"A Little Mother"—The picture shows the death of a sea captain's wife—leaving behind her three children, the oldest a girl of ten, the youngest an infant. The little girl is left in charge while Daddy is away, and her wonderful management of affairs is simply marvelous. The most striking feature of the film is her implicit trust and faith in God, taught her by her dear good mother. This film will touch the most hardened nature.

"Topsy Turvy"—A very comic film. See it and have a hearty laugh. Orchestra and very pretty illustrated song.

**Wisdom About Watches**

Buying a watch is very much like a man taking unto himself a wife—it is not an act to be done in a hurry. It is an act that requires a man to be a good judge of character, and a man who is not a good judge of character is not a good judge of watches. It is a man's duty to buy a watch that will last him for a long time, and a watch that will give him the most satisfaction. It is a man's duty to buy a watch that will give him the most satisfaction. It is a man's duty to buy a watch that will give him the most satisfaction.

## Better Not Get Dyspepsia

If you can help it, Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary pepsin "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only a partial digester—and physics are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.
