Frank Hatton editor and part owner of the Washington Post, one of the leading papers of the country, died in Washington Monday. The time for commencements is drawing near and it will not be a great while until our boys and girls that are off at school will be at home. Mrs. W. L. Bryant who has been visiting her daughter, Mrs. Dr. Morphew, for the past few weeks, returned to her home in Boone Tuesday. Call around and get Ice Cream, Milk Shakes, Sherbets or anything you may want that is cold. Register, J. C. Brown issued ten marriage licenses last month. Just think of it, twenty people made happy and still there are some left who continue to cry "hard times." Mr. Dr. N. Lonon is having his house repainted and otherwise improved. He has already made a garden. Madam Rumor says all this means we won't say because we would be telling a secret. Lawson Howard, col. who killed C. D. Jones, white, in Cleveland county a few months ago was convicted of manslaughter in the Superior Court at Shelby last week and sentenced to twenty years in the penitentiary. Mr. Lee Sommerau was in town Wednesday. It will be remembered it was reported on the streets here last week that he had killed himself in Columbia. He was very much surprised to learn that he was dead. Mayor Morris had George Duncan before him last week for being drunk and fined him \$2.50 to be paid in work on the street. George worked very well for about half day, and then he married somehow to make his escape. We expect a great many have been wondering what has become of George. The above accounts for his forced absence.

GUilty of Embezzlement

Is What the Grand Jury Says of Ex-Sheriff Reynolds.

ASHEVILLE, April 29th.—The hearing of ex-County Tax Collector, D. L. Reynolds, under rule for contempt, charging him with approaching a grand juror with reference to a bill pending before the grand jury, was had before Judge Jones to-day. The judge discharged the rule, deciding that the offense did not constitute contempt, but directed the solicitor to send a bill to the next grand jury under the laws of '91, which makes the offense a misdemeanor.

The grand jury this afternoon returned two true bills against Reynolds, charging him with embezzlement.—Charlotte Observer.

Mr. Reynolds has many friends throughout Buncombe and an adjoining counties. He has been a very popular man, and his troubles were not, it is believed, brought about by dishonest motives, but by risking too much money to help build up Asheville. We trust he can settle the matter satisfactorily.

THE GALLANT "600" Cooley Arrested, But Turned Loose.

INCIDENTS OF THE MARCH. ST. PAUL, Minn., 24.—Shortly after midnight 600 men at Butte, composing the Butte contingent of the Cooley Army, entered the engine house of the Northern Pacific Railroad, appropriated and prepared for service an engine and proceeded to make up a train, composed of five coal cars and one box car. This action occurred after a struggle of four days between the local authorities and the mob, which yesterday assumed such proportions as to overawe the officers of the law, and the departure from Butte was without any opposition upon their part.

The train was manned by members of the mob. It crossed the main range of the Rocky mountains early this morning, and reached the main line at Logan, seventy miles from Butte, at about 4 o'clock. They breakfasted at Bozeman, and flew eastward at the rate of fifty-five miles an hour, coming to a sudden stop at Timberline at 8 o'clock on account of a cave in. Attorneys for the Northern Pacific have wired the sheriff at Livingston to place the mob under arrest for the larceny of a train. Gov. Nelson has been asked to call out the militia to prevent the Coxyites from entering Minnesota. Later the mob shovelled itself out and passed through Livingston eastward at 6:30.

WASHINGTON, D. C., April 25.—General Schofield, commanding the army, last night sent a telegram to General Herri-man commanding the Department of Dakota, instructing him by direction of the President, to have a sufficient force sent to arrest all persons engaged in the unlawful seizure of the Northern Pacific trains at Butte, Mont., and to hold the train and all on board until they can be delivered to the United States Marshal for Montana, subject to the order of the United States District Court.

Telegrams received here state that bands ranging from 50 to 600 men are congregated at as many as 25 stations of that railroad from the Pacific coast to Minneapolis, with the avowed intention of coming to Washington by peaceable means if they must. Already one or two trains have been seized and constant threats are being made of seizing others.

LATER. WASHINGTON, May 1.—Jacob Cooley's much advertised demonstration on behalf of the "Commonwealth of Christ" in favor of good roads and the repudiation of national obligations to pay interest on bonds, ended to day in a ridiculous fizzle. All told, about 600 men out of the originally promised hundreds of thousands, marched up Capitol hill and marched down again. In this 600 were included all the unemployed of the capital who could be drummed into support of the movement.

AN EARTHQUAKE PROPHECY.

He Says New York Will be Overwhelmed this Summer.

Speaking of Professor Fall, the Austrian expert, whose earthquake predictions have attracted so much attention, and who predicts that New York will be overwhelmed by a tidal wave this summer. The New York Advertiser says:

A history of successful earthquake predictions, which are numerous, is given by Professor Milne. In 1843 a bishop of Ischia forewarned his people of a coming earthquake and saved many lives. The shock of 1851 at Melphi, was predicted by the Capucian fathers. In the first case the warning was based on a change in the character of mineral waters, and in the other a lake near the door of the monastery became turbulent without apparent cause. A crazy soldier announced in advance the London earthquake in 1891 and a Milanese astrologer that of Leghorn in 1742. These were happy guesses. In earthquake countries there are shock prophets just as there are weather prophets with us. In both cases only the successful guesses are recorded.

Professor Fall bases his predictions on the old theory that earthquake shocks are produced by the attractive influence of the sun and moon producing a tide in the fluid interior of the earth, which causes fractures of the solid crust.

Possibly when we understand electricity better we shall have an earthquake as well as a weather bureau.

Madeline Pollard's Letter.

New York, April 16.—A morning paper prints as a special from Washington a statement from Miss Pollard in regard to her intentions for the future as follows:

Washington, D. C., April 15.—As my unfortunate case is now ended with a verdict in my favor I do not see why I may not say how deeply and heartily I thank the press of the United States in general for all that has been said in my behalf, and how clearly I see and admit justification for much that has been said against me.

I should like to say how deeply grateful I am for the kind letters which have come to me and to my counsel from all parts of the United States during the terrible ordeal through which I have just passed.

If the future holds anything for me, it cannot be in the direction of publicity and sensation. If my untrained literary ambition is to receive any reward or justification it must come with labor and patience, and I have no idea of going on the stage or the lecture platform or otherwise accentuating the publicity which my unfortunate career has had in this trial.

I have been applied to by various publishers to edit a report of the trial, but I have not brought myself to think that this would be a wise step, and if I should take it, it will only be because I believe myself able in a good sense to point the moral of my misguided life and to awaken good sentiments in the public rather than to keep alive bad sensations.
