Charlotte, N. C., July 17.—Grave fears are felt for a party that attempted to rescue twenty men engulfed in Catawba river when a bridge went down. The boat carrying the rescuers is reported to have capsized.

Railroad and Wire Traffic Completely Paralyzed. Washington, July 17.—The Southern Railway today practically abandoned all traffic South of Washington. Reports continued to pour in recounting disasters from the floods in North and South Carolina. A second bridge on the Charlotte division went down early this morning. Train service beyond Salisbury is stopped. Telegraph wires South of Charlotte also are down, Atlanta being reached via Chicago and New Orleans.

Ten million dollars damage, five known killed, hundreds injured and missing, railroad and wire traffic paralyzed and demoralized, were the results of the floods sweeping the Carolinas and Virginia.

Asheville, July 17.—The floods have left five hundred homeless and enrolled Mrs. George W. Vanderbilt and daughter Cornelia among the heroines. They are personally in charge of the rescue work on their great estate. Many times today they waded through water to their waists to direct relief measures.

Governor's Secretary Acting Governor; Craig Marooned. Raleigh, July 17 .- With terrible flood conditions in Asheville, Charlotte and Salisbury districts, it is impossible to communicate with Governor Craig, who is marooned in Asheville. His private secretary, Miss May F. Jones, is acting as Governor, disposing of important immediate matters.

Lowland crops are feared to be destroyed.

Damage Ten Millions.

Asheville, July 16 .- Five known dead, with a probability of the num ber being increased to eight, the whole lower section of the city under water, Biltmore flooded to the second stories of the houses, hundreds of people homeless, a hundred houses washed away, property damage now amounting to \$10,000,000 and a city without light or power, is the net total taken by a great flood which swept this section at an early hour this morning. The city is isolated from the outside world, save for wire service, and the damage in the surrounding towns must bring the total up to more than even the huge figures mentioned above. Railroad service is suspended and the tunnel at Ridgecrest is caved in at two places. The flood was caused by a edoudburst and the bursting of the dams confining the three artificial lakes at Hendersonville.

TROOPS NURSE SORE ARMS AT CAMP GLENN BRIEFS IN THE NEWS

Anti-typhoid vaccination has eaused many sore arms among the soldiers at Comp Glenn. Practically every man of the more than 3,000 there has received the treatment. A large per cent, of the infantrymen and troopers was rendered temporarily unfit for duty last week.

The recent storm blew up much sand at the reservation, and that made the generally very comfortable camp less pleasant.

His defense was that he was working in the interest of Ireland's sovereignity, but not against England.

Although a statement has been communicated from the American Government, through Ambassador Page, informing the British Government that much interest is taken in the disposition of Sir Roger's case, nothing more nearly approaching a formal appeal for clemency could with diplomatic propriety be votchsafed. The judges may not announce their decision today.

Petrograd, July 17.—Profoundly impressed with the steady Russian advances, the Germans are massing enormous forces before Kovel, bringing up every available reserve and hoping to stall the Russian mowing machine.

Kovel's fall would be a staggering blow to the Central Powers, completing the Allies' disrupting plans. The Russians are amply supplied with ammunition. Great reinforcements of Cossacks, Urals and Siberians are arriving at the front.

Emperor Saw Germans Retreat.

Berlin, July 17.-Leading German newspapers are now rallying to the support of Chancellor, Bethmann-Holweig, who has been under attack by advocates of an unrestricted submarine campaign. They deny that his peace discussions have weakened Germany and reassert confidence that the Allied offensive will be defeated, though it is realized the fighting is not over by far. The Russian losses since July 1 have been over 262,000, a semi-official news agency today announced. They include nearly fifteen thousand officers, of whom seventeen were generals.

SAYS THE SOUTHERN **NEGRO BEATS BROTH'R** IN NORTH TO FINISH

Dr. Charles H. Bynum, a colored physician of North street, has made the interesting discovery that Southern negroes are smarter than their brethren in the North. He is rather proud of the fact. The difference is about this, he says: In the North, left upon their own resources, with something expected of them, they do not materialize so well. In the South, with that perfect understanding between the races which the Northern white man cannot understand, the colored man is expected to work and all of the advice that he gets from the white man is of that neighborly kind which encourages and does not condemn if he should

Dr. Bynum say sthat of his classmates at Lincoln University, Pa. where he was educated, practically all of the Southern colored men went to work to make their lives successful, while the reverse was the case with the Northern negroes. "They looked for summer jobs."

It is a fact, says the physician, that most of the 30 colored physicians in Philadelphia and most of the other professional men of the race there and in other cities where he has been, are from the South.

THIS PART OF THE **COUNTRY IS NOT IN** PATH SUMMER GALES

"This is the chosen country." Col. Henry Shaw this morning told of the explanation of Dr. Richard Lewis of the lack of destructive storms in this part of North Carolina, eliminating the equinoctial gales which seem to above by no set rules and the wintertime nor'easters and nor'westers which break their violence on the projecting coast of North Carolina. Col. Shaw was discussing the West Caroina floods and the storms which

Dr. Lewis said it is the tendency of hurricanes making up in the warm seas to seek cool temperatures. Most Gulf gales head straight north, and the same is true of the Caribbean howlers. East Carolina is out of their track. For the storm that hits Charleston, traveling in a straight line, passes overland maybe a hundred miles or more to the west of this section, which is on a big peninsula running out into the sea. Atlantic storms affect this section, after being broken up pretty well on the coast, but Gulf and Caribbean storms very seldom reach it.
