SUNSHINERS AT SEASHORE

Col. Olds and Happy Band go Through

WILL STAY THERE TEN DAYS

Organization of Seventy Young People Will Have Charge of Beaufort For Some Time Now.

This morning Col. Fred A. Olds and his band of Sunshiners, who are chaperoned by Mrs. Chas. H. Gattis, Mrs. John E. Ray and Miss Sadie Duncan, passed through New Bern on the east bound Norfolk & Southern passenger train en route to Beaufort on the 4th annual ten days outing. In the party were thirty young girls and forty boys, who comprise the Raleigh Circle. The young people are anticipating a great time in the city by the sea for the people of Beaufort for the past three years have given the Sunshiners a royal time. The Sunshiners' baseball team will enliven the afternoon with games of ball with the Beaufort team. The Sunshiners team is composed of Phil Utly, p; Willis Holding, c; Dan Allen, 1b; Andrew Green, 2b; Mazie Mills, 3b; Bruce Jones, ss; Sam Lewis, Arther Holding and H. Briggs, outfielders.

The Sunshiners Society consists of 250 members of which seventy-one are in the party which went to Beaufort today. Col. Olds told a reporter today that the boys would occupy the Naval Reserves Armory, while the girls will use the Masonic Hall for quarters. The colonel says he uses all efforts to make the young children take all the outdoor exercise they can get, even when meal times roll around. Col. Olds said that last summer out of the thirty meals that were eaten by the Sunshiners, twenty-eight were done so in the open air on a long table. Col. Olds said it was very gratifying to him to have passed these three seasons with the Sunshiners at the sea shore with no accidents and the good health of all the children. He says the Shiners have not had any need for a physician while taking their outings at Beaufort. The best part of the Shiners' time will be consumed in crabbing, fishing, sailing, surf bathing and ball playing. The following is a partial list of the Shiners who passed through the city today:

Misses Ruth Adams, Addie Bagwell, Louise Bernard, Kathleen Bernard, Laura Ball, Vivian Betts, Gladys Dewar, Lillian Farnham, Grinzell Hinton, Patsy Hinton, Elizabeth Hill, Mary Lamsden, Flora McDonald, Ruth and Jane Ray, Ethel Rogers Lillian Spence, Katherine Sherwood, Lena Swindell, Jean Thackston, Norma Wynne, Annie Lee Wynne, Alice Woolcott and Jennie Warren. Among the boys are Banks Arendell, Claude Barbee, Frank Brown, Richard Ball, McNeely Dubose, Hermon Briggs, Needham Broughton, Raymond Crowder, Edwin Dewar, Richard Gierach, Chas. Goodwin, Benbury Hayward, Dick Hinton, Arthur Holding, Willis Holding, Hubert Holding, Winder Harris, Clyde Hicks, Manley Jones, Bruce Jones, Sam Lewis, Ralph McDonald, James McGhee, Joe Moore, Maple Mills, John Norwood, Julian Rand, Frank Stainback, Oliver Smith, Sam Smith, Gryce Sherwood, Lloyd Swindell, Raymond Tyree, Roy Udale, Phil Utley, John Underwood, Tox Whitaker, Moses Woodard, Dan Allen and Andrew Green.

ANTI-SALOON LEAGUE.

Superintendent Anderson Speaks in Carroll.

By Wire to The Sun. Westminster, Md., July 14.—Mr. William H. Anderson, superintendent of the Anti-Saloon League, spoke in the Lutheran church at Taneytown this morning to a large audience. At the close of his address many men greeted him and expressed their interest and satisfaction with his presentation of the subject. He explained the general nature of the work,

saying that while political it was non-partisan in character. He then took up the subject in its state and national aspects, first paying his respects to Carroll's representatives in the last legislature, declaring that only one of them—Mr. Snader—of New Windsor, had voted right.

He said that although the senator from Carroll has pledged himself in writing in advance to the support of the state-wide local option bill, when cornered he declared that he committee was unanimous in deciding not to report the bill, as it was dead already by the vote of the house. He said that this was in direct violation of the senate resolution requiring some report on every bill, and declared that if the committee had believed that the house would kill the bill it would have been passed by the senate and that it was killed in the senate committee because it was believed that it would pass the house. He has not been able to get a certified copy of the Carroll county local option law. He has a general knowledge of its provisions, and that it is unsatisfactory especially in that it does not provide enforcement means. If the legislature had enacted in good faith it would have taken the state bill and given it to Carroll, as was done in Washington county. Carroll politicians had told him that this bill was passed merely to pacify the people.

He said that the league is directly interested in national legislation for two reasons. First—state laws cannot be perfectly enforced until national laws make liquor shipped into a state subject to state laws as soon as it crosses the border. Such a bill has been pending in congress for five years and will pass if it can come to a vote. Second—state politics is largely bossed from Washington, sometimes by a senator and sometimes a local congressman has his little machine.

