

SOCIAL AND PERSONAL

Mrs. J. C. Delamar of Beaufort is a visitor in the city. Mr. Herman Turner of Durham is a guest of Mr. Vernon Ferrell. Mrs. Mary E. Willis of New Bern came Saturday for a short visit. Col. Wilson G. Lamb of Williams-ton is a well-known visitor in the city. Rev. Howard Alligood of Bath, N. C., is attending the big Episcopal meeting here. Misses Marjorie Harper and Maud Brown returned Saturday night from a visit in Wilson. Miss Minnie Mae Sutton of New Bern is attending the Episcopal diocesan council meeting here.

MRS. ISABEL ROUNTREE KING DIED SUNDAY P. M.

Wife of A. C. L. Supt. and Daughter of Judge Rountree—Mr. and Mrs. Rouse and Other Relatives to Attend Funeral Tuesday

The news of the sad death of Mrs. Isabel Rountree King, wife of Superintendent Van King of the Wilmington division of the Atlantic Coast Line Railroad and daughter of Judge George Rountree, came to friends and relatives here late Sunday night. Mrs. King's death came Sunday afternoon. Judge Rountree was prevented by her illness and death from coming to the Episcopal Council now in session here, to which he was a delegate.

Mrs. King spent her early childhood here. She was a most estimable Christian woman and her untimely death is mourned by a large circle of friends and loved ones. A little boy born shortly before her death also died.

The funeral will take place Tuesday afternoon from St. James' Episcopal church, Wilmington, Dr. Heald, rector of St. Paul's and Dr. Milton of St. James' will conduct the services. Dr. Heald was on his way to the Council when the message of Mrs. King's death reached him and he returned without stopping in Kinston.

Mr. and Mrs. N. J. Rouse and probably other relatives will go to Wilmington Tuesday for the funeral.

RUSSIANS JOIN THE BRITISH IN GARDEN EDEN

(Continued From Page One) Kut-el-amara caused intense astonishment here. Military officials warned, however, against excessive optimism over General Lake's announcement.

It is believed a joint advance on Bagdad will be begun immediately.

A superior court jury at New Bern found for the defendant in the case of Taylor vs. Stewart, an action in which it was sought to recover damages for the death of Earl Taylor, son of the plaintiff, killed by an automobile driven by a son of the defendant. The plaintiff will take an appeal.

When thinking of how to spend the evening, remember the Grand, where there is a feature worth seeing, adv.

DO YOU HAVE an opening for an efficient private secretary, statistician, bookkeeper or office man. Personal interview. Box 278, Kinston, N. C. 5-5-14

FOR COMMISSIONER. I hereby announce myself a candidate for County Commissioner, subject to the action of the Democratic primary on June 3. G. G. MOORE. (Paid political advertising—D&S)

HEALTH

FLIES DESTROY GOOD REPUTATION.

"No screens are better than ill-fitting screens or screens with holes in them," says the State Board of Health. The latter act as fly traps and mosquito cages. A fly will find its way through the most unsuspecting hole when the smell of food is leading him on and a mosquito will squeeze through most any size crevice when the taste of blood is beyond him. Therefore the Board advises mending last year's screens before putting them up, and if they have been up all winter, it suggests looking them over carefully to see that they contain no holes, and that they fit tight.

The Board says further: "Mosquito netting well put up is fly-proof as well as mosquito proof and if moderate care is given it, it will last a season. Since mosquito netting solves the expense problem of screens, it stands to reason that people who do not have their homes screened are either not educated to the filth and danger of the fly or they simply prefer his company."

"Screens in a home no longer exclusively represent a fear of typhoid fever and diarrhoea during the summer months," continues the Board "but they are looked upon now more as an index to decency, perhaps, than anything else about the home. A home these days can go unpainted, but it cannot go unscreened; it may not have flowers and green lawns, but it must have screened doors and windows. As hotels and boarding-houses are knocked and are discriminated against on account of the lack of screens and other means of protection against flies, so homes are knocked on the same score. Flies and a good reputation don't go hand in hand. As the summer comes on one's reputation, whether it be that of a hotel, a restaurant, a boarding house, a home or a city will suffer or not according to the efficiency with which it handles its fly problem."

GOOD FOR COLDS. Honey, Pine-Tar and Glycerine are recognized cold remedies. In Dr. Bell's Pine-Tar-Honey these are combined with other tough medicine in a pleasant syrup. Dr. Bell's Pine-Tar-Honey quickly stops your cough, checks your cold, soothes irritation of the throat. Excellent for young, adult and aged. It's one of the best cough syrups made. Formula on every bottle. You know just what you are taking and your doctor knows it's good for coughs and colds. Insist on Dr. Bell's Pine-Tar-Honey. Only 25c at druggists. adv

Recital at Training School. The annual music recital at the East Carolina Teachers' Training School, Greenville, will be held tonight. Advanced pupils in piano under Misses Fahnestock and Sherman and voice pupils under Miss Lillian Parker will be on the program. Miss May R. B. Muffy will direct a chorus.

Biltmore Wheat Hearts. All grocers. (adv.)

"Temptation," with Farrar, scored a bigger success than "Carmen." adv.

