THURSDAY EVENING, JANUARY 3, 1918.

No alarm need be felt at the report that a British tank will be exhibited in the South. The "animule" is in captivity.

Wm. J. Flynn, retired head of the United States Secret Service cannot be charged with having given up a soft snap.

That warmer weather predicted in the general forecast for the week scheduled to arrive Thursday morning evidently slipped up on the ice.

Those folks alleged to be cutting shade trees for fuel purposes are looking not to the necessities of tomorrow but supplying the emergencies of today.

Then, too, it is probable that those guilty of mutilating shade trees for fuel purposes had concluded that there would be no more need for shade in these parts.

That group of peace negotiators allegedly representing Russia and Germany are quarrelling among themselves just like any other ordinary bunch of crooks.

It is reported that the American Railway Commission has been expelled from Siberia. Very much more preferable treatment than to have been expelled to Siberia.

SALTS IF BACKACHE AND KIDNEYS HURT

Drink Lots of Water and Stop Eating Meat for a While if Your Bladder Troubles You.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them like you do your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water acids and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it

no longer irritates, thus ending bladder weakness. Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful effervescent lithia-water drink.

FIRE DANGER.

In such extreme weather as is now being experienced a tendency to overheat stoves and other apparatus greatly increases the fire risk, and the hazard, because of doubtful water supply, is much greater than in ordinary times. The Free Press sounded on its front page Wednesday a warning to the people of this section. The greatest care should be exercised and no chances should be taken. Inflammable and combustible materials should not be kept in close proximity to stoves or other fires and grate fires should not be left where there is danger of hot coals falling out and igniting the floor or floor coverings.

The Free Press believes that inasmuch as the large majority of fires are due to carelessness and therefore preventable that this note of warning is timely and it hopes that its readers will accept it in a kindly spirit and see to it that their own property, as well as their neighbor's, is protected.

Korniloff is dead, according to a report from Petrograd to London. The former commander-in-chief of the Russian forces led the first real revolution against the regime of Premier Kerensky, whose intentions at least appeared to keep the faith with the Allies. Korniloff's opposition to the Bolshevik rule may have mitigated somewhat for his part in the undoing of Kerensky, but it was more probable that Korniloff was in both instances seeking selfish ends rather than attempting to build up any real substantial government for his country.

Older citizens looking at the venturesome small boys who dared to walk across the frozen Neuse Wednesday declared that although in their recollection the river had been frozen at least four times, only once prior to yesterday had they seen anybody walk across.—We are quite satisfied that the records have been broken and are willing to yield all claims without any further demonstrations.

A returning delegate from the Brest-Litovsk conference to talk peace declares that Germany will not consider the declarations made there as binding unless the Allies accept the invitation to negotiate a general peace. It is extremely doubtful in the light of the past whether Germany would consider any agreement binding regardless of the circumstances in which it might have been made.

Kinston has been without street lights for the past few nights not because the man at the power house was under the impression that the moon was shining but in order to conserve the fuel. The discontinuance of the street lighting for the time being is at the suggestion of the Fuel Administration.

Old timers will now have to rig up their old lanterns when they have occasion to do any meandering after dark, and up-to-daters will of course use their pocket flash lights while war time conservation requires the discontinuance of the street lights.

It would appear that the change of American sub-commanders in the war zone before our troops had actually gotten into the fray was copying our Allies a little prematurely.

Outdoor Workers

are subject to exposure to all kinds of weather, and strenuous outdoor work brings the rheumatic aches. You can afford to be laid up, so heed that first twinge of rheumatism. Use Sloan's Liniment. Clean and convenient, no need to rub, no stains, no clumsy plasters and your pain disappears.

A Doctor For Only Five Cents a Day

That's What It Costs to Get Rid of Rheumatism by the Use of Rheuma.

Thousands of persons have Rheumatism, but don't realize it until the disease has secured a firm grip on the whole system. Pain is Nature's warning sign of trouble. Many serious cases of rheumatism start with a small pain or a slight indisposition, and the best time to avoid suffering is to treat first symptoms promptly.

Highly paid chemists and specialists have for years searched for just the right combination of natural herbs and drugs to overcome rheumatism even after it has been allowed to get a good hold. We believe they have finally succeeded in the production of the wonderful new medicine called Rheuma.
