OF LOCAL INTEREST

Marriage License.

To one white couple: J. Wyatt Creech of Greene county and Eliza Emerson of Lenoir county.

West & Claytor Dissolved.

The wholesale grocery firm of West and Claytor, in Lanesburg on South Queen street for two or three years, has been dissolved, by mutual agreement, it is said. Louis A. Claytor leaves the business. He has not announced what line he will engage in in future. Mr. Horace West, senior member of the firm, will continue to conduct the business.

Nothing New About Union Station.

General Passenger Agent Leard of the Norfolk Southern Railroad declined to say anything about the union passenger station for Kinston on the occasion of his visit here on Wednesday evening. The matter is not in his line, Colonel Leard stated, and he really had not posted himself on it. He presumed that the railroads would abide by the Corporation Commission's decision as to the site, at Gordon and Independent streets.

Mistrial in Cohen Case.

In the case of State vs. M. Cohen in Superior Court, at Greenville, Judge H. W. Whedbee ordered the withdrawal of the jury and entered "mistrial" on the records. Cohen was charged by former business associates with the misapplication of moneys belonging to their business. The indictment was improperly drawn. Cohen asked that that be waived and the hearing proceeded with, but Judge Whedbee refused his request. The whole matter must be gone over again. Cohen was in business with members of the Pearson family of Kinston in Snow Hill and Farmville.

In the Recorder's Court.

Judge Wooten, in the Recorder's Court this morning sent Charles Gregory and Ernest Copper, both colored, alleged bigamists, up to Superior Court without hearing the evidence. Gregory is said to have wives in Wilmington and Kinston and Copper in New Bern and Kinston. J. B. Greer, Mrs. J. B. Greer, and George Gray were before the Recorder charged with affray. Greer and Gray were found not guilty, and Mrs. Greer was fined \$10 and costs for assaulting Gray with a deadly weapon, towit, a bed slat! Gray, a collector, had called at the Greer home on business for a furniture concern.

PETITION FOR MOTOR TRUCK COMPETITION WITH K.-S. H. R. R.

A petition was circulated in Snow Hill recently asking merchants to patronize a motor truck to be run from another point near there to the Greene county seat for the hauling of freight. The Standard-Laconic of Snow Hill says that "under misapprehension" the petition was signed by some. That paper says the present railroad from Kinston to Snow Hill "is giving good service, bringing in freight as promptly as any railroad handles it and giving a passenger service as good as one should expect. This railroad is one of the big assets of the town. Without it, what would become of the tobacco market?"

The Standard-Laconic argues against the proposed competition and urges co-operation of the local business interests with the Kinston-Snow Hill Railroad. If the motor truck were the only means of transporting

freight to the town, "who believes that it would be less expensive than our present freight rates," asks the newspaper.

HEALTH

Warning Against Grip.

On account of the serious after-effects of grip or influenza does the State Board of Health feel called upon to issue another warning regarding the treatment and prevention of this disease. "Grip does not cause tuberculosis," says the Board, "but it lowers resistance and weakens the bodily functions to such a degree that latent tuberculosis readily becomes active. Laymen used to attribute tuberculosis of the lungs to an attack of grip from which the patient never fully recovered."

It is quite important, the Board advises, that a person with the symptoms of grip, for grip is no slight ailment, go to bed and have a physician's care. It is the person who keeps up, nurses a cold and cough and who never gets cured of grip that is likely to come down with pneumonia, tuberculosis or most any other disease.

"But what is really better than curing grip," says the Board, "is to keep it off. By getting plenty of fresh air day and night, by avoiding overeating, overworking and excesses of every kind, by keeping regular habits and taking daily exercise and by getting regular sleep and avoiding people with colds or grip, you can reduce your liability to contract this dangerous disease almost to a minimum. Keeping up a strong bodily resistance is by far the best safeguard against this enterprising, bold germ."

Smallpox Vaccine Free.

That the State Laboratory of Hygiene has succeeded in manufacturing smallpox vaccine for free distribution to the citizens of the State is the statement made public today by Dr. C. A. Shore, director of the Laboratory of Hygiene of the State Board of Health. This vaccine, Dr. Shore advises, is made according to Nouguchi's new method and is absolutely free from all contaminating bacteria. It is put up in small tubes provided with rubber bulbs suitable for individual use and in small vials for use in schools or wherever large numbers of persons are to be vaccinated. The plan adopted for its distribution is through the county and city health officers from whom physicians may be supplied.

"That smallpox vaccine is now offered free to every citizen of the State," says a bulletin from the State Board of Health, "places smallpox as a disease clearly within the control of the individual. Protection from this disease, therefore, becomes a personal matter and public funds should not be expected to be expended in the protection of those who can so easily protect themselves."

The Board reaffirms its opinion that vaccination is the only safe protection against smallpox, and that quarantine or any other method of protection is uncertain, expensive and inequitable; therefore, the Board believes that its success in making and offering vaccine free to all the people will change the nature of the problem of smallpox control, placing the responsibility of its spread more on the individual and less on the public.

FOR CHILDREN'S COUGH

You cannot use anything better for your child's cough and cold than Dr. King's New Discovery. It is prepared from Pine Tar mixed with healing and soothing balsams. It does not contain anything harmful and is slightly laxative, just enough to expel the poisons from the system. Dr. King's New Discovery is antiseptic—kills the cold germs—raises the phlegm—loosens the cough and soothes the irritation. Don't put off treatment. Coughs and Colds often lead to serious lung troubles. It is also good for adults and the aged. Get a bottle today. All druggists.

STALK CUTTER

The Parin & Orendorf Co., Canton, Ill., made the first Stalk Cutter ever built, over 50 years ago; today they are building the best Stalk Cutter on the market.

You need weight in a Stalk Cutter to do good work. You get it in this one—and with weight you get strength. The P. & O. is practically indestructible. Beware of light, flimsy stalk cutters—you will rue the day you buy one. This one will last a life-time. What do the manufacturers themselves think of it? "Back it up with an unqualified guarantee." That is putting it pretty strong—what more can you ask?

FORREST - SMITH

How to Get Potash.

It is a well known fact that standard balanced fertilizers will not be obtainable for this year's crop. Muriate and Sulphate of Potash, also Kainit, are practically unobtainable at any price. Potash is indispensable in the preparation of fertilizers.

Cotton Seed Meal Contains— Available Phosphoric Acid 2.50 to 2.75 per cent. Ammonia 7.50 to 8.00 per cent Potash (Soluble in water) 1.65 to 2.00 per cent.

Cotton seed meal makes a fertilizer which feeds the growing plant gradually and leaves a valuable humus in the soil to sustain succeeding crops.
