FOREIGN NEWS.

LONDON, Nov. 7.

The Standard upholds principles on what Southern States seceded from the Union as opposed to Republicans, which it denounces as a dedication of the passions of a temporary majority and as individuals with personal and political corruption in consequence of the supremacy of the Republican party, and says that the States are loaded with enormous debts; foreign holders of their securities receive nothing, and that Republicans are responsible also for the insurrection in Cuba and anarchy in Mexico, and the murder of the Emperor Maximilian.—The Democrats it says, however are no better.

The Daily Telegraph referring to the re-election of Gen. Grant says: No one deserved better of his country or is worthier of place, among the illustrious men who have twice held the Presidential office. England has had cause to complain of many things, but President Grant's conduct towards her has never been petulant or hostile. The Telegraph hopes the United States will soon take care of Mexico and Cuba. It believes that both the western and eastern Hemispheres demand that she give her attention to these countries.
