WESTERN OFFICE—In charge of Mr. C. J. Anderson, Marquette Building, Chicago, where files of The Free Press can be seen.

Entered at the postoffice at Kinston, North Carolina, as second-class matter under act of Congress, March 3, 1879.

After Six P. M. subscribers are requested to call Western Union and report failure to get the paper.

If Carranza doesn't get that hump out of his back he is apt to get it perforated by some of General Pershing's marksmen.

If it becomes necessary to apply the treatment of "benevolent assimilation" to the Mexican "greasers," the flavor of garlic would certainly not be very pleasant.

It begins to look like the Department of Justice made a ten-strike when it captured Von Igel, alleged conspirator in the neutrality violations against this country.

The approval of the attitude of the United States with reference to the German submarine policy, by the South American countries is indeed pleasing.

The Greenville Reflector tells us in its reflections of twenty years ago of a wedding which had to be postponed because the bridegroom was serving on a capital jury which hung up in its deliberation until after the date set for the marriage.

The second hearing by the Solicitor and Recorder into the lynching of the negro taken from the Lenoir jail by a Greene county mob the first week in April, unfortunately developed no information apparently, which will lend to the apprehension of the guilty people.

We didn't hear any loud applause of the attempt on the part of Medill McCormick, temporary Chairman of the Illinois State Republican convention, to make fun of President Wilson's foreign policy.

SOME DAY WE'LL KNOW BETTER.

A properly qualified health officer is badly needed in Kinston, and every day that the city authorities let go by without paying some attention to this important matter adds to their negative responsibility.

ATLANTIC COAST LINE The Standard Railroad of the South D. J. WARD, Ticket Agent.

ervation of health of this community and the education of the boys and girls should be divorced from the influences of petty politics and ward heelers.

A SUGGESTION WORTH CONSIDERING.

The Norfolk & Western Railroad, like other railroads of the South, is lending its efforts in endeavoring to stop the trend of migration from the South and East to the Middle West.

One suggestion of the N. & W. is that the Southern people, practically all of whom have one or more relatives or acquaintances who have migrated into other States, furnish the names of such relatives or acquaintances to the Commissioners of Agriculture of their respective States and the agricultural and industrial agents of the railroads in their particular sections.

The News and Observer calls attention to the platform of the Colonel, which it states to be in brief, "Anything to beat Wilson." The Colonel doesn't seem to be the only fellow standing on such a platform either.

WHAT OTHERS SAY

UMPH! GETTING CHESTY

New Bern Journal: "Kinston is planning to sell \$325,000 worth of bonds, the money from the sale of which will be used in improving the streets there.

SHOULD MAKE THEM STATES OF THE WORLD.

Birmingham Ledger: "Several times since Diaz the strong left Mexico The Ledger has advised that the most reasonable thing for the United States to do, if it does anything in Mexico, is to enforce peace in the States that border us and recognize them as independent.

"In Chihuahua and Sonora there would soon be a rush of men who could take care of themselves. Our army could prevent any guerrilla raids and shoot the robbers, leaving the settlers to deal with the thieves and murderers as they appear.

"Compulsory peace would be the greatest hardship on the Mexicans, and they would get used to that. Industry need not be enforced, as it would not be right to compel a thing so repulsive to the men.

"With even two States filled with decent people there would be a moral effect on the other border States. They would behave and stay in their own borders rather than be reorganized by Americans.

"The other Mexican States can either form a republic or become independent. Yucatan could easily be a self-supporting industrial State if permitted. One by one, with peace enforced, the States could suppress the military satraps and upstarts and the people be allowed an opportunity to become civilized and contented.
