## BOALT'S STORY IS DECLARED FALSE

Ensign Richardson of Battleship Arkansas is Exonerated by Court Of Inquiry.

Washington, July 17.—Rear Admiral Badger reported yesterday afternoon that sensational news dispatches sent from Vera Cruz by Fred L. Boalt, an American writer, charging that "the law of flight" had been applied to Mexican prisoners by an American naval officer, had been found without foundation by a court of inquiry. Secretary Daniels directed the investigation, while Secretary Garrison's order for the cancellation of Boalt's correspondent's credentials and his deportation was held in abeyance.

The findings of the court were described in this statement by Acting Secretary Roosevelt of the navy department:

"The navy department has received a dispatch from Rear Admiral Badger, stating the investigation of the allegations made by Fred L. Boalt, a newspaper correspondent at Vera Cruz of the Newspaper Enterprise Association, has been concluded.

"The inquiry was exhaustive and examined into every phase of the charges. It showed conclusively that Boalt's statements were false and that under no circumstances and at no time was the so-called 'law of flight' applied at Vera Cruz by the naval forces of the United States. Admiral Badger reports that he will forward the proceedings and records to Washington by the next mail. The acting secretary of the navy is highly gratified, but not in the least surprised at the results of the investigation."

The finding exonerates Ensign William A. Richardson, of the battleship Arkansas who was named by Boalt as authority for his stories.
