(By the United Press)

London, Oct. 3.—Bulgarian forces have attacked the Roumanian army that crossed the Danube and invaded Bulgaria Sunday, and a violent battle is raging east of the Fortress of Bustchuk. An Amsterdam dispatch reports that the Roumanians forced a crossing with little opposition and threw up strong entrenchments before they were attacked. Roumanian monitors on the Danube first silenced the Bulgarian shore batteries, and the invading forces landed under cover of their fire. The size of the army is unknown, but military critics believe it must number at least twenty thousand men.

Zurich, Oct. 3.—The Italians have been violently bombarding Austrian positions near Monfalcone for three days as if in preparation for the renewal of the drive on Trieste. Air squadrons are bombarding the enemy communications. Austrian press comments on the severity of the bombardment and warns that withdrawal from Somme points may be necessary.

Paris, Oct. 3.—Continuing their advance northeast of Florina, the Serbs have captured first line trenches on the heights of Stakograb, it is said officially. Bulgar counters against the new British positions on the east bank of the Struma have been repulsed with heavy losses.

Embassy Believes Parliament to Blame.
Washington, Oct. 3.—The persistent opposition of the Japanese upper, non-elective, House of Parliament to the policies of the premier, was responsible for his resignation, the embassy believes. He controlled the lower house, but a coalition in the upper was formed against him.
It is said Okuma contemplated resignation in a few months.
Viscount Kato, former minister of foreign affairs under Okuma, is said to be his choice to succeed him. Kato's opponents are urging Count Marashu Terauchi, governor general of Korea, who holds the highest rank in the army. Okuma is 79 years old.

State Investigation of Very Grave Situation—May Be Prosecutions—Baby Hospitals Still Getting Sufficiency, Said

(By the United Press)
New York, Oct. 3.—Twenty-five to 31 per cent. of the usual milk supply is reaching New York, according to estimates made by both sides in the big milk strike. Hospitals for babies are still being supplied with fresh milk, but restaurants in many cases are without the product and households are only partially supplied. The State authorities are rushing an investigation. It is alleged that it is distributing and producing combines which are at loggerheads. An attempt to determine whether the Dairyman's League is a combination in restraint of trade and whether the big distributors are guilty of price-fixing is being made.
His age may have been responsible for his action, it is thought by some.

HIGHWAY EXPERT IS GREETED BY QUITE UNEXPECTED CROWD

Winslow, to Have Been the Speaker Before Board of Agriculture, Might As Well Have Been Republican Campaigner

A meeting of the County Board of Agriculture that was to have been held in the Courthouse Monday afternoon had to be called off because of the smallness of the attendance. D. H. Winslow, agent of the U. S. Office of Roads in charge of this section of the Central Highway, was present for an address, which, of course, could not be delivered to empty chairs with any degree of satisfaction. The chairs in the Courthouse are quite inconsiderate creatures, and would probably refuse to hear a good roads address. They are of such course breeding and unresponsive to progress. Mr. Winslow expects a Federal appropriation for his link of the highway this month.
The County Board of Education in regular session Monday ordered a new school district in Woodington township.
The Board of County Commissioners after transacting routine business Monday visited the special contract road work in progress in the county, inspecting the construction, etc. The Board authorized the purchase of a second motor truck for the building and maintenance of highways. The machine will cost about \$5,000.

Villa, in an impassioned address to the townspeople, declared he was fighting "only the traitor Carranza," they said.

