An Out of Door Card Party.

A simple but unique morning card party may be given by the hostess who has a lawn or large porch in which to entertain her guests. Cover the tables with green cheesecloth in a pretty shade. For tally cards use leaves from the oak or maple tree, as these are good shape and do not wither easily. Gold paper stars or circles are used to keep score and may be had at any stationer's. The prizes may be a dainty white fan with possibly a suggestion of green for first prize and a huge palm leaf with a bow of green ribbon for the booby. The refreshments are sandwiches of lettuce, olives, nasturtium or any other delicate green filling and iced tea served with lemon and long stalks of mint. After this ices with mint cherries are served in white paper cases with little wire handles wrapped in green paper. On each handle fasten a white butterfly cut from paper and marked a little with water color paint. Plain white and green iced cakes may be used or a white cake with a touch of pistachio in the filling. Green and white peppermints may be served during the game or after the ices.—Woman's Home Companion.

The many friends of Mr. John C. Green are glad to see that he has sufficiently recovered from his recent illness so that he is able to be out again. "Pop" was celebrating the Fourth today by taking a buggy drive and exchanging compliments with his friends who he has not seen in several months.

There was a very good shipment of fish from this market today over the Norfolk and Southern by express to various points in North Carolina. Many boxes came up from Morehead City and Beaufort on the west bound train and was added to the shipment.

The New Bern base ball team was in Goldsboro this morning and played a game with the local team. Of course Goldsboro won in a close exciting and interesting game, score 1 to 0.

From midnight of the 3rd to the hour of going to press, that part of the 4th of July was unusually quiet and no accidents had been reported to headquarters.

There are no markets today. All exchanges being closed on account of a holiday.

DROWNING NARROWLY AVERTED

Guests of the Patterson House Have Exciting Experience.

What might have been an untimely death from drowning was narrowly averted last night at the foot of Pollock street, had it not been for the cool and clear head of Mr. Ennis, one of the proprietors of the Steam Laundry in this city.

Mr. Ennis and Miss Sadie Gilbert, who are guests at the Patterson house were out for a walk about nine o'clock and it seems decided to walk out on the pier leading out from Pollock street. There was no light, and the bridge was dark and wet, and neither of them gave any attention to the thought that there might be a missing board in the walk. Before they had gone far, and while they were still in conversation, Miss Gilbert stepped fairly in the center of an opening in the walk which had been made by the removal of wide board, and went on through the bridge down in the water. The depth of the water was too great for her to stand on the bottom and she sank again. It was then she discovered a post close by her as she came to the surface and clung to it. About this time her friend, Mr. Ennis discovered the trouble and was promptly in water aiding her to hold to the pile and at the same time calling for help which was rendered by a man who was close by in a boat. The boatman responded promptly and took them both ashore, where Miss Gilbert showed signs of much excitement and several small scars—caused by coming in contact with the boards on either side of the opening when she was falling through.

Today Miss Gilbert does not seem to be any the worse on account of the sudden shock and seems to regard references to the accident with no seriousness.

The pier where this incident occurred is frequently visited by people of this city, as a place for recreation and to be in the cool air, it leading out into the river, and no thought was ever given of such a thing as any of the boards from the walk being removed. The absence of this plank is not accounted for. There is no reason whatever to believe it was done intentionally, and the only solution to the problem is that it must have been the fruit of negligence and lack of forethought on the part of some one, certainly it was not a prank.

The depth of the water at the point where Miss Gilbert fell in was about seven feet, and had it not been for timely assistance rendered her she no doubt would have lost her life.

NORFOLK AND SOUTHERN.

It was only a few years ago you know, Our grand old state did boldly show; Thinking they were relieved of a burdened load, When by leasing the old A. and N. C. road.

To better the country all wanted to see Smart men with the road could not agree; And the people of the state have been deceived, Of the treatment from the road they have received.

Cheap freight rates which a benefit to all, Have vanished away like a swift cannon ball; And in some offices along the line you can see, A crowd of cowering headed men, officials they claim to be.

Once these people thought they were wise Fooling the state and making a great surprise; For many long years the lease was to stand, But the time will soon come when the state will take in hand.

We give the new road credit for the good it has done For the upbuilding of the country through the land it has run; But the time has now come trust companies makes a dive, And gather in the Norfolk and Southern like bees in a hive.

When first came out the richest in the land, And often spoken of as Rockefeller in the band; But now we know the millions at his back, He would not allow the business to go slack.

And the old North State stands with her arms stretched wide, To reinstate the old ones that the new road set aside; The governor of the state should take the matter in his hands, And if the Norfolk and Southern can't run it then the state can.
