

RAINY DAYS

Come to everybody. Life has more ups than downs. Right now, while you are making, you ought to be saving; then when the downs come you will have something to fall back on.

Where is the money you have been earning all these years? You spent it and somebody else put it in the bank. Why don't you own money in the bank for yourself—why let the other fellow save what you earn?

MARKET REPORT.

Cotton—
New York, Aug. 6.—The entire cotton supply available for delivery on contract is said to have been cornered by J. L. Livermore, a young broker. During the last two weeks cotton has advanced on this market, \$3.50 per bale and the shorts are bordering on a panic. Believing that there would be a big crop October contracts sold at short and prices and were depressed. Consequently the stock was bought and shipped away, making the available supply the lowest in years. Livermore is said to have acquired every bale not under contract to spinners.

New York, Aug. 6.—Cotton market quiet. Prices steady. Opening August 9.83, September 9.52, December 9.30, March 9.33.

Grain—
Chicago, Aug. 6.—Wheat opened 3-4 to 1 1-4 lower than yesterday's close. Opening wheat September 96, corn September 75.

Stocks—

If your property hasn't already burned have A. M. Reintree insure it before it does.
