening Around Warsaw. Berlin, July 28-The Germans closed in rapidly on Warsaw during the last forty-eight hours. The city is two-thirds surrounded. Only two railroads are open for the Russian retreat. On the south the Germans are attacking along a forty-mile

front within sixteen miles of the city.

Tragedy On the River Saturday Discomfort (By the United Press) Chicago, July 28-The "higher ups" blamed in the Eastland disaster will be relentlessly prosecuted by the Fed-

eral government, regardless of the Hangar, Killing Three, action of the coroner's inquest, it was stated today. Under streaming skies Chicago today buried 600 of its dead. The bells

THE LESSON LEARNED BY ENGLAND IN THE FIRST YEAR WORLD WAR; GERMANY SATISFIED WITH SITUATION AFTER 12 MONTHS; FRANCE OWES MUCH TO DE MAUD'HUY, THE HERO OF ARRAS

AS SEEN IN LONDON

London, July 28 .- It took John Bull ten months to discover that what he needed most was a general busi- and shamed the English. From the in their smashing drive for Dunkirk, ness manager.

Of course, he has learned several other lessons, among them: that it doesn't pay to conceal the truth; that the British people resent being treat ed like children; that they can stand hearing bad news, and that when the situation is put before them with frankness they can actually be as patriotic as Frenchmen or Germans.

But the one big lesson-which the Germans have taught him-is that war nowadays is as much a business as it is a science. He has seen all the old theories of warfare upset. He was not prepared for the change in styles. He had no idea the system of trench warfare would become so highly developed; that such an amount of high explosive shells would become neces mary: that a preponderating supply of hine guns might spell all the difference between success and failure; that the Germans would introduce the use of asphyriating gas, liquid firs, and other like agencies hitherto mrecognized in the conduct of civil-

AS SEEN IN BERLIN

Berlin, July 28.-Germany's year of war in the west has crippled France outset of the war, the Germans developed an initiative that gave them a

superiority over their enemies, and since then, no effort of the French and British commanders, has been equal to the task of overpowering the numerically weaker Teutons.

Only once has Germany been supe rior in numbers to her western opponents, according to the claim of teutonic authorities. That was during the rush through Belgium and to Paris. The superiority at that time was due to the slow mobilization of the French and the breakdown of the English plans for hurrying a large army to the continent. From the days of the Battle of the Marne, the Germans have had to fight with weaker forces, than their enemies, and yet never have they been overwhelmed. The Germans taught the French and ter campaign in the trenches, each of
