Now he has the agency for a well-known car in both Carolinas.

Mr. Dail married Miss Mary Blow of Greenville. He is an active member of the Charlotte Chamber of Commerce. He became famous in the Queen City almost in a day. AVOID SPRING COLDS.

Sudden changes, high winds, shifting seasons cause colds and grippe, and these spring colds are annoying and dangerous and are likely to turn into a chronic summer cough. In such cases take a treatment of Dr. King's New Discovery, a pleasant laxative Tar Syrup. It soothes the cough, checks the cold and helps to break up an attack of grippe. It is already prepared, no mixing or fussing. Just ask your druggist for a bottle of Dr. King's New Discovery. Tested and tried for over 40 years.

The Player Piano and What It Means to The Home

HAVE you ever stopped to realize the extraordinary influence good music exerts in the home? This greatest of arts and the one language understood by all, is truly the tie that binds. It promotes a regard for the home and its environment not approached by any other factor.

A player piano in the home keeps people there. It establishes a unit of home interest which draws people within the house and does not divert them from it. There is no question that the family circle is more closely knit with such a bond of common interest as the Player Piano—a musical instrument that can be played by every member of the family and in the playing of which each may put into the music his own personal interpretation or musical intuition.

It surely is a marvelous invention that makes possible the artistic rendition of the world's musical library. Grand opera, the classics, dance music, the latest song, ballad, or patriotic chorus—and every selection—may be beautifully rendered with a Player Piano of known value and artistic worth.

When one purchases an "Excelltione Player Piano" he at the same time purchases the capability to express himself correctly, musically. He is enabled to portray his musical feelings, his musical moods and preferences exactly as he wishes to by means of the extraordinary expression powers and minute variations and shadings in contrasts, which are

embodied in an "Excelltione Player Piano." The rare, uplifting influence of music has been carried into thousands of homes the world over by "Excelltione" Player Pianos, and the influence of the music that is made possible in those homes is an influence in the right direction. It has educational and entertainment features of practically unlimited proportions.

When you buy an "Excelltione" Player Piano, fitted with the Standard player action, you do more than simply install a player in the home—you create harmony, you exert an influence for good in that home and you diffuse knowledge on matters musical which will benefit every member of the family circle. You provide joy and entertainment of the rational, common-sense kind and an important thing—each member of the family can directly participate in making his own music. You promote culture and refinement—you broaden the mental horizon of the household. The children of the home are afforded an opportunity to train their ears correctly and to familiarize themselves with the worth-while music, as they hear it played on the "Excelltione Player Piano."

It is no exaggeration to state that in the entire field of human activity nothing yields a better influence in the home, and nothing may be better personally enjoyed by every member of the family than an "Excelltione" Player Piano containing the famous Standard player action.