The congressman from the Second district is the boss of Baltimore county, he declared. His men in the legislature acted in direct accordance with his directions and voted every one of them against the state-wide bill. If the state is controlled by those higher up we must go higher up after the fellows who are responsible. He then declared that the citizens of Carroll are practically disfranchised in that the people are not allowed to express their will, and said that it is the purpose of the league to enfranchise them and break corrupt political machines by developing a frank and righteous independent element, adding that "it is our business to protect our friends and those who vote right."

Mr. Anderson covered practically the same ground in an address at Keyville this afternoon, and would have spoken again at Uniontown tonight, but for the heavy rain storm that passed all over Carroll this afternoon and evening, breaking the drought which has prevailed for many weeks. Mr. Anderson's assistant, M. S. Poulson, spoke at Union Bridge tonight.

New Orleans Cotton Market.

By Wire to The Sun.

New Orleans, La., July 14.—The spot market was again very quiet today. There are some few buying orders out but the opposing elements are drifting apart somewhat and, while factors are quite willing sellers, they appear just at this juncture a bit more obdurate and refuse to make the material concessions that buyers are generally demanding as a prerequisite to the closing of trades. The supply on factors' tables is only measurably attractive, in that it includes but a small percentage of medium and low grades, the styles more particularly in request at this time. But buyers are taking the higher grades rather more freely now and shell goods are steadily, if slowly, being drawn upon.

There was an opening break of 2 to 5 points in the contract market today, in sympathy with the early declines at Liverpool and New York, but a quick reaction followed, and under the upward pressure of a moderate buying movement the several months were forced, with a fair degree of steadiness to net gain of 14 to 17 points over yesterday's values, the market closing very steady.

The launch Dorothy and Tug Mascot is on Meadows Railway undergoing some needed repairs.

DISASTROUS FOREST FIRE

Is Particularly Severe

ASSISTANCE BEING SENT THERE.

Men, Women and Children in Woods, Gathering Berries, Have Been Surrounded and Fear is Entertained for Their Safety.

By Wire to The Sun.

Boston, July 14.—The disastrous forest fires all over the country districts of this state. New Hampshire and Maine, continue today, being particularly severe in Cape Cod district where whole towns and villages are surrounded by rapidly increasing flames and fire apparatus shipped in from all neighboring cities seems not enough to check the spread of the fires.

The situation in Maine is relieved somewhat from yesterday by heavy rains, but southeastern counties, near the line of Nova Scotia and New Brunswick still in danger and Boston and Maine as well as Maine central roads are compelled to discontinue several trains on account of falling branches along the line, while all the trains that still remain in commission, go through the thicken region with doors and windows closely barred and guarded.

This is huckleberry season and hundreds of men, women and children from the country regions are in the woods picking berries. Many of these have been cut off from their home by fires and cannot be located.

It is feared that a large number of deaths may result particularly in this state.

CAMPAIGN COMMITTEE.

Is Favored to Name the Chairman—Kern Leaves.

By Wire to The Sun.

Lincoln, Neb., July 14.—It is hardly possible to expect that the National committee here today for conference with Bryan and Kern, will choose the national chairman this afternoon. A majority of the committees favors the campaign committee of nine members to choose the chairman and this committee will not be named today.

Mr. Kern left this afternoon for his home in Indianapolis accompanied by some of his eastern committeemen. He will make a speech or two on the way.

Chairman Taggart spokesman for Kern and party said, "He will wage the earliest and hottest campaign the party has seen in a quarter of a century."

CHLOROFORM VIAL A CLEW.

Norfolk Police Seek Purchaser of Drug Which Killed Capt. Cottrell.

By Wire to The Sun.

Norfolk, Va., July 14.—With nothing but an empty vial, from which the label was removed, to furnish a clew, the police continued their investigation today into the mysterious death of Capt. Jeremiah Cottrell, who was found dead in his bed yesterday with chloroform-soaked cotton at his nose.

All drug stores in Norfolk and vicinity are being visited by the detectives to ascertain the purchaser of the chloroform. If any evidence bearing on the case has been obtained it will not be made public until the coroner's inquest is resumed.

Summarily Discharge Jury.

By Wire to The Sun.

Raleigh, N. C., July 14.—Judge Walter H. Neal today electrified the court room by summarily discharging the jury. The Judge yesterday had told the grand jury that crimes in this country were due to failure of justice to convict and late yesterday the jury had found not guilty, J. B. Bailey, the young white man, for disturbing religious worship. Two jurors were recalled today so that court might proceed with jury.

