THURSDAY EVENING, JUNE 26, 1919.

Canned dogs being sold at Hamburg, says a news dispatch .- Well, it is case of dog eating dog.

Constantine ought, to call on Brother Bill for some of that great supply of reserve cash that he stored away.

If that Borah, Reed outfit of speakers comes South, ladies and gentlemen of Dixie, who go out to hear them, will of course refrain from hissing for good manners sake.

To just what extent is the Knox, Lodge, Reed, Borah brigade in the United States Senate responsible for the defiant attitude of Germany ?- The correct answer would furnish an interesting and damaging document.

The German press needn't think that it had a scoop in declaring that they would treat the peace treaty as a scrap of paper. The press of the world has told the story until it has become as much of a chestnut as the Villa escapades.

The evidence in the Gulley case was not preponderant. However, it was amply sufficient to convict in the minds of many who sat and heard it.

Eat then The Free Press is not criticising the verdict nor the men who rendered it. The point of this article is to sound the note of encouragement to the friends of law and order in this community and to warn the defiant denizens of the underworld and their paramours that righteousness will ultimately get the upper hand here. The sentiment that was evidenced in the indignation mass meetings held here last spring when the meanness of the underworld seemed to threaten to envelop the entire community, will not be permitted to cool. Kinston

must be made a fit place for decent and upright people to live in and rear their children in. It will be such! The good people who are crying out against vice and shame are not feint hearted.

#### FORCE ALONE WILL SERVE. \*

In spirit Germany is just as much at war with the balance of the world to-day as she was on November 1, 1918 or on August 1, 1914.

Her brazen effrontery and outspoken characterization of the peace treaty as a scrap of paper to be violated as soon as her rebuilt resources permit, makes the formality of signing a peace treaty a sham and superfluity.

The question a ises in the minds of the laity whether it is better to force the beasts to their knees and exact their signatures now or to finish the job. The same question, no doubt is in the minds of the distinguished representatives of nations gathered at Versailles. They are in possession of the facts and are of course better prepared to say what course is best.

If peace is now declared it can only be maintained by a perpetual shot-gun brigade sufficiently strong to ram the principles of right and justice down the throats of the dirty curs that whined only when cornered and threatened with death.

The signing of the peace treaty by Germany will be as clear a case of duress as history records in the annals of nations. Stern force will be required in securing acquiescence with each and every provision of the treaty. Not one single fulfillment can be left to the honor or voluntariness of the nation of rapists, outlaws, bandits, desperadoes, pirates, plunderers and assassins. There is not a spark of honor beating in the

depredations of the scoundrels.

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the storn ach

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to billous attacks or constipation, hould obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is suffi cient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pro-neunced results, both in regard to health and appearance.
