Neutrals Won't Quit at Soft Refusal. Washington, Dec. 15.—"Mediation efforts or suggestions by the United States on behalf of a peace conference would be immediately followed by similar action by all

European neutrals.' The United States and European neutrals should consider any answer of the Entente Allies to the German an automobile passed him on peace proposal save a flat rejection as an invitation to of-fer their good services in arranging a peace conference." These statements were made to the United Press to-

day by two of the best-informed neutral diplomats in Washington, who are known to have discussed the question of peace with Secretary Lansing, and presumably to have presented these views to him.

Action will be delayed, however, by the European neutrals until next Tuesday, when the speech of Lloyd-George will give them a cue as to how to act. This is the gist of cablegrams from their foreign offices to neutral diplomats today. The United States and Spain, they said, Friday brought from 16 to 18 cents. are the two countries which will take the lead if mediation is offered. Switzerland, Holland and the Scandinavian countries are too dependent upon the absolute good will of both sides to run any risk of offending them by unwelcome action.

(Special to The Free Press)

Norfolk, Va., Dec. 15 .- The eighth annual convention of the Southern Commercial Congress, which closed here last night, was characterized by the officials of that body as one of the most successful in its history With very few exceptions every detail of the elaborate program was carried out in every detail.

Norfolk is justly proud of having acquitted herself so nobly before so many representatives of not only the South, but the greater party and several foreign countries as well. Each of the sessions of the congress was well attended.

Prominent among the speakers was Hon. Wellington Koo, Minister to the United States from the Republic of China. His excellency created a profound sensation at the morning session yesterday, with his clear understanding of the commercial relations of the two countries.
