MONDAY EVENING, OCTOBER 9, 1916

The Red Sox have a decided advantage in having won the first game in the world's series; but then the spirit of the sportsmen will tell the Dodgers that the "game is yet young" and that if their antagonists rest on their laurels the tide will quickly change for them.

There was considerable speculation in official circles regarding the sudden and unannounced visit of the German submarine Saturday to American waters. But to the average fellow the mere statement that "she" had arrived was proof conclusive that there was meanness in the air and some unsuspecting watercraft would probably be resting snugly on the bottom of the great deep before very much speculation could be carried on.

The first news of the arrival of the German naval submarine off the American coast was given to the people of Kinston through the columns of The Free Press Saturday afternoon. The "flash" from the ever alert and wide-awake United Press came just as the final score of the first world's series game arrived. It was too late for much elaboration, but the readers of The Free Press knew that another unprecedented accomplishment had been scored by the Germans. "Today's News Today in the Home Paper—The Free Press.

A day and night spent in Tarboro, the beautiful capital of Edgecombe, in company with the good people there, and the representatives of the Christian Endeavor Societies of the Northeastern District, in their first annual district convention, was both pleasant and profitable. The cordial hospitality, characteristic of the South, was abundantly in evidence, and the spirit of welcome greeted the delegates from Kinston and elsewhere throughout the district. The inspiration of the association with that splendid pair of Christian Endeavor leaders, Southern States Secretary Karl Lehmann and President of the North Carolina State Union George Mitchell was refreshing, indeed. Incidentally, Tarboro shows much of the spirit of "move forward" and progressiveness, which is blessing this section now.

"SCHOOL DAY."

Wednesday, October 25, the second day of the Kinston Fair will be "School Day." On that occasion, Deo Volente, the boys and girls, youths and maidens, just blossoming into young manhood and womanhood will be assembled in Kinston in marshal array for the exhibit of Lenoir's greatest asset. Twelve months ago, when "Educational Day" was celebrated, approximately five thousand—the largest parade of the kind ever staged in the State to that time—marched down Queen street and about the fair grounds. The sight was most inspiring and gave new impetus to the cause of education hereabouts. Not a single untoward incident transpired to mar that memorable day. So well had the chief marshal and his assistants arranged for the safety of the little fellows and so perfectly disciplined were they, that not a hurt was scored, in spite of the fact that Kinston's population for the occasion was more than doubled, there being at least fifteen thousand visitors here.

This year the educational committee is planning even bigger things. A great parade will be had and the people will be given an opportunity once more to see in magnificent and impressive assembly those upon whom the future of the section rests.

Success to the plans, and may it be possible to bring every boy and girl in Lenoir and adjoining counties here for the day that should be the premier of the quartet.

SUCCESS FOR THE WAYNE FAIR.

Tuesday the Wayne County Fair, in its initial exhibit, will open its gates at Goldsboro. Great preparations have been made by the promoters of the community enterprise to make of the fair a great success. Much splendid publicity has been given through the press of the State, and there is every indication that a fine record will be made. Special trains will carry visitors from New Bern, Kinston and intermediate points.

The Free Press hopes that the people of Kinston and this immediate section will lend their encouragement to the good folks of Wayne and help them make their first fair a great big success. Incidentally we hope that our neighbors will see fit to reciprocate and come to Kinston in large numbers the week of October 24 to 27 for the "big things" that are to be pulled off here in the second annual exhibit of the Kinston Fair.

A fine healthy circuit of fairs for Eastern Carolina will do much to stimulate that wholesome rivalry, so conducive to growth and prosperity. The development of the section's resources can be encouraged in no better nor more effective way than by holding such fairs and exhibits as will demonstrate its possibilities. Let there be rivalry of that good friendly kind devoid of petty jealousies.

Some months ago anti-preparedness folks were stalking about the country and volunteering the information that no German undersea fighter could make the trans-Atlantic trip without an intermediate base. The arrival of the U-53 Saturday and departure without so much as the taking on of a glass of fresh water puts to route all such theories. "Necessity is the mother of invention," and with the Germans "everything seems possible."

WHAT OTHERS SAY

"ALL DIFFERENCES FORGOTTEN."

Richmond Virginian: "Hon. Claude Kitchin says he has swallowed the differences which cropped out between the President and himself during the sessions of Congress, and declares: 'Every impulse of my being impels me to forget these differences and to support Woodrow Wilson and the Democratic party enthusiastically.'"

"So say we all! There may be some who take the extreme pacifist view that our military preparations are unwarranted and extravagant, while others may take the other view, that professed by Roosevelt and his ilk, which is that our preparations for war don't go half far enough; but, we believe, Americans generally endorse the reasonable preparations for emergencies now making.

