GERMAN HUMANITY LEAGUE DENOUNCES ACTION OF KAISER

Predict Overthrow of Military Despotism Too Long Tolerated.

DUTCHMAN CARRIED THE MESSAGE TO BRITISH

(By United Press.) LONDON, Sept. 16.—The German Humanity League has sent to the British Humanity League the following fiery denunciation of Kaiser Wilhelm's war against the world: "We cannot at the hour refrain from sending a message of fraternal greeting to you who have forseen and prepared for the carnage which must precede the inevitable overthrow of a military despotism too long tolerated by millions of toilers crushed by its infernal weight. "Nakedly revealing himself, we see the uncurbed tyrant surrounded by his parasites now directing the most desperately devilish and selfish campaign ever waged against humanity. We know that the internal revolution now proceeding in our midst will depose the despot, whose insatiable egotism is drenching Europe with the blood of its workers and wage earners. This letter reaches you by the hand of a trusted Dutch comrade who is risking his life in the people's cause."

HOW GERMANY'S MOBILIZATION WAS MADE SO QUICKLY

Germany Literally Honeycombed With Railways to Frontiers.

THE FEW RAILROADS HANDICAPPED RUSSIA

(By United Press.) BERLIN, via THE HAGUE, Sept. 15.—To travelers familiar with Germany, France and Russia it is plain why Germany could mobilize her troops with so much more rapidity than the other two countries. The railroads of course, afford the answer. Throughout Germany the webs of railways join up every important garrison with the frontiers. On the Rhine, lines stretch westward to the French frontier from Cologne, Bonn, Coblenz Kreuznach, and farther south from Frankfurt and Mannheim. Posen and Eastern Prussia are literally honeycombed with railways to the frontier. On the Russian side of the border line there are hardly any railways. True, France is exceptionally well supplied with railway, but from a military standpoint they are sadly lacking. They have been planned, like everything else in France on a radical system, with Paris the center. Practically everything to get to the frontier, must pass through Paris.

Englishman Tells German He Has Forgotten What Boy Scouts Can Do.

(By United Press.) LONDON, Sept. 16.—An American tourist returning from Switzerland tells the following: A large German who was stopping at the Lausanne Hotel just before war was declared was boasting of Germany's prowess and of the Prussian war machine's irresistible strength. "We'll pulverize France," he declaimed, "and then we'll land an army in Scotland and march down and capture London. There's nothing that can stop our War Lord and his war machine." "You've overlooked one thing," quietly remarked an Englishman, "our Boy Scouts." The German was subjected to such unmerciful "ragging" after the call that he moved two days later.

REPORT SALE OF SEA FLYING BOAT

Various Rumors Circulated in Hammondsport Regarding Future of the America

Hammondsport, N. Y., Sept. 16.—It is rumored here that the transatlantic flying boat America has been sold and that extra forces are working day and night at the Curtis factory getting her and several replicas ready for early shipment. Who has bought her or where she is going nobody seems able or willing to tell. Requests for information from officers of the Curtis aeroplane company elicit nothing definite. It is admitted that several persons, including a New York sportsman, have endeavored to purchase the craft, and that a price has been set on it.

Another story in circulation here is that a fleet of the transatlantic type of flying boats has been ordered by an American citizen who wants to ship the machines into Canada.

Information regarding the future of the America will be forthcoming, undoubtedly, as soon as the big flying boat reaches her destination and begins to do any flying. Her size makes her too conspicuous to keep her destination a secret for very long.
