

BELIEVED PROGRESSIVES ARE GOING TO NOMINATE ROOSEVELT BY MIDNIGHT AND LEAVE OLD LINERS DO WHAT THEY LIKE

Colonel Willing to Speak in Chicago if He's Wanted—Nothing Unusual Doing in G. O. P. Convention Except Selection of Harding to Be Permanent Chairman—Opening Delayed Again—Johnson Apt to Be On Ticket With Former President, Thought—Platforms Outlined—Preparedness Harped On By Moose and "Americanism" By Old Party—No Prohibition Plank in Republican Platform—Suffrage Unfinished

By H. L. RENNICK, United Press Staff Correspondent.

Chicago, June 8.—The Progressive radicals believe Roosevelt will be nominated by the Moose convention before midnight. The conservatives believe not. This is the difference of opinion in the background of the fight now waging. Committee sessions were continued this afternoon when the convention reconvened at 2 o'clock.

"I believe the convention will nominate Roosevelt by midnight, after which it will be squarely up to the Republicans to take or leave him," said William Allen White of Kansas.

Governor Johnson will probably be the vice-presidential candidate.

Reports of the credentials committee, the permanent organization committee, the rules and order of business committee, and the selection of the national committee will be on the program this afternoon.

Republicans Slow.

By PERRY ARNOLD, United Press Staff Correspondent.

Chicago, June 8.—The second day's sessions of the Republicans started when Temporary Chairman Harding called the convention to order at 11:23. The convention was delayed again. At the starting time only 400 of two thousand delegates and alternates were seated. Neither Chairman Hilles nor Harding was on the platform, and not more than 5,000 people in the hall. It was still raining and gloomy.

The conventionists are livening up, however. Chairman Harding called for the report of the credentials committee on credentials and permanent organization.

Harding was made permanent chairman. The first spontaneous outbreak in the convention occurred when the delegates cheered Harding for five minutes. Senator Harding briefly spoke, thanking the resolutions committee. The platform draft is expected to be reported this afternoon. The program today is mostly routine.

Colonel Is Willing to Go.

Oyster Bay, June 8.—In Col. Roosevelt's reply to Committeeman Jackson he said that if the convention wanted him he would be glad to speak. He said he hopes the Republicans and Progressives will keep their minds on the gravity of "the crisis."

"Americanism" G. O. P.'s Hobby.

By ROBERT J. BENDER, United Press Staff Correspondent.

Chicago, June 8.—The Republican platform, to be adopted today, besides demanding Americanism, will favor a navy fearing no power and a standing army sufficient to form a nucleus of an effective mobile force war. The suffrage plank is unfinished. There will be no prohibition plank. The proposal to complete government control of transportation, supplanting State railway service commissions, perhaps will be adopted.

The Republicans want a strong Mexican and foreign policy, a "reasonable" tariff, the literacy test for immigrants, a child labor law, ship subsidy, and military and industrial preparedness. No mention is made of compulsory service or federalization of the militia.

Preparedness Moose Platform Keynote.

By KARL A. BICKETT, United Press Staff Correspondent.

Chicago, June 8.—The Progressive platform, to be adopted today, makes preparedness the keynote, declares that the regular army should be a quarter million men, nationalized with a system of citizen military training, and that the Nation should have the second greatest navy.

Roosevelt Doesn't Mean to Go to Chicago.

Oyster Bay, June 8.—"I have no present intention," Col. Roosevelt replied today to a question as to whether he was going to Chicago. He is preparing a reply to the invitation of National Committeeman William J. Jackson of Maryland to address the Republican convention.

Allies Confering.

By CARL D. GROSST, United Press Staff Correspondent.

Chicago, June 8.—The liveliest Republican spot in Chicago is along the Favorite Sons' Row. It is believed a compromise candidate will be chosen. Roosevelt and Hughes have been killed. The field there is narrowed to Fairbanks, Sherman, Root, Weeks, Burton and Cummins. The allies are confering, hoping that one of them will be named.

SAWMILLS OF THIS COUNTRY WASTE LOT OF WOOD, DECLARED

Sawdust, Shavings, Slabs, Etc., Total 36,000,000 Cords Per Annum—Forestry Service Working on the Problem

(Special to The Free Press)

Washington, May 8.—There are more than 48,000 sawmills in the United States, and their output of waste in the form of sawdust, shavings, slabs, and other wood refuse is estimated as 36 million cords per year. This is equal to over 41-2 billion cubic feet of waste, which is the capacity of a bin one-half mile high with a base covering a forty-acre lot. Or, considering each cord to contain eighty cubic feet of solid wood with all the cracks and air spaces taken out, these 36 million cords would make a block of wood more than a quarter of a mile on each edge.

Perhaps one-half of this so-called waste product is not strictly speaking, wasted, but serves a useful purpose as fuel under the boilers. Much of the remaining 18 million cords not only serves no useful purpose, but in most cases is a source of inconvenience and danger, and costs the mill time and money.

No Solution Yet.

No well-managed mill would produce waste if it could be avoided. This, however, is not possible. So the next best thing is to seek out some method of utilization of the waste so it will pay for its disposition. The Forest Service is working on this problem, but has not yet found a satisfactory solution.

NEW SUPERINTEND'T LOCAL SCHOOLS IS A NORTH CAROLINIAN

K. R. Curtis Comes From Portsmouth, Va., to Head Kinston System

WELL PREPARED FOR JOB

Recommended by Such Educators as Joyner, Walker, Brooks, and Others—Was Reared in Bertie County—Young Man

K. R. Curtis, supervising principal of a section of the Portsmouth, Va., public schools, will be the new superintendent here, it was announced on Wednesday evening. The local trustees had agreed on Mr. Curtis several days previously, but had withheld the announcement pending his acceptance. Mr. Curtis succeeds Barron Caldwell, who resigned a few weeks ago to engage in a manufacturing business in the western part of the State.

Is a Tarheel.

Superintendent Curtis was born in North Carolina. He was reared in Bertie county, not far from Kinston, and was educated in the State. He graduated from Wake Forest College. He took a postgraduate course in Columbia University to prepare himself further for the teaching profession, which, his friends here say, he intends to make his life work. He is married and has a youngster of his own. He is about 35 years of age. He is known to quite a few persons here.

Started at the Bottom.

Mr. Curtis began teaching in rural schools, gradually advancing until he was called to Portsmouth two, three, or four years ago. His position here will be a promotion, since he was not the superintendent, but an assistant to the superintendent at Portsmouth. He has recently spent six weeks in Washington, D. C., studying the model system of the Capital. He was made a vice-president of the Virginia Teachers' Assembly some time ago. He was recommended to the Kinston trustees by such prominent educators as Supt. J. Y. Joyner of North Carolina, Professor Walker of the University of North Carolina and Prof. Brooks of Trinity College and many others.

It is expected that Mr. Curtis and family will come here during the next month or two to take up their residence.

The Portsmouth man was chosen out of fully half a hundred applicants. The Board of Trustees had been kept busy for several weeks examining the merits of the various candidates.
