

MARION RECORD.

Entered at the postoffice at Marion, N. C., as second class matter. Marion, N. C., January 10, 1895.

MR. CHAIRMAN: We nominate the Senator from Old Fort for reading clerk.

WONDER if our legislature will have the nerve to tax "yaller" dogs and spend the money on our miserable roads?

THE Southern Railroad, as well as other great lines in the South, have volunteered to transport corn and other supplies to the Nebraska sufferers free of charge.

An oil well has been found in Ohio that yields ten thousand gallons per day. The oil only brings 55 cents a barrel at the well, and it is an outrage that the price is so high over the country.

THE repulsive scene of a woman being hanged will be enacted in Durham on February 8th. Her name is Ella Norwood, and she killed her infant child by placing pins in its mouth and forcing it to swallow them.

Why would it not be as consistent with the teachings of a Christian nation for Congress to make an appropriation for the starving men, women and children of Nebraska, as it is to support the indolent Indians or the great and ever-increasing horde of pensioners?

We trust our new legislature will immortalize itself by passing better road laws. It should be a misdemeanor to allow a private gate across a public road, and all overseers should be required to put up good sign boards at all crossings and forks of roads. Let us advance!

IN the establishment of cotton and woolen mills in the United States during the past six months New York leads off with 38 new plants, Pennsylvania is a close second with 36, while North Carolina, the natural home of the raw material, has established 26 new mills, leading all Southern States in building factories.

THE people in Nebraska are in a most destitute condition, owing to the failure of crops last year, scarcity of money and extreme cold. Starvation stalks many families in the face, and abject poverty lurks in all its hideous forms in many hitherto happy households. People in various sections of the South, and especially in North Carolina, are making up car loads of supplies for the Nebraska sufferers.

More Suggestion—No Charge. SENATOR DULA is in Raleigh, where he will proceed to see that the populist platform declaring for low tariff and free silver, and the republican platform, declaring for high tariff and against silver, both of which he was elected upon, are both endorsed by the legislature and eventually carried out in full by Congress. He will also see that Marion Caucasian Butler, (who named his paper Caucasian because he hates the d—n niggers) will go to the Senate as a result of the aid of negro votes in the recent election. Dula may also offer a resolution requiring Butler to both hate and love the niggers and republicans at the same time. It would be proper and consistent for Senators Dula and Black to place themselves on record to the effect that while they do not agree upon a single important issue, they are in full accord in everything, as our noble representatives from this senatorial "destrict."

Permit us also, in the name of "refram," to suggest to our senators that if by any chicanery the Hon. Samuel J. Turner, of Mitchell, is defeated by Lusk or Waiser or other designing men, for speaker of the lower house, that he, the aforesaid Samuel J. Turner, be then and there, immediately and suddenly elected United States senator as a compromise between the sky-scraping element of the republican party, and the moek and lowly populists, especially the cotton-raising populists of Mitchell county.

In conclusion, we hope the other members will give our fusion boys from the west a fair shake. They promised something, and it is bound to come. Just sit quietly, but your eyes be usual, and you will see miracles fly out of the curiosity box.

When Will the Democratic Party Die?

When the lion eats grass like an ox, And the red worm swallows the shal When tartraps knit woolen socks, And the hare is outrun by the snail; When serpents walk upright like men, And doodlebugs travel five frogs; When the grasshopper feeds on the hen, And feathers are found on hogs; When Thomas cats swim in the air, And elephants roost on trees; When insects in summer are rare, And snuff never makes people sneeze; When fishes creep over dry land, And mules on velocipedes ride; When foxes lay eggs in the sand, And women in dress take no pride; When ducks get no longer but drink, And girls get to preaching on time; When hilly goats butt from the rear, And treason is no longer a crime; When humming birds bray like an ass, And limburger smells like cologne; When plowshares are made out of glass, And hearts of Carolinians of stone; When ideas grow in Populist heads, And wool on the hydraulic ram— Then the Democratic party will be dead And this country won't be worth a D—n.

The Times as They Are.

From the end of the war in 1865 our money was greenbacks, shin-bucks, shinpasters, anything representing the sovereignty or fiat of the United States, as to money currency until the resumption of specie payment in 1879. Gold and silver were at a premium up to this date, and silver as much as gold.

Provisions for resumption of specie payment involved the re-coinage of silver, "the dollar of our daddies," because by a lot act it was discontinued in 1873 simply to please a credit fawning on our part to foreign creditors, who were wanted to take our bonds and invest in American securities, including industrial bonds for railroad building, &c.