TO THE DEMOCRATIC VOTERS OF LENOIR COUNTY

We, the Democratic voters of Institute Township, hereby endorse our neighbor and friend Henry W. Brothers, to represent us in the General Assembly; realizing the fact that it is very important that the farmers should have a voice in making of our laws. He is capable, truthful and honest, a good neighbor and a loyal Democrat. In presenting him we are offering you a splendid man for you to vote for; and we would especially appreciate your full support as it has been more than ten years since our end of the county has offered you a Representative to vote for. (Signed:)

EPISCOPAL COUNCIL PROGRAM THIS CITY

(Continued from Page 1) Hankow, who told of the great educational work of the Episcopal church in China. His subject was interesting, and he thrilled his hearers with his narration of the progress of the work in the Orient. Dr. Littell is one of the most prominent figures at the convention.

In Other Churches. Services were held in Christ church, the parish's mission in East Kinston, during the day and evening, visiting clergymen being in charge.

In St. Augustine's church, colored, South Independent street, an intelligent body of colored clergymen of the Diocese put through a program that occupied nearly every minute of the day, beginning with early prayers. Dr. R. I. Johnson, a leading minister and educator of the colored Episcopalians in the South, whose parish is in Belhaven, N. C., told of the remarkable success of a parish school established by him. Rev. S. N. Griffith, rector of St. Augustine's is the proud host to the gathering who are being accorded every courtesy by the white clergymen and lay delegates. Bishop Darst and Mrs. Darst, a recent bride, stood on the lawn of St. Mary's rectory this morning to have a half dozen or more of the colored ministers introduced to them. The "democratic" Bishop of East Carolina takes a great interest in the advancement of the colored communicants in the Diocese and has their confidence in a way no other person has.

Business Today. This morning's program was as follows: At 7, celebration of Holy Communion especially for men, by Bishop Darst, assisted by Rev. W. E. Cox. At 9:30, morning prayer said by Rev. B. S. Huske and Rev. W. R. Noe. At 10, beginning of business session. Committees on state of the church, relations to and communications from the general convention, new parishes, the general clergy relief fund, the memorial at old Fort Raleigh and others were appointed. Reports from various committees and officers dealing with all phases of the diocesan business were received and referred to the proper committees. The Bishop made his report, an interesting one. The various business matters alluded to were upon motion, referred to committees. At noonday, prayers for missions were held. It was decided that the Council should sit tonight as a committee of the whole to consider mission work within the diocese. Dr. Charles H. Herty of the University of North Carolina was to speak at 3 this afternoon on "The Five Million Church Fund." Services at St. Augustine's. Services will be held in St. Augustine's church, colored, at 8 p. m., conducted by Rev. J. B. Brown of Washington, and at the same hour Tuesday evening, when the service will be devoted to missionary subjects.

Very truly yours, "DOW & SMITH, "Francis P. Smith."

MARKING PAVING IS NATURAL

(Continued from Page One) over them, however, will iron them out completely and no damage to the pavement will result.

"When considering the markings on a pavement it is always well to roughly estimate what percentage of the total area of the pavement is so marked as appear in mind what relation the marked area bears to the total area before becoming at all alarmed at it.

"There is a large number of streets in New York City which have been down for a number of years and have even excellent service and are in satisfactory condition, but which, nevertheless, mark up very perceptibly each summer.

"We are confident from our examination of the pavements which are being laid in your city that they are of excellent quality and will give you every reasonable satisfaction, and that the marking which is evident upon them is only normal and really indicative of the good quality of the pavement and the minds of your citizens. We feel confident that you will find each succeeding summer after the pavement has been laid the marking will become less and less.

"The proper place to observe the markings on a pavement and to judge whether or not they are excessive is in the portions of the street where the pavement is subject to a reasonable amount of moving traffic. If the markings which appear from time to time gradually iron out and disappear you may be quite confident that the pavement is entirely satisfactory in this respect.

A New Invention Adds 80% to Motor Efficiency in the Hudson Super-Six \$1375 at Detroit

That means fuel economy, and a long-lived motor. 80% LESS WEAR What we have done is to wipe out vibration—the vibration which caused friction. The Super-Six is the smoothest-running motor ever known. The result shows in bird-like motion. It shows in endurance. The loss of power through friction in the motor is reduced by 80 per cent. This reduction in wear means years of extra service.

If you buy a fine car this year there are new facts to consider. Hudson engineers have discovered a new motor principle. Its newness is attested by patent. This principle is applied to a light-weight Six, simple and economical. And it adds 80% to efficiency. 76 HORSEPOWER The Super-Six is identical in size with the former Hudson Light Six. In old-type motors that size at its best delivered 42 horsepower. In the Super-Six it delivers 76 horsepower—an increase of 80 per cent. The result is a car which out-performs any other stock car in the world.

This vast reserve power shows in quick response. The car fairly dashes to speed. It shows an effortless climbing. It shows in flexibility in speed. No situation taxes the Super-Six. It is rarely run at more than half load. This is all proved by the performance of the Super-Six. And you can prove it by a half-hour ride. Come and find out what the Super-Six means to you. See the six new luxury bodies. You will then concede that the Hudson Super-Six is the only fine car to consider. 7-Passenger Phaeton, \$1375 at Detroit. Five Other Bod. Styles. HUDSON MOTOR CAR COMPANY DETROIT, MICHIGAN

All Other Cars Outrivalled At Sheepshead Bay, under A. A. supervision, a 7-passenger Super-Six stock car excelled all former stock cars in these tests: 100 miles in 80 min., 21.4 sec., averaging 74.67 miles per hour, with driver and passenger. 75.69 miles in one hour with driver and passenger. Standing start to 50 miles an hour in 16.2 sec. During these tests the car was driven 1350 miles at top capacity, at speed exceeding 70 miles per hour without discoverable wear on any part.
