Each State \$10,000 This Year.

(By United Press.)
Washington, July 20.—From the
United States government for the next fiscal year each state will re-ceive \$10,000,000 for agricultural

extension work.

Such a schedule has just been worked out by the United States Department of Agriculture,
This fund is made available by the

Smith-Lever bill providing for cooperative agricultural extension work between the states and the De-

partment of Agriculture.
"The act makes available for the next nine fiscal years," says the de-partment, "an aggregate sum of \$23,-120,000 of federal funds to be expended in instruction and practical demonstrations in agricultural and home economics. To obtain this total the states must appropriate for like purposes a total of \$18,800,000, making a grand total of \$41,920,000 to be expended during the next nine fiscal years on direct agricultural ex-tension work. Thereafter the federal government is to appropriate \$4,-580,000 annually, and the states to take their full quota, must appro-priate \$4,100,000 annually, making a total annual expenditure for this purpose of \$8,680,000."

Next year each state will receive substantial increase in the sum veraging from \$21,039 in California to \$36,282 in Illinois and \$46,893 in Pennsylvania—the increases being based in the rural population of each state.

The United States Department of griculture is today engaged in sending individual official notices to 58. 000 manufacturers that after May 1, 1915, the "Guaranteed Under the Pure Food and Drugs Act" label will

be unnecessary. This action follows a ruling by the Secretaries of the Treasury, Agriculture and Commerce that the people are, deceived into believing that that stamp is the government guarantee of the purety of the article. Such a stamp means, simply that the manufacturer will protect his dealer if any charges are made that the goods are misrepresented. Next year the stamp will be required only upon the bill of sale.

Agricultural experts have discov ered an insect that has sixty kinds of enemies who want to eat it up!and the department wants to protect the "enemies."

Most of these devourers are birds, with orioles, swallows and nighthawks as the most important. The scientists declared the insect-none other than the boll weevil of cotton harm to the South's cotton plan-

An investigation showed that the of land in the City of New Bern, nighthawk caught the weevil while North Carolina, which is situate at it buzzed in the air, en route on its veyance dated the 25th day of March, boll weevils while they fly over the 1885, from the New Bern Co-opera- fields. In addition to these two birds tive Land and Building Association 58 others are waiting every opporto Hettie Bryan and her children by tunity to "gobble" the cotton "re-

Instruction in feeding silage to milch cows is new advice given far- lowing: mers by the Department of Agriculafter milking or several hours be-tore," the Department advises. "If odor of silage may pass through the of a misdemeanor, and, upon conviccow's body into the milk. Besides the milk may receive some taints dithe milk may receive some tall. On the thirty days. rectly from the stable air. On the thirty days. F. T. PATTERSON, Clerk.

subsequent to milking, the silage odors will have been thrown off before the next milking time. "Calves may be fed silage as soon as they are old enough to eat it. It is more important that silage fed to calves should be free from mould or decay than the older stock. They may be given all the silage they will eat up clean at all times. Yearling up clean at all times. Yearling Galves will consume about half as

much as mature stock. If supple mented with hay, little grain will be required to keep, the calves in a healthy, thriving condition. Beginning August 1, this year the ted States Department of Agricule will declare a quarantine against

Maine potatoes because of the pre-valence of a powdry sear on the seed potatoes of that state.

The Department of Agriculture offered by the Louisville, Ky., busi-Southern state who could show best records in corn growing has n awarded to the Alabama corn ciubs. The boys in that state had the best records at the recent Con-ference for Education in the South.

ities. And if let alone or greated aslves they become chronic, simply because its cause is still at work within. It sho be attacked with S. S. and the impurion the blood thus rendered harmiess.

The skin is but a net work of fine bloosesis. And it is a perfectly natural esquence that any influence in the bithat is a condition of ill health makes first appearance in the skin. There certain medicinal properties that follow course of the blood stream and the influe of these properties is that of an antid This is why S. S. S., the best-known by purifier, has such a positive action in skin. There is one ingredient in S. S. which peculiarly stimulates ceitalar glandular activity to select from the bior from this fine net work of blood vess in the skin, those elements which it quires for regeneration.

or from this fine net work of blood vessels in the akin, those elements which it requires for researcation.

Thus pimples, sene, ecsema, lupus, or any other blood condition that attacks the skin or seeks an outlet through the skin is met with the antidotal effect of 8. 8. 8.

This is why skin troubles vanish so readily and why they do not return.

Under the influence of 8. 8. 8. this fine net work of blood vessels in the akin is constantly taking from the blood the nutrition required for healthy tissue and the cause of disease is just as constantly being removed, scattered and rendered harmless. These facts are more fully explained in a book on skin troubles sent by The Swift Specific Co., 531 Swift Bidg., Atlanta, Ga. You will find 8. 8. 8. on sale at all drug stores. Get a bottle to-day and banish all skin a mistions.

by striking out Section 3 thereof and, in lieu thereof, inserting the following:

Sec. 3. "Any person, firm or corporation who shall keep open any store or shop on Sunday for the purpose of buying, selling and transacting business, except in cases of necessity, shall upon conviction, pay a fine of ten dollars for each and every offense.

"But drug stores and apothecary shops may be kept open at all times for the sale of drugs and medicines, toilet articles and soaps, and such other merchandise as may be necessary in case of sickness or accident; provided this ordinance shall not apply to the sale of milk or ice at any time, nor to the delivery of ice cream prior to 10:45 o'clock a. m.

"Provided further, that it shall be a violation of this ordinance to sell Coca-Cola, Pepsi-Cola, or other soft drinks by whatever name called, or ice cream, cigars, cigarettes or bacco except by hotels and bons fide restaurants in their places of business and in the ordinary conduct of their business.

F. T. PATTERSON. City Clerk