Weather for North Carolina—Fair tonight and Wednesday

INCREASES ITS CAPITAL

Files Amendment With Secretary of State

WARNING TO HARDWARE MEN

Automobile People Make Inquiries Concerning License Taxes on Their Machines—Wilmington Shuts Out Raleigh.

Special to The Sun.

Raleigh, N. C., July 14.—The Central Carolina Power Company, of Raleigh, chartered in the early spring, files an amendment with the secretary of state increasing the capital from \$1,000,000 to \$3,750,000 and changing the name to The Carolina Power and Light Company. James D. Mortimer is president and J. G. Anderson secretary. The purpose of the company has to do with the operation and general control of the Raleigh Street Railway system and light and power plants in this section.

A warning to hardware dealers of North Carolina against "underground insurance" that is being offered them through circulars that are being poured into the state by non-resident companies seeking to do business in North Carolina without paying the license tax to which the state is entitled is issued by State Commissioner of Insurance J. R. Young. He calls attention to the fact that North Carolina business men insuring with these "underground" operators run the risk of being powerless to proceed against one of them in the state courts if question should be raised as to the payment of any policy. And takes the ground that the act of such concerns in attempting to cut the state out of its proper revenue makes it appear likely that they would not hesitate when the opportunity presented itself to cut the insurer out of just recovery.

Wilmington played Raleigh here yesterday for the first time in this Eastern Carolina season. The score was 7 to 0 in Wilmington's favor. Raleigh put up the poorest game they have played here this season. Wilmington manifested considerable snap in playing.

The score: R. H. E. Raleigh... 000 000 000—0 2 8 Wilmington... 012 010 003—7 10 5 Batteries: Harris and Wrenn; W-y-song and Ross. Umpire, Henderson.

People of other states who use automobiles and tour the country in them frequently write the secretary of state of North Carolina asking if there is any license tax on autos in this state as there are in many states and it is evident, Col. Grimes says, that the state could really derive a considerable income from such a law if it were passed by the legislature, at the same time providing a safeguard for the people and a convenience to owners of automobiles. It is likely that steps will be taken to pass such a law at the next legislature, giving at the same time regulations that will be highly protective for the people in the rural districts who suffer most from careless handling of autos and from fast and reckless driving.

Judge Walter Neal, of Launenburg, in charging the grand jury for Wake court appealed especially for the jury to have an eye single to suppressing false swearing in the courts and all attempts in any way to tamper with juries, either grand or petit. These offenses are, he says, grown all too frequent, not only in North Carolina, but throughout the country. There are no cases of special importance for this term of the court.

NEGROES STAB BOYS.

Fight in the Washington Mall Almost a Race Riot.

By Wire to The Sun.

Washington, July 14.—The trouble between negroes and whites in Washington seems to be growing more intense. Last night three young white

boys were attacked and stabbed by two giant negroes in the Mall Park.

The wounded are Garnet Callis, 15 years old, 411 Ninth street southwest; Charles Fridley, 18 years old, 794 C street southwest, and Harry Blane, 19 years old, 609 L street northwest. The two negroes said to be responsible for the stabbing are under arrest, charged with assault. They gave their names as Robert Hutchins, 34 years old, of 2150 Newport Place northwest, and Harry Stevenson, 904 E street southwest.

The question of right of way is growing serious in some sections of Washington as a cause of trouble between negroes and white. The whites say that the negroes insist upon forcing themselves on the inside of the pavements, jostling white men who are keeping to the right and often observing no courtesy when ladies are upon the streets and upon the proper side. This was the cause of the trouble last night.

The three young boys were passing through the Mall Park near the Medical Museum, keeping to the right, when they encountered the two negroes. The negroes, they say, were walking abreast and taking up all the pathway. When the two factions came together the white boys moved to the right, but the negroes refused to allow them to pass and sought to force them into the gutter. Then the trouble started. One of the negroes is said to have provoked the trouble by his abusive and insolent language, and when the white boys resented it the negroes drew their pocket knives it is alleged.

The whites stood their ground and were slashed by the negroes. A riot call was sent to the Fourth precinct. The reserves responded with the patrol wagon and succeeded, after a struggle, in arresting the two blacks.

Callis, with two stab wounds in the shoulder; Fridley, wounded in the neck and shoulder, and Blane, in the face and left hand, were hurried to Emergency Hospital, where their wounds were dressed.

This case, although of a more serious nature than others, is but one of many such affrays that are daily taking place in Washington, and the attitude of the authorities here, who often inflict heavy punishments upon white men who resent the impertinence of negroes, only serves to increase the hostile attitude of the blacks.