"These preparations should not, and, in the hands of Woodrow Wilson and the Democratic party, will not, be construed as a menace to any nation in either hemisphere. America, however, must assure itself against trouble by carefully selecting the men in whose hands the great power of government is to be placed.

"Had the world war come in the seven years of Theodore Roosevelt's administration, who can tell the sorrow and death and debt it would have entailed on this nation?"

"Our Chief Magistrate is a constitutional ruler, but there are lodged in his hands powers so large and varied and influences so potent for good or ill that to entrust them to an unworthy or vicious person is unthinkable.

"Then let a united America declare strongly, unmistakably for the man who represents America's best thought—Woodrow Wilson.

INTENSIFIED FARMING.

Winston-Salem Journal: "Alfred Carlstead was the son of a Minnesota farmer. His father, a 'practical farmer,' with progressive notions, sent him to the State Agricultural College, in spite of the disapproval of his practical neighbors. The father died when Alfred was 19 years old, and nearly through his college course. He left the boy the land, a worn-out set of farm machinery and some debts, with two small brothers to care for.

"The neighbors advised Alfred to sell the farm. They merely smiled when he spoke of jumping in and applying the scientific methods he had learned at the agricultural school. Such 'theories,' they told him, were no good when it came right down to the actual business of farming.

"Alfred decided, nevertheless, to go ahead with the farm and run it according to the principles of modern, scientific agriculture. The first year he had all sorts of trouble. His friends advised him more strongly than ever to sell out and try something else. But he kept on eagerly, refusing to give up his 'theories.'

"He has been at it four years now. He has paid off every dollar his father owed, restocked his farm, outfitted it with modern machinery, put up some new buildings and improved his soil. Last year he cleared \$17,000. This year he started in with everything paid for and \$20,000 in the bank. At least, so say reliable reports."

Oysterettes advertisement featuring an image of a box and a single oyster cracker. Text includes: 'Oysterettes the Oyster Cracker that makes the best oyster better. Serve them with soups, salads, chowder, etc. They will add to your reputation as a hostess. Always fresh. At all grocers. NATIONAL BISCUIT COMPANY' and a price tag of '5c'.

LOCAL HIGHS MAY PLAY AT GOLDSBORO'S FAIR

Negotiations are in progress whereby the local High School football eleven may play the Goldsboro Highs at the fair grounds there either Wednesday or Friday.

Comprising the Kinston team are Jim Poplin, center; John L. Nunn and Norman Hardy, guards; Marvin and Dewey Sutton, tackles; Roy McNairy and Donnie Lewis, ends; Jack Tyndall, quarterback; Sherman Morris and Leonard Fields, halfbacks; Clayton Morris, fullback and captain; Edward Moore, Herman Long and Heber Gray, substitutes. Jack Tyndall is managing the team.

Coaching the local Highs this season is Reynold Allen, for three years on the U. of N. C. eleven and a star man. Allen is teaching the youngsters some new things about the game. There are only three new men in the '16 lineup, and the average weight is 139.

WILD WEST SHOW IS TEACHING HISTORY

"Millions of the present generation, who must soon in their turn assume the responsibility of conducting the affairs of the republic, should know our history and renew acquaintance with the type of men who were scouts and pioneers and ranchmen and who built the foundations on which the present great commercial prosperity is based," said Major John M. Burke, here Saturday. Major Burke is a long-time "side kicker" of Buffalo Bill Cody, to be here Saturday, the 14th.

"Believing the time appropriate to utilize the small number of remaining factors in pioneerdom, a merger has been arranged between Colonel W. F. Cody (Buffalo Bill) and Miller Bros.-Arlington 101 Ranch Wild West Show. Buffalo Bill will be surrounded by more than a half century of the once Wild West atmosphere and the last of the younger Mohicans, the typical Oklahoma range riders, led by Colonel Joe Miller.

"They will present American history on a more comprehensive scale than ever as the show consists of a military exhibition, combined with a touch of the old days of frontier life in the North for which soldier boys from the South (direct from Mexican border service) are officially furloughed, to act as a guard to Old Glory in the parade, and in the exhibition, combining a program illustrative of training for national preparedness.

"This color guard is also active in recruiting for the United States regular army, with a recruiting officer in charge, to receive applicants, examine them and forward them to the nearest regular army recruiting office. Applicants, friends and guardians can receive all information desired from boys who have been there and have re-enlisted to return to the colors; some aiming to school themselves as all can in our army up to 28 years of age.

"Besides many innovations such as combined cavalry drills, all the realistic features of pioneer life will be presented. The highest of skilled horsemanship will give a lesson in that line which the present European war is emphasizing as still a valued military factor; that the cavalier has come back and that cavalry in which our nation can excel, in case of need, is available when the bugle sounds 'to saddles.'"