COUNCIL TAKES ON LOAN OF FIFTH OF A MILLION DOLLARS

Not to Increase Indebtedness, But to Retire Existing Obligations

Representatives of Library Association Secure Increased Appropriation—Norfolk Southern Paving On the Bum
LADIES HAVE NO TROUBLE
The directors of the Chamber of Commerce at a meeting Tuesday night at 8 o'clock will take up the matter of a packing plant for Kinston.
"It is a well-known fact that the farmers of this section are producing more meat and more feedstuffs than ever before," said Secretary F. I. Sutton Tuesday. "It is equally well-known that pork and beef can be produced here for one-third to one-half of the cost that it is grown in the west. We have a not very satisfactory condition here every year. During a part of the year meat is shipped into Kinston and the consumers pay high prices. During the winter the market is at times glutted with the home-grown product and prices drop to a trifling level. The packing plant would stabilize the market, encourage the production of meat and bring a lot of money into the city from the outside. The supporting country is splendid, and it is generally conceded that it is going to be the South's best livestock section."
The expense of establishing the plant might reach a hundred thousand dollars, according to some estimates. That, however, is a small thing for a city of this size, especially in view of the co-operative spirit of the community and the tendency of the business interests to boost Kinston, it is pointed out.

LAST OF FLORIDA BANK ROBBERS SURRENDERS

Fort Myers, Fla., Oct. 2.—Chase for the four bandits who robbed a bank at Homestead, Fla., on September 15 of \$6,000 ended today when the body of James Tucker, one of the robbers, was found in Lopez river, and Hugh Alderman, who police say confessed his part of the crime, surrendered. Tucker was drowned while trying to swim the river.
Tucker's death makes five resulting from the robbery. During their flight down the Florida east coast the bandits fought several pistol fights with pursuers, and three passengers were killed. They escaped from that section, went to Key West and started up the west coast. Leland Rice, said to have been the leader of the band, was shot and killed by a real-

COWPER TELLS ON SLOW COUNTY VOTERS BELLIGERENT FEAR WILSON ON PAR WITH WASHINGTON

"Our Honor Preserved In Pristine Purity"—Jacksonville Gathering Becomes Mass Meeting for Peace

(Special to The Free Press)
Jacksonville, N. C., Oct. 3.—"Thank God! up to this hour when the Democratic President has calmly but firmly said his last word, it has been headed, and every foreign power has decided that something else would do rather than go to war with this country while Woodrow Wilson's commander-in-chief. I say it was a part of one consistent and continuing purpose to place America first, to protect her without the necessity of the horror and destruction of war, if this can be done with honor, but with the sword as the last resort, if nothing else will do."
G. V. Cowper, Democratic county chairman of Lenoir county, in an address to a large Democratic gathering here yesterday declared that Wilson is on a par with Washington, Jefferson and Lincoln, and that he has followed the precedents of the three. When Wilson said, "Thus far and no farther," the Kaiser heeded, while all the forces of the Allies had been impotent to cause this prince of war to change his policy of submarine warfare on Iota, Mr. Cowper said. "I prefer one accomplishment like this to a thousand mere idle words of a candidate who hopes to gain the presidency (Hughes) by picking laws in the quiet man of action who stood and still stands in the heat of the actual emergency." The crowning glory of this administration, "the brightest star in the galaxy of Democratic achievement, is that in his troublesome time, when the whole world is like an armed camp, the cries of anguish from hundreds of battlefields mingle with the tears of orphaned children and widowed mothers, we have been spared from the cruelty of war, and yet, our honor has been preserved in its pristine purity."
The Lenoir chairman talked mostly about the administration and its foreign policy, and the Mexican affair. The gathering was resolved into a mass meeting for peace and frequently the speaker was halted by the cheers of the farmer following the Man of Peace who has brought the people back to "the doctrine of the Fatherhood of God and the brotherhood of man."
Mr. Cowper discussed the tariff, the constructive legislation of the administration, "what Republicans will not make the issues," and "what they do make the issues. He touched lightly upon State matters, saying that it was his part in the campaign principally to talk of national affairs. He went over the achievements of the successors of Russell in the commonwealth, however, and showed how North Carolina is eradicating illiteracy, how the State has progressed to a brilliant stand in the matter of public health, and how every other State in the union has a higher tax rate. The Republican campaign argument is a mass of nothingness, he said. "My heart swells with the pride that knows no bounds," he declared in telling of Democracy's achievements in North Carolina.
