Kum! Kum! to the Fourth Annual Exhibit of the Kinston Fair.

Remember the greatest local fair in America is to be held in Kinston, North Carolina, October 15, 16, 17 and 18. Everybody is invited.

Turkey wants to quit, says one news dispatch while another declares that there is no truth to the rumor. It is not difficult to trace the report that had a German origin.

Whether your community goes over the top in the Fourth Liberty Loan drive or not, if you fail to do your part, you are travelling under false colors.

They are still coming back! We refer to those subscribers who forgot to pay up before October 1, 1918. One by one, and sometimes two at a time, they come in and inquire: "How do I stand?" Very welcome indeed are all who so return to the fold.

The pay in advance rule is in effect. Those whose subscriptions expire subsequent to October 1, 1918 will be cut off if not renewed. Watch your label and send in your renewal promptly. City subscribers should require a receipt invariably and keep up with their subscriptions.

### HOW MUCH AM I ABLE TO LEND?

\$513,900! Do you get the figures? More than half a million dollars is required of Kinston and Lenoir County before October 19, 1918 to properly carry on the war.

The Fourth Liberty Loan quota for this county is not large when the resources and the ability of the people are considered. From the viewpoint of past standards, however, \$513,900 is a huge sum. The people of this county must get a bigger vision of their individual responsibility than they ever had before in this drive. Not only must those who have subscribed to former issues and who have taken their share of war-savings stamps, buy again, but those who have failed to realize their responsibility in times past must help bear the burden. This war is everybody's fight.

No citizen of America has the right to enjoy the privileges of such citizenship if he is unwilling to carry his part of the load. The man who is able, and few there are nowadays who can't take some bonds, and fails to buy bonds is just as much a slacker as the man of draft age, who hides in the bushes and tries to escape doing his parts. There is no difference. The finger of scorn should and will be pointed at the slacker dollar just as much as at the coward who dodges service in the trenches.

How much am I able to lend? after denying myself of those unnecessary things that I can get on without, is the searching question that every man must put to himself and answer conscientiously with his dollars, if he is not to be branded as a slacker.

### KEEPING IN TRIM, BEST PLAN.

While the health authorities give assurances that there is no need for alarm or panic because of the prevalence of Spanish influenza here, there is warrant for every precaution to prevent the spread of the malady. Sneezing in the open is in bad repute now. In fact sneezing in the open is always in bad form and dangerous to one's neighbors, but especially so when a disease so readily conveyed by sputum particles set free with the cough, sneeze and spitting habit, is epidemic.

Keeping one's body clean is also essential. Care and observance of the simple rules suggested by the health authorities will do much to retard the spread of the disease. Looking after one's physical condition and keeping fit will give the germs, as is the case with all diseases, more difficulty in getting a hold.

Bulgaria has fallen out; Turkey wants to stop; Austria-Hungary is still in a receptive mood for peace negotiations and there is ground for suspicion that Germany would like to quit if she could do so without crying "Kamerad."

It is reported on good authority that the evacuation of Belgium is being seriously discussed in Berlin. Well, let's smile.

Perfume is going up, says a dispatch from Rome. Well thank you, that is one thing we can get on without.

No time like the present to stop indigestion and stomach ills. (Mio-na tablets do the work. Sold by J. E. Hood & Co.; your money back if they fail. adv.

### BRONCHIAL ASTHMA.

Mrs. Graf Says Vinol Cured Her. Darlington, Pa.—"I suffered from bronchial Asthma so badly I would often have to sit up half of the night or lean over the back of a chair, and so weak I could hardly walk across the floor. I had spent lots of money for different Asthma medicines without help—but Vinol helped me so I sleep well, and am so well and strong I am doing all my work on the farm." —Mrs. Emma Graf.

Vinol is a constitutional remedy which contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates. We strongly recommend Vinol. J. E. Hood & Co. and druggists everywhere. P. S.—If you have skin trouble try Saxol Salve. Money back if it fails. adv.

### Why Putter With Corns? Use "Gets-It"

Common-Sense, Simple, Never Fails.

You can tear out your corns and suffer, or you can peel off your corns and smile. The joy-putting way is the "Gets-It" way. It is the only happy, painless way in the world. Two drops

"Get the Drop" on That Corn—Use "Gets-It" and the Corn is a "Goner!"

of "Gets-It" on any corn or callus dries it out. The corn finally loosens off from the toe, so that you can peel it off with your fingers in one piece, painlessly, like peeling a banana. Great stuff, with 14 days that before. There's only one corn-killer—"Gets-It." You wrapped up big with tape and bandages, then squirming from irritating salves, it's all a barrier. You wounded by razors and knives, that's butchery, ridiculous, unnecessary, dangerous. Use "Gets-It," the liberty way—simple, painless, always sure. Take no chances. Get "Gets-It." Don't be misled by imitations. See that you get "Gets-It." "Gets-It" the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. Mfg. by E. Lawrence & Co., Chicago, Ill. Sold in Kinston and recommended as the world's best corn remedy by J. E. Hood & Co., E. B. Marston Drug Co.

# The Keeper of the Road to France

It's the American Navy's biggest job. Enormous numbers of soldiers, unbelievable amounts of arms and munitions, millions of tons of food must go daily. Lives are staked against unseen mines and treacherous torpedoes. Some day our navy and its allies will come at grips with Germany's strong sea power. There must be no failure. We must provide more ships, more men, more guns, to rid the sea of murderous jackal Germans, foul fighters that they are.

### ACROSS THE WATERS

By Odette Gastinel, a Thirteen-Year-Old French Girl.

It was a little river—almost a brook. It was called the Yser. One could talk from one side to the other without raising one's voice. The birds could fly over it with one sweep of their wings. And on its bank there were millions of men, the one turned toward the other, eye to eye. But the difference which separated them was greater than that between the stars in the sky. It was the difference which separates justice from injustice. The ocean is so great that the sea-gulls do not dare to cross it. During seven days and seven nights the great steamships of America, going at full speed, must drive through the deep waters before the lighthouses of France come into view. But from one side to another hearts are touching.

ODETTE GASTINEL.
