Having used the MUSTANG LINIMENT in my family for several severe cases of hard lumps and ewellings. I cheerfully give my certificate to its excellent effects. My daughter and a hord lump the size of a hen's egg, upon her wrist for a year I told her to rub it with the Liniment, and a few applications entirely removel it. I have also used the Liniment for Scrofulous Tumors, or swelling in the throat of long stan ling, on two of my servants, and it removed them both in a short time. I consider them all remarkable cures, and recom mond the Mustang Liniment as the best article 1 that he never saw his master, and does not know JESSE T. HOPKINS. ever usel.

It is a remarkable fact, that among the hundreds of eminent physicians who have examined the recipe by which Bull's Sarsaparilla is prepared, not one has condemned it, but all approved it, and commend it in the highest it, but all approved it, and commend it in the highest terms. Many physicians express themzelves strongly in the belief that it is decidedly the best preparation of Sar-saparilla that has ever been placed before the publiz. Although there are many physicians who feel a reluctance to having their names appended to the recommendation of any particular remedy, notwithstanding they may approve of it in the highest degree, there are others who frankly yield their support in favor of a remedy which they know is comple of doing so much wood in an afficiant comis capable of doing so much good in an afflicted com-munity. As an evidence, read the following from old and respectable physicians, of high standing in the community in which they live :

I am a graduate of Transylvania Medical University : I have practiced medicine in this wilderness country, about five years, but owing to exposure to bitter cold weather, I have been indisposed with Acute Rhenmatism about six months After having exhausted my skill in the treatment of my case, and deriving no benefit, I was induced to give your FLUID EXTRACT OF SARSAPARILLA & fair trial, and accordingly purchased a bottle of your medicine from your agent, Mr. George P. Brown, about two weeks ago, and I must confess that one bottle has entirely cured me. It is my opinion, that your preparation of Sarsaparilla is decidedly superior to any other preparation now in use, and I will take great pleasure in recommending it to the afflicted as being a remedial agent, and I will advise the physicians to use it in their practice, &c, Respectfully yours, B. B. ALLEN, M. D.

LOUISVILLE, July 13th 1849.

I have examined the list of articles that compose John Bull's Extract of Sarsaparilla, and I have no bestitation in saying that it is a safe and valuable compound. I would prefer it to any article now in use, for the diseases arising from an impure state of the blood or taint of the system I confidently recommend it to my friends as being a power Copy of a Letter from Mr. R. LOUISVILLE, May 20th, 1849. We have used John Bull's Sarsaparilla, and have known it to be used, with entire satisfaction; and we have no hestitation in stating our belief, that it is a safe and valuable medical compound, and calculated to produce much good and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted. We earnestly invite all persons who are suffering with any of "the ills that flesh is heir to," to call on Dr. John Bull's agent, and get a copy of Bull's Family Journal GRATIS; and for the sake of humanity, we hope that a single individual will not be found unwilling to give Bull's Sarsangerlills a TRAT after reading and recollecting at the Sarsaparilla a TRIAL, after reading, and recollecting, at the same time, that it is impossible for the Doctor to publish the tenth part of the number of certificates of astounding sures performed by his Sarsaparilla.
