SATURDAY EVENING, FEBRUARY 2, 1918.

It looks good to see Brother "Jesse" Clark's name again among the editorial staff of the Times.

Wanted to know the whereabouts of one Sun, which strayed from these parts a week or more ago.

Raleigh Times: "Spain certainly knows better than to start anything with her Uncle Samuel."—She may be bothered with an hallucination that this is the time to even up matters.

If the daughters of the former Czar of Russia have expounded the Bolsheviki cause as thinks a Wisconsin University professor, there may be "method in their madness."—But Nicholas can hardly make a come-back in any such fashion.

Reports indicate that some wheat substitute manufacturers have already boosted the prices of their products. Probably thought it was the "ill wind" for the wheat folks blowing them good. If such be so they are headed for an awakening of the rude, jostling kind.

The machinery for registering aliens, consisting of Chief Skinner and the volume of regulations, is ready, but where are the aliens?—Incidentally if their be any such "critturs" about here, they are commanded by Presidential edict to make their presence known and properly enroll themselves with the chief of police between Monday, February 4 and Saturday, February 9 or else suffer the consequences of their failure so to do.

Southern Railway System

J. O. JONES, Traveling Passenger Agent, Raleigh, N. C.

No. 108—1:50 p. m. for Winston-Salem, Greensboro, Durham and Raleigh.

NOT FANNING THE FLAMES.

The Free Press is not fanning the flames of discord in its discussion of the Selective Draft Regulations and their application as pertains to Lenoir County registrants. There is a great deal of street corner and loafing center gossip which magnifies its subjects by its own repetitions, which The Free Press is not fostering or in sympathy with at all. This paper does not think that every registrant who fails of the classification sought at the hands of the exemption board, has the right or is justified thereby in vilifying the board and buttonholing everybody that they meet to air their grievances. Such tactics smack of the flavor of slackerism. They do not bear the earmarks of the patriot.

The Free Press appreciates that there may be just cause for some complaint. Certainly if the rumors of the alleged treatment accorded some registrants by the local board, are at all dependable, there is. But notwithstanding the provocation, if there be such, there is a proper course to pursue in righting the wrongs. That, however, doesn't necessarily apply in every case where a registrant is disappointed because his claims for deferred classification are not accepted at face value. The board of exemption may err in judgment and unless such errors have been made, an unparalleled record has been established. Where there has been an error in judgment or otherwise made, the right of appeal is clearly set forth in the regulations and such registrants as feel that their true circumstances entitle them to different classification have the privilege to exercise that right and they cannot rightfully be denied it.

The Free Press stands ready to uphold the rights of the registrants, and likewise to give its cordial and full support to the exemption board in the proper exercise of its duties. It does not propose, however, to fan the flames of slackerism. This country is at war. It needs armies to defend it. That need is testing the patriotism of the men of this country. They must stand the test or suffer the ignominy of the slacker.

NEW EDITORS RALEIGH TIMES.

Announcement in the Raleigh Times of Friday, February 1st, of the resignation of Editor Robert L. Gray and the advancement of City Editor Oscar J. Coffin to be editor-in-chief and Miss Susan Iden, now society editor and reporter, to be city editor, is of interest to the friends of Raleigh's live afternoon paper as well as of the persons involved.

Editor Gray, while frequently taking a position with which we could not agree, gave to the readers of the Times an editorial page filled with thoughtfully and capably prepared matter. Readers of the Times have come to recognize the "handwriting" of Editor Coffin in the bright paragraphs and his other contributions to the columns of the Times. His accession to the "chief seat of the sanotum" promises the same high standard of merit in the page presided over by him.

In the selection of Miss Susan Iden for the important place of city editor, Publisher Park has chosen well. No brighter newspaper woman is to be found in the State or the South than Miss Iden and her many personal friends of the press of the State congratulate her upon this further recognition of her worth in the newspaper field.

"Turn on the steam" again on Mondays after the fourth of February observance, is the prediction of Washington's "prophets" following the conference held between Fuel Administrator Garfield, Director General McAdoo and representatives of the business interests touched by the closing order. It is stated that the Government heads now feel that the purpose of the closing order can be obtained in some other way. Well if such be the case.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent it from sponging pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddied complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not re-strict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a bad condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic.

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, indigestion, dizziness, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.
