MISSOURI

St. Louis, Dec. 9.—The horse disease is on the increase here, and nearly all the horse cars have been closed. Meetings will be held to-morrow for the purpose of organizing volunteer fire departments.

MIDNIGHT DISPATCHES.

NEW YORK.

New York, Dec. 9.—Stokes trial was not taken up.

It is reported that Union Bank of Brussels has failed. The Post says this bank has accepted largely on account of a suspension of business. It is thought the suspension was in the Russia trade.

LOUISIANA.

New Orleans, Dec. 9.—The Fusion Legislature assembled at Lyceum Hall. Each member upon entering the hall was served with a restraining order.

The motion still held Mechanics' Institute Members expelled by Custom House Board, inspectors and Custom House partisans admitted. Both parties claim a quorum. The Clerk of the old House whose duty it was to call the roll has been incarcerated by the United States Marshal.

The Mechanics' Institute Legislature organized. Lowell elected Speaker. Senators holding over protested in writing against the manner of Senate's organization. Finchback stated in the Senate to-day that Warmoth and Weed of the Times, went to Finchback's House at 12 o'clock last night and offered him \$50,000 and the appointment of a large number of officers, if he, Finchback, would pursue the course which they would point out.

Resolutions impeaching Governor Warmoth passed the House, yeas 56, nays 6.

FOREIGN NEWS.

Paris, Dec. 9.—The appointment of Goulard Minister of Interior, Leon Say, Minister of Finance, Bantou, Minister of Public Works and Calmont, Prefect of the Department of the Seine, published this morning in the official journal. The above mentioned appointments indicate the termination of the crisis and secures the support of Right Centre and Left Centre for the Government.

London, Dec. 9.—The telegraphic wires to North England which were damaged by the storm yesterday are not yet in working order. Dispatches from all other sections of country bring intelligence of great destruction of property. The gale was severe in Wales and Ireland, and as in England was accompanied by lightning and rain. Many towns were flooded and several vessels are ashore.

In Cork the damage to property is very great, many buildings unroofed and trees blown down. Three pinnacles of the tower of Saint Thomas Church, in Exeter, Devonshire, were blown down while the congregation was at worship, and falling on the roof crushed through into the body of the Church. The congregation was seized with panic at first intimation of danger and rushed from the building. No one was killed and their escape is regarded as miraculous.

Many of the huts used by troops at Aldershot were destroyed. At Oxford, the chapel of Oriel College, Oxford University, was badly damaged, and the freight depot of the Great Western Railway was entirely demolished.

WASHINGTON.

Washington, Dec. 9.—A motion was made in the Supreme Court to-day restrain Judge Durell of the Louisiana Circuit Court. The Supreme Court reserved the decision.

By General Young—To remove all political disabilities, also, for relief of Catholic Church members at Dalton, Ga.; bill removing the political disabilities of I. Q. C. Lassar, of Mississippi, were all passed.

The Acheson moved to amend the rule and pass bills removing all political disabilities. It failed of a two-thirds vote—yeas 62, nays 64. The committee report on the bill to regulate the transportation of slaves over the Ohio River was concurred in, which passes the bill. Influential effort was made to have Weed's name put on the French Consulate bill.
