OF LOCAL INTEREST

Washington's Birthday Exercises.
The children of the Primary School will entertain their parents and other patrons from 1 until 2 o'clock tomorrow afternoon with Washington's birthday exercises. The public is cordially invited to attend.

Return from North.
Mrs. J. E. Harris, Mrs. W. M. Edwards and Mrs. K. R. Tunstall are back from Baltimore, Philadelphia and New York, where they purchased a full line of millinery and other goods for T. W. Mewborn & Co.

North On Business Trip.
Mr. and Mrs. C. S. Chamberlain and Miss Bessie Braxton of the firm of Chamberlain & Braxton, are in Baltimore on business. They expect to visit other Northern markets before returning home.

Wilmington Quint, to Play Here.
The Commodores will begin practice tonight to meet the fast Wilmington basketball team here on Friday night at 8 o'clock. Every member of the club is urged to be present at tonight's practice, and any others who have a fancy for the game.

Tacky Party.
On last Wednesday night Miss Rebecca Croom entertained at a "tacky party" in honor of her guest, Miss Maddie Croom of Raleigh. The guests' costumes afforded considerable amusement, and interesting games were played, to the winners of which prizes were awarded.

Benton's Alleged Misconduct In Stockade.
Mrs. Agnes Lee, superintendent of the County Home, states that the alleged misbehavior of James Benton, white, mention of which was made in print recently, occurred at the stockade near the home, instead of on the premises under her charge.

Norfolk Southern Obliging.
Mr. T. W. Mewborn, chairman of the Chamber of Commerce's cotton platform committee, states that Traffic Manager E. D. Kyle was very accommodating in securing the permission of the railroad to the removal of the unsightly platform near the corner of Queen and Blount streets. Mr. Mewborn confirms the intention of interested persons to park the space thus made vacant.

Death of Mrs. Matilda Kirby.
Mrs. Matilda Kirby, who died in Sampson county recently, was the mother of Mrs. Lillian Murrell of Kinston and five other sons and daughters. She was born in New Hanover county in 1843, and was a well educated woman. Mrs. Kirby was a member of a former distinguished family, being a daughter of Bradley and Matilda Pigford and granddaughter of Charles Gavin, a famous legislator.

Illustrated Lecture.
Mr. I. W. Medlin, field secretary of the Epworth League, will give an illustrated lecture in Queen Street Methodist church tomorrow night. Mr. Medlin has a new haptocian machine, and having made a study of Africa, will give his hearers something interesting regarding the African missions. Everybody is cordially invited. No charge will be made. Under the auspices of the local Epworth League, a collection will be taken to apply to the work of the Epworth League in Africa.

Certificates for Corn Club Boys.
Handsomely engraved certificates from the Governor for two Lenoir county corn club boys who made fine records in 1915, have been received here. The certificates are to young Ben Z. Cameron, who made 110 bushels on an acre, and Jasper D. West, who made 100.8 bushels on an acre, these two sharing honors with several score other youngsters who were awarded certificates. They bear the signatures of Governor Craig, Commissioner of Agriculture W. A. Graham, Superintendent of Public Instruction J. Y. Joyner, State Agent of Farm Demonstration Work C. R. Hudson and several other men interested in the corn club work.

Marriage Licenses.
To the following couples: White: Alonza Measley and Cora Faulkner, both of Lenoir; Lonnie Rouse and Carrie Rouse, both of Lenoir; Ira Grissom Harper and Lettie Stroud, both of Kinston. Colored: Junius and Minnie Harrison, both of Lenoir.

THE DAY ON LOCAL COTTON EXCHANGE.
The best price for cotton today was 10.3-4c, about a dozen bales being sold.

New York futures opened 12 points off. Quotations were: Open Close

AGRICULTURAL

SAVE CLOVER SEED.
If there is a quicker and cheaper way to improve land, and at the same time produce a profitable crop each year, than by turning under crimson clover, the farmers of the State have not been able to find it. Of course, stable manure is the best of all things, but we need not consider that for more than a few acres. Last year the amount of crimson clover sown was perhaps double that of any former year, but it was not half what it would have been but for the high price of seed. The indications are that the seed will be high again this year. This large expenditure of money each fall, when money is scarce, should not be continued from year to year, since such simple and economic means of saving seed have been devised.

Every farmer who is growing crimson clover should arrange to save some to sell to his neighbors. We now have a clover seed stripper that takes the seed off and leaves the stalk standing in the field. Any farmer can make the machine at small cost. All that is needed is two wagon or old buggy wheels on an axle, a pair of shafts, and a box with sawed wooden teeth. The box is hung under the axle and is adjustable to height of the clover.

Farmers Bulletin No. 646, gives the details of the machine. It gives also much other valuable information concerning the value and growing of clover. Any farmer who desires a copy of this bulletin can obtain it by applying to his County Farm Demonstration Agent or by writing for it to Mr. Bradford Knapp, U. S. Department of Agriculture, Washington, D. C.

Last year Demonstration Agents induced the making of 120 of these machines. The machines worked satisfactorily. In a number of instances two or more farmers clubbed together in making a machine, thereby reducing the cost. The cold, rainy days of winter is a good time to make these machines, so that they will be ready for use at clover seed harvest time. Farmers that have good home-grown seed this fall will be more likely to plant than if they had to purchase seed. In several respects these seed with the chaff attached are preferable to clean seed purchased on the market.

P & O

STALK CUTTER

The Parlin & Orendorf Co., Canton, Ills., made the first Stalk Cutter ever built, over 50 years ago; today they are building the best Stalk Cutter on the market

You need weight in a Stalk Cutter to do good work. You get it in this one—and with weight you get strength. The P. & O. is practically indestructible. Beware of light, flimsy stalk cutters—you will rue the day you buy one. This one will last a life-time. What do the manufacturers themselves think of it? "Back it up with an unqualified guarantee." That is putting it pretty strong—what more can you ask?

FORREST - SMITH

How to Get Potash.

It is a well known fact that standard balanced fertilizers will not be obtainable for this year's crop. Muriate and Sulphate of Potash, also Kainit, are practically unobtainable at any price. Potash is indispensable in the preparation of fertilizers.

Cotton Seed Meal Contains—
Available Phosphoric Acid 2.50 to 2.75 per cent.
Ammonia 7.50 to 8.00 per cent.
Potash (Soluble in water) 1.65 to 2.00 per cent.

Cotton seed meal makes a fertilizer which feeds the growing plant gradually and leaves a valuable humus in the soil to sustain succeeding crops.
