MONDAY EVENING, NOVEMBER 27, 1916

Do your shopping early for Christmas and incidentally do it for Thanksgiving before Thursday.

Some of the Mexicans may be ignorant, but that fellow Villa is certainly not behind the times. Latest accounts tell of his automobile being shot from under him.

We learn from a newspaper dispatch that John D. Rockefeller was aroused from his sleep earlier than usual because of a boiler explosion on his plantation at Tarrytown, New York. As none others are mentioned, we assume that the loss of an hour's sleep was the only casualty.

FINE ORGANIZATION BOY SCOUTS.

Little has been said in the public press about the troop of Boy Scouts organized in Kinston several months ago by Mr. Alfred Cheney, and the average citizen may not appreciate what splendid work is being done among the boys through this agency. In spite of the fact that there are a number of boys enrolled in the troop, who have not heretofore established reputations for being particularly good, the discipline and conduct of the scouts as a whole has been most encouraging to those who have had to do with its organization and direction. Scout Master Cheney has developed an esprit de corps among the fellows of the troop which is most gratifying, and it has already been demonstrated that the local organization is going to keep step with the fraternity of the country-at-large in developing a manly, high-principled set of boys of whom the parents, friends and all others, who have occasion to come in contact with them, can be proud.

The Free Press is glad that public expressions have been largely withheld until this time, for in the outset it would have been necessary to have commended the prospects rather than the achievement, as is now possible. Scout Master Cheney and the boys in the troop deserve credit for the splendid progress that they have made during the short time that they have been together in their organization, and The Free Press is glad to speak for them a word of encouragement from the people of Kinston in their good work.

LAND SALE BY MORTGAGE.

Under and by virtue of the powers contained in that certain mortgage deed made to the undersigned, the First National Bank, Kinston, N. C., by R. A. Wooten and wife, Emma Wooten, on March 2nd, 1914, which mortgage appears of record in Lenoir county in Book 47, at page 249, default having been made in the payment of the indebtedness secured by said mortgage, the undersigned First National Bank will on De-

ember 20th, 1916, at about 12 o'clock M., at the courthouse door in Kinston, N. C., offer for sale to the highest bidder for cash the following described tract of land, which is that mentioned in said mortgage deed, and is more particularly described as follows:

Beginning at a stake on the west side of the Kinston and Snow Hill road near a tenant house on J. H. Mewborn's land and runs N. 43 E. with Mrs. L. L. Tarrott and W. O.

PAY SCHOOL TUITION WITH FIREWOOD; TWO LOADS FOR A TERM

Seashells are a medium of exchange even yet in some parts of the African West Coast country and in islands of the South Sea. In Pender county children at a school near Watha have an even sadder currency. They pay their tuition with firewood. Two loads a term, valued at 50 cents a load, sees them safely through the scholastic year.

The institution, the Carolina Industrial school, maintained by voluntary contributions from the North, is turning out a lot of progressive youngsters to battle for their dues in this selfish old world. The superintendent, Mr. W. S. Key, came to the school from Boston, but his policy is to settle his graduates in the country around the school. He is not a New Englander; he was an Englishman, but now he is a "North Carolinian and proud of it." Occasionally, though, some Bostonian comes down and carries off a "charming little girl" or a "bright young fellow," and a number of them are making good business ways in the North. The Northern friends of the institution keep it supplied with everything but fuel. The neighborhood farmers are glad to furnish that.

There are about 60 pupils at the Watha school, and about the same number at a similar institution in Onslow county. At the Pender county institution there is a little farm about 12 acres of which is cultivated in vegetables, and on the miniature plantation there are a large number of blooded cattle and hogs. Another teacher is coming there from the Hub of Enlightenment. The curriculum is very high.

MAIL EARLY AND HELP ANOTHER GOOD CAUSE

It's shopping time for Christmas all ready. A lot of people are purchasing now. And in remembering to shop early it would be well to prepare to "mail early." Packages mailed to relatives or friends can be entered at the postoffice days before Christmas, marked "Not to be opened until Christmas." If the public will mail early the clever outfit at the postoffice can spend Christmas just as other human beings—at home with their wives and babies.

Kinstonians mailing gifts to soldier relatives at El Paso should send them not less than a week before the 23rd. Ten days or two weeks would be better to insure their delivery before Christmas. There are 50,000 men at El Paso; the amount of mail going to them will be tremendous; there will probably be some congestion.

An Awful Sufferer
Burlington, N. C., October 16, 1916.
Pearson Remedy Company,
Burlington, N. C.

Dear Sirs:
This is to certify that I have been taking Indian Blood Purifier for a short while with the most satisfactory results. I would gladly recommend it to any one suffering as I have with indigestion, constipation and nervous prostration. For the last three years I have been an awful sufferer. Now I feel well and strong, work hard every day, and anything with no bad results. In fact, my condition was so awful that it seems almost like one being raised from the dead. I feel that I could not say too much in praise of this great blood and nerve remedy. My prayer is that you may live long and prosper.
Respectfully,
A. G. BOONE,
