

BRUSILOFF TAKES GERMANS OFF THEIR GUARD AND THREATENS TWO THEIR MOST IMPORTANT POSITIONS IN FLANK ATTACK

Russian Genius Struck Suddenly at Lines From Which Troops Had Been Withdrawn to Reinforce the Front Where His Assault Was Expected—Both Kovel and Works at Pinsk May Be Taken—Armored Turrets in Marshes Before Kovel Compel Slav to Change Tactics Three Armies Swing Like Giant Pendulum and Smash Into Tautons' Lines—Russians Expected to Accomplish Something Out of Ordinary Before the Winter

(By the United Press)

Petrograd, Aug. 21.—By suddenly shifting his attack to the Stochod river front northeast of Kovel, Brusiloff has caught the Germans off their guard and is driving westward for substantial gains. Brusiloff struck north, while the Germans were stripping their northern lines for the defense of Lemberg from the South. The flanking attack menaces both Kovel and the Germans at Pinsk. As a result of the Germans' sinking turrets in marshy ground around Kovel, the Russians have ceased their frontal attacks.

During a lull at Kovel, the armies under Generals Kaledin, Sakharoff and Letchitsky swung westward like a giant pendulum, the movement was proportionally faster at the extreme south.

Expert opinion believes more depends upon Brusiloff's campaign than the mere fall of Kovel and Lemberg, as the Hungarian plans are threatened. Extreme confidence in the Russian generals presages sensational events before cold weather.

German Attack on Fleury Fails.

Paris, Aug. 21.—The Germans made a desperate attempt to recapture Fleury, three and one-half miles northeast of Verdun, last night, attacking in force after spraying the position with liquid fire. The French by infantry fire checked the attempt, the war office says. The whole of Maurepas is now in the hands of the French. Active artillery took place on the Somme front last night. There were no infantry engagements of importance.

Fighting on the Balkan Front.

Saloniki, Aug. 21.—Bulgarians are engaged in sharp fighting with Serbs on a 15-mile front, 70 miles northwest of Saloniki. The Bulgarians emerged from the village of Florin, attempting to advance southward. At the same time strong Bulgarian detachments attempted an offensive along the Monastir-Saloniki railroad. The Serbs drove in the right flank of the Florina force, forcing them back upon the town, and at the same time vigorously attacked eastward as far as Lake Ostrove. The fighting continues. Incessant skirmishes between patrols are reported from the French-British front on the whole Greek border east of Lake Dorian. Artillery is in progress in the Dorian district. Airmen of both sides are very active.

(By the United Press)

London, Aug. 21.—Germany has shown a disposition towards peace, except on terms dishonorable and humiliating to the Allies, Premier Asquith today told the House of Commons in a statement in answer to the assertion of the German foreign office that England is blocking the way to peace.

Santiago, Aug. 21.—The Chilean government has instructed its ministers to sound the sentiment of the United States, Argentine and Brazilian governments relative to a joint protest against the British blacklist, it is announced. The action resulted from complaints from Chilean business houses, who declare the blacklist is crippling trade.

PLENTY OF SHARKS IN PANLICO SOUND; FOUR GLIMPSED IN A SCHOOL

G. C. Walter, a well-known traveling man, who recently spent his vacation at Ocracoke, reports that sharks are plentiful in Pamlico Sound. "Dog sharks" of large size are frequently caught in the sound, but manatees, such as Walter saw, are very rare. He glimpsed four at one time swimming around a fish-house at Ocracoke, he declares. The sharks were near the surface, waiting to seize offal from the fish-house. One of the creatures was judged to be about eight feet long. They were quite fearless. Walter baited a line which was seized by a 5-footer immediately it was thrown over. The shark darted off and snapped the line, which proved to be rotten.

YOUNG JUDGE DEVIN HOLDING HIS FIRST TERM COURT LENOIR

Will Preside Over Terms In Judge Allen's District During Six Months—Unimportant Criminal Term Is On

The August criminal term of the Superior Court was convened here this morning. Judge W. A. Devin of Oxford is presiding. He will conduct the courts in this district for the ensuing six months.

Judge Devin is one of the younger members of the Superior Court bench and he handled the business of the court this morning with a dispatch that is pleasing to those who have to do with the tribunal. His charge to the grand jury was comparatively brief and to the point. He emphasized most forcefully the duty of the jurors as sworn officers of the law to look into the commission of crime against the laws of the 1 d, without fear or favor, to investigate the conduct of the various county institutions and to report on any conditions that were not what they should be.

Judge Devin laid particular stress upon the dangerous practice of carrying concealed weapons and gave it as his opinion that it was too easy for the dangerous class of man to provide themselves with fire arms to kill somebody with at the slightest provocation. He touched upon the keeping of bawdy houses and said the officers of the law could make cases against such defendants upon the strength of the general reputation of the house and the proprietor and that the actual illicit relations were not required to be proven. He did not think it right to impose upon other communities by sending unfortunate women away and suspending judgment but thought it best to impose such penalties as the evidence warranted and have the convicted defendant pay. The violation of the liquor traffic, danger of lynch law mentioned. All jurors, court attaches, witnesses, attorneys and others having business with the court must be on hand when their names were called or cases were ready to be taken up, said Judge Devin.

There are sixty-one cases on the docket for the week's term. None is of very great interest.