Foreign creditors began to see that our silver dollar could be made in the United States cheaper than they could get up a gold dollar. All the gold of Ophir could not compare with the mountains full of silver in America. The United States would become the great centre of wealth and the equilibrium of the world. The old dynasties would become the slaves of American lords of wealth, and blood would flow, unlike water, "up stream." The new life would kill the old.

In the nick of time the English and German money men put on the screws. The selfish and the unwise and the cowards did all that was demanded; and free America became a slave to European capital, and the old regime is the law in our new world, the same as in the world for the past decade of centuries.

Will the new world fill its place? Shall the old oracles proclaim the destiny of the new covenant, just as the Jews in the old time crucified the God-given Messiah? What has America done for humanity but to rescue it from the ruin of the Old World? Look at the happy, free homes of the United States enjoyed by former slaves of lords in the old country. Shall all this be surrendered because bankers demand that gold shall go from \$1 to \$1.50 in value?

Yes; because if silver is money the American people would continue to grow and prosper, and the lords of the east would lose their lordships in wealth and their pre-eminence as lords from heritage would fade before the rising sun, coming out of the west, rather than the east, as has been from all time, to them.

Shall Free America go on in its God-given destiny? Shall development fail of this grand country? Shall we wait for Europe and the old nations to christianize the world of heathen who know not God? Shall the English and German shlylocks and "money changers" possess this country and set us back in our march of progress?

This is an important problem before us. The Wall street and Lombard street men are not the people's men. They are men for money only, and for a money that grinds the people and buries their aims and crushes their onward progress for God and their country.

Free silver, free banking, more schools and churches; more confidence and less selfishness begotten by a scarcity of money, is the problem now before our people, and they will work it out regardless of political parties and the powers of men and mammon.

It is time for the people to get together and count what shall be saved, or what shall be lost. The people men take notice, for they are being weighed in the balance.

COMMUNICATIONS.

On Various Subjects, and From Various Parts of the Country. From Washington State.

Editor Marion Record, Dear Sir—Will you please find space in your valuable paper for a few items from Washington State. The snow here is 18 inches deep and still snowing. We think it will get about 5 feet by spring. We all have a nice time now on sleigh riding.

The Fort is a nice one, it is situated on the Spokane River and the Columbia River, close to two Indian reservations, but the Indians keep quiet. Here stock out here is awful cheap, you can buy a good horse for \$5, that is worth \$10 in the month.

A lot of what is raised out here—Wheat, corn, etc.—is very good. The country is not thickly settled out here for in some sections you can go for miles and see a house at all.

Five game birds—such as deer and prairie chickens and jack rabbits. I was awful sorry to hear the news of our Marion being in ashes, but I hope soon to hear of its being rebuilt.

We have a nice dancing hall and a fine stage, so we have shows and parties. This Fort is close to the Canada line and the air is awful high. For the last 9 months I have been in most all the states in the union, and old N. C. is among the best for good health.

Yes boys you can come west and make a fortune, but let me tell you \$1 in North Carolina is worth \$1 here. You can not buy anything here without paying three prices for it, except wheat and horses. So I think you had better stay in North Carolina. Yours Respectfully, JOHN B. QUINN, Fort Spokane, Washington.

Miss Mattie Godfrey, youngest daughter of John and Rebecca Godfrey, died on December 24th, and was buried on Xmas day. The friends here our warmest sympathies. Christmas has been remarkably quiet with us. The entire absence of drinking and rowdiness has been very agreeable.

A pleasant visit from Mrs. Robert McCall and son, Mr. Edward, is also recorded among our Christmas joys. Mr. John Stepp was at home for a few days. He is looking well and evidently enjoys railroad life.

Mr. Rufus Blackwell and family have moved into our neighborhood. Mr. Wm. Settlemire is also one of our new neighbors.

One of "our" boys, Hubbard Whitley, captured a valuable Christmas prize in the person of Miss Josie Coe Patton, of Bridgewater, and they spent the holiday here with old friends. Sunday last was not a fine day with ice and snow covering the road, but our genial friend, Mr. J. L. Bird, J. P. of Crooked Creek, hesitated not, but crossed the icy path over Wild Cat Mountain, and said the ceremony that united Mr. Robert C. X. Y. and Miss Mary J. Settlemire for life. None the less daunted by ice and snow, the bride and groom, with a few friends walked over the mountain, via Mr. Bird's path and partook of supper on Crooked Creek, at the home of the groom's father.

Christmas day about a dozen of the Marion boys gathered and Mr. Galley's vineyard (the name of their spirits) were so revived that Mr. Galley's vineyard backwards in attempting to capture a darkey's dog to take along. BILLIE B.