The District government a few weeks ago compelled the Mount Vernon and Alexandria Railroad Company to conceal their "Jim Crow" signs as soon as they cross the highway bridge entering Washington. Although not running separate cars for the blacks on this line, a portion of the car is set apart for the negroes. Some of the negro leaders of the city protested against the display of these signs, and the authorities compelled the car company to conceal them.

THE COMMERCIAL TRAVELERS.

Interesting Banquet at Tarrymoore Hotel Next Saturday.

By Wire to The Sun.

Wilmington, N. C., July 14.—A banquet given by the members of Cape Fear Council, United Commercial Travelers, featured by speeches from well known townsmen will be a happy and interesting gathering at the Tarrymoore Hotel next Saturday night. Over 150 "Knights of the Grip" are expected to participate in the feast and an event of rare pleasure is expected. This will be the semi annual banquet and the programme which was announced yesterday containing many delightful features, has been arranged to give the travelers a royal good time.

The selection of Mr. Lynn H. Burnett to act as toastmaster was an excellent choice and added to this will be the responses by Rev. J. M. Wells, D. D., who will speak on "The Beauties of Unity, Charity and Temperance," and Mr. Hugh MacRae, president of the Tidewater Power Company, will discuss the progress and prosperity of Wilmington and the splendid outlook for the future. Mr. C. N. Evans, cashier of the Southern National Bank, will welcome the strangers and will extend to them the hospitality of the city. The Travelers will meet in executive session in the afternoon preceding the banquet at that meeting about 35 new members will be initiated. Cape Fear Council is rapidly increasing in membership and is very popular among the organizations.

ARRESTS AT ANY MOMENT

Slayers of Hazel Drew Are Now Known

MADE A DESPERATE FIGHT

Girl Struck on Head and Then Strangled With Rope—Body Thrown in Pond—People Greatly Stirred Up By Brutal Crime.

By Wire to The Sun.

Troy, N. Y., July 14.—The man or men, who killed Hazel Drew, the pretty 19 year old governess in the family of Prof. Carey, the head of Rensselaer Institute, are known today to District Attorney O'Brien and the county detectives, and arrests are expected momentarily although the officials will not, of course, say when these arrests are to be made.

"The coroner's autopsy," said Mr. O'Brien, "showed that girl had not been ravished, but that attempt in that direction had been made and there is no reason to doubt that Hazel Drew went to her death making brave efforts to save herself from dishonor."

After striking the girl on the back of the head by one or more persons in a mysterious automobile in which the girl rode to her death on the night of July 3rd, strangled her with a rope and flung her body into the Teal pond. The place is one of the most lonesome spots in the country.

The people of Troy and vicinity are greatly stirred up by the brutal crime, and the suspects when taken into custody, will be closely guarded.

SHOT BY DELAWARE POSSE.

Negro Was Trying to Get Away from Detective.

By Wire to The Sun.

Wilmington, Del., July 14.—Columb's Jackson, colored, aged 30 years, of Middletown, Del., was shot and killed by a posse of citizens in a cornfield near Clayton, Del., this morning. He had been arrested on a Delaware Railroad train by State Detective Hawkins, charged with conducting a speak-easy near Symrna, and when Clayton was reached he started to run, Constable William M. Boyer, of Clayton, gave chase as did a crowd of citizens. When the negro run into a cornfield on the farm of Corbit Spruance several shots were fired by the voluntary posse, one of which struck the negro in the stomach. He lived twenty minutes.

It is not known who fired the fatal shot, and, pending an inquiry, Deputy Coroner Faries, of Smyrna, who has the body, postponed the inquest until tomorrow.

Jackson, it is alleged, has been conducting a Sunday speak-easy for several weeks. A small quantity of whiskey and a quantity of food, which he had, were found by the authorities.

THREE NEW CHARTERS.

Winston-Salem, Elkin and Salisbury Have New Corporations.

By Wire to The Sun.

Raleigh, N. C., July 14.—Charters issued today to Charles M. Phelps Co., of Winston-Salem, dry goods, clothing, shoes and notions. Capital fifty thousand with one thousand subscribed by Charles M. Phelps, T. M. Benton, F. E. Thomas, and others.

W. S. Relch Furniture Manufacturing Company, of Elkin. Capital one hundred thousand, with five thousand subscribed by Mrs. R. T. Grant, N. J. Wright, J. M. Sills and others.

Commercial Club, of Salisbury and business men's club, also of Salisbury for a social intercourse and recreation. E. M. McInturf, H. C. Williams, J. W. Huss and Z. W. Auston, are among the incorporators.

Judge Parker on Stump.

By Wire to The Sun.

Helena, Mont., July 14.—Judge Alton B. Parker is here on his way to tour Yellowstone with De Lancey Nichol, of New York. He said today he would gladly stump New York and other states for Bryan and Kern and believed they will carry New York.