CAPT. BROADHURST DIES AT GOLDSBORO

Capt. D. J. Broadhurst, 72, many years a magistrate and for a score of years city clerk of Goldsboro, died at his home in that place Sunday morning at 8:30. He sustained serious injuries by a fall several weeks ago, and his death was directly due to that, it is said. Funeral services are expected to be held this afternoon.

Captain Broadhurst was a native of Wayne county. He was a captain in the Confederate army. He lost an arm at Chancellorsville. He was with Stonewall Jackson a few minutes after the famous general was shot. Mrs. Broadhurst, fifty years of that name, and eight children survive. The children are in Oregon, Texas, Georgia and this State. One of them is Capt. Hugh H. Broadhurst, Eighth U. S. cavalry, not at Fort Bliss.

ALIEN INSTRUCTION URG'D; GOVERNMENT WANTS THEM TAUGHT

Americanization Necessary. Public Schools Can Operate—Cost Trifling—Many Places Now Maintaining Classes

(By the United Press)

Washington, D. C., Aug. 21.—Greatly increased school facilities are to be provided this fall for the instruction of foreign-born residents of the United States and especially for alien candidates for citizenship. During the last scholastic year the public school authorities of approximately 650 cities and towns in 44 States of the Union were co-operating with the Bureau of Naturalization of the U. S. Department of Labor in this branch of its educational activity. According to information thus far received by the Bureau, nearly 100 others have signified their intention of joining in the movement and all indications now point to a most gratifying record for the 1916-17 school year.

It is the desire of the Bureau of Naturalization that public school night classes be installed wherever the need exists for the education and Americanization of foreigners. This field of operation of the public school field of operation of the public schools is not limited to those who have applied for naturalization. It is intended to include all foreign-born residents whose instruction in English and civics would, beyond question, result not only in great personal benefit to themselves, but would be of signal advantage to the city in which they reside and, logically, to the nation as well.

That the cost of the establishment and maintenance of such schools is relatively small as compared with the great good accomplished, is convincingly shown by reports received from the public school authorities who co-operated with the Bureau of Naturalization last year. With this in view, the Bureau is urging the superintendents of schools all over the country to insert in their municipal budget for next year an item providing funds to cover the expense of carrying on this public night school work.

PAULINE FREDERICK
The Famous Playmate-Paramount Star

The second week of the 1916-17 tobacco season showed no let up in the high prices which prevailed during the first days. A total of 44,722 pounds was sold on the local market today. The average was \$20.68 per hundred. Pretty fair for Monday. In fact, there is nothing of the "blue" element about the five tobacco warehouses in evidence, and well it may be housed here. The spirit of good feeling for the prices that are being paid for the biggest crop of this section is enough to put the "smile that doesn't wear off" on the faces of the producers and all who will profit either directly or indirectly in the good market and the circulation of the cash proceeds from the sales.

GRAIN WILL ROT AT SIDINGS, CITIES BE HARD PUT TO FEED POPULATIONS, ENTIRE NATION BE PROSTRATED, BEFORE STRIKE

Unless Railway Presidents Bend to Will of President and Employees—Heads of Systems Trying to Learn How Public Is Inclined—Thousands of Mills' Wheels Would Stop Turning Simultaneously With Cessation of Traffic, and Greatest Industrial Battle in the World's History Would Stop a Nation's Progress—Crisis in Situation Seems to Have Been Reached—Executives of Railroads to Confer With President Again

(By the United Press)

Washington, Aug. 21.—The loss of millions of dollars in crops throughout the country in the event of a railroad strike, is a new possibility before the Administration. A tie-up would mean that wheat and other products now ready for the mills would be held up indefinitely, and possibly would rot at sidings, if stopped in transit.

More than two score railroad presidents and 640 employees today held separate meetings to continue the discussion of President Wilson's proposal.

The employees declare they will not deviate from the president's plan. Upon the final decision of the railroad executives, and the final action of the President, it would appear then, depends whether thousands of mills will stop, cities face food shortages and the entire country be prostrated before what is believed to be the greatest struggle of capital and labor in history.

The railway executives requested a conference with President Wilson at 2:30 o'clock.

They are watching editorial comment to get the trend of public opinion.

SLIM RESPONSE TO BRITISH LOSE TWO PLEA FOR ADDITIONS SMALL CRUISERS IN TO THE FLOOD FUND NORTH SEA BATTLE

Only Two Dollars and Half Reported Since Saturday Afternoon and More Than \$200 Needed to Reach the Goal

There was a small gain in the local contribution to the Flood Sufferers' Fund in the past 48 hours. The list this afternoon stood:

Previously reported ... \$795.64
Cash ... 2.50

Grand total to date ... \$798.14

The response to the local committee's appeal printed on Saturday and Sunday was not liberal. Kinston is still a little more than \$200 below the \$1,000 mark set, and the situation in West Carolina is bad.

It is hoped that the sum can be raised in the city and Lenoir county in the next few days.

German High Seas Fleet Is Reported to Have Made Appearance Again—London Claims Couple Submersibles Bagged

London, Aug. 20.—The German high seas fleet has again appeared in the North Sea and in a clash between German submarines and British warships two light cruisers have been sent to the bottom. London reports that one of the submarines was destroyed and that another was damaged and possibly sunk.

This is the first appearance in the North Sea of strong German naval forces since the battle of Jutland on May 31.

The two British vessels lost were the Nottingham, 54,000 tons and the Falmouth, 5,250 tons. The crews of both ships were saved with the exception of 39 men. The Germans also claim to have sunk a British destroyer and damaged a battleship, but this is denied by London.
