By this time you all notice what kindly provision Joseph made for his father, Jacob, Joseph did not say "I can't have the old man around this place. How clumsy he would look climbing up these marble stairs and walking over these mosales! Then he would look climbing up these marble stairs and walking over these mosales! Then he would be putting his hands upon some of these freecoes. Feople would wonder where that old greenborn came from. He would shock all the Egyptian court with his manners at table. Besides that he might get sick on my hands, and he might be querulous, and he might taik to me as though I were only a boy, when I am the second man in all the reaim. Of course he must not suffer, and if there is famine in this country—and I hear there is—I will send him some provisions, but I can't take a man from Padanaram and introduce him into this polite Egyptian Court. What a nuisance it to be better the country and to the country and the country is to be suffered to the country.

Joseph did not say that, but he rushed out to meet his father with perfect abandon of affection, and brought him up to the palace and introduced him to the empeor, and provided for all the rest of the father's days, and nothing was too good for the old man while living, and when he was dead Joseph, with military escort, took his father's remains to the family cometery. Would God all children were as kind to their parents!

If the father have large property, and he be wise enough to keep if in his own name, he will be respected by the helrs, but how often it is when the son finds his father in famine, as Joseph found Jacob in famine, he young people make it very hard for the old man! How chagrined they are at his independence of the English grammar! How long he hangs on? Seventy years, and not gone yet? Eighty years, and not gone yet? Eighty years, and not gone yet? They think it of no use to have a dootor in his last sickness, and go up to the drug store, and get a dose of something that makes him worse, and economics on a coffin, and beat the undertaker down to the last point, giving a note for the reduced amount, which they never pay. I have officiated at obsequies of aged people where the family have been so mordinately resigned to Providence that I field like taking my text from Proverbe, "The sys that mocketh at its father and refuseth to obey its mother, the ravens of the valley shall pick it out, and the young eagles shall eat it. I rejoice to remember that, though my father lived in a plain house the most of his days, he died in a mansion provided by the filial piety of a son who had achieved a fortune. As if to disgust us with unitial conduct, the Bible presents us the story of Micab, who stole the 1100 shekels from his mother, and

the story of A walon, who tried to dethrone his father. But all history is beautiful, with stories of fillal fidelity. Epaminondas, the warrior, found his chief delight in reciting to his parents his victories. There coes Eneas from burning Troy, on his shoulders Auchisee, his father. The Athenians punished with death any unfillal conduct. There coes beautiful Buth escorting venerable Naomi across the desert amid the howling of the wolves and the barking of the jackals. John Lawrence, burned at the stake in Colchester, was cheered in the flames by his children, who said. "O. God. strengthen Thy servant and keep Thy promise." And Christ in the hour of excruciation provided for His old mother. Left a Rich Prize Astern.

A prize which may have been worth \$50,000, was left astern by the schooler Martha T. Thomas, which arrived at the Delaware breakwater the other day from Mantanzas, says the Philadel-phia Record. Captain Smith passed a dead whale, over sixty feet long, off Hatteras. The dead fish bore no ovidence of violence, and death was prob ably caused by the presence of am-bergris on the intestines, causing the loss of all vitality and ending in a awelling of the body similar to that caused by a dropsical affection of the human race. Ambergris gives buoyancy and prevents the sinking of the

The latest market quotations for ambergris, according to cable advices from French perfumers, who use it in making fine perfumes, is \$60 per ounce. In an ordinary whale like that seen by the Thomas, there is often found 600 or more pounds of amber

Stricken with an Incurable Disease and yet Cured. His Personal State-ment in Betatl. (From the Argus and Patriot, Montpelier, VI.)

This is an age of progress and everything that halls the advance of new ideas for the gool of humanity is halled with delight.

It is the province of newspapers to watch for strange events or phenomena of any kind and to immediately investigate a reported case out of the line of regular community happenings. So when the story of Mr. George Hutchinson, of Chelsen, Vt., and how he had been raised from a bed where he lay stricken with a supposedly incurable distailed a reporter to look up the reported facts of the case, to whom Mr. Hutchinson made the following statement.

"I am a native of Massachusetts, a woodworker by trade, and forty years of age, and for the past Afteen years have been working in various sawmills in Vermont and Massa chusetts. Eight years ago I moved from Bradford to Chelsea and bought the sawmill of which I am now proprietor. I was in perfect health and knows throughout Chelses and vicinity as one of the strongest men or my weight in that section. December 10th, 1892, I was hurt by a piece of flying board as I was at work in the mill. After that, I began slowly to less my strength and became incapacitated for work or effort of any kind. The seat of my trouble seemed to be my back, but if gradually extended downward. I consulted all the local physicians and was treated by two of them, but the medicines they administered were not of the alightest avail and idd not check the disease in the least. In fact, I was a miserable victim of locomotor ataxis and was conscious of a steady advance of the insidious disease. My back ached continually and my legs began to grow numb and to be less and less usable. By the 18th of April I could absolutely do nothing and was seracely able to stand. My physicians advised me to go to the Mary Fletcher Hospital, at Burlington, to be treated, and I took their advice. When I left home my friends bade me good-bye, never expecting to see me alive again. The physicians at the bospital told me that my case was a serious one, and I was completely discouraged. I remained at the hospital and thought that I was recovering, and went home to continue their treatment, which I did for two months, and also had an electric battery under their advice. The improvement, however, did not continue, and I began to give up hope. August 1st, 1893, I could not get out of my chair without assistance, and if I got down upon the floor, I could not get out of my chair without assistance, and if I got down upon the floor, I could not get out of my chair without assistance, and if I got down upon the floor, I could not get out of my chair without assistance, and if I got down upon the floor, I could not get out of my chair without assistance, and if I got down upon the floor, I could not get out of my chair without assistance, and if I got towe upon the floor, I doubt to my of which I am now proprietor. The London sandwich men are a distinet class peculiar to the great metropolis. They are the peripatetis who advertise the latest novelties in thes polis. advertise the latest novelties in thea-tres or wardrobes, and they spend their lives, so to speak, between the boards. They are for the most part, broken-down folk, who have lost other employment through evil habits; but there are some of a better class who are thoroughly respectable and trust-worthy. They are selected by bill-posting agencies, which make a busi-ness of supplying employers, and the applications are always in excess of applications are always in excess of the demand. A general election is al-ways a time of harvest to the sandwich men. In London at a Parliamentary election as many as a hundred of them have been employed by each candidate, and an instance is mentioned by the Graphic where "each side sedulously sought to make the sandwich men who were proclaiming the virtues of the opposition candidate digracefully drunk. Both sides succeeded, and two hundred drunken sandwich men were on exhibition that day in the con stituency, to the amusement of the friv-olous and the horror of the acrious-minded among the lieges." The pay on election days is doubled, and hence if four hundred men are required at least eight hundred can be had. A nobleman, a member of an old British family, recently won a wager by parading Picadilly as a sandwich man, dressed in a shabby coat and battered hat.—Frank Leglie's Weekly.

The Sword of Ethan Allen.

The sword of Ethan Allen, preserved in the National Museum at Washington, is an old-fashioned blade about twenty-seven inches in length and slightly curved. The handle is made of horn or bone, and is some seven inches long. The mounting is of silver, marked with gold, but the latter is partially worn off. A dog's head of silver forms the end of the handle, and from this to the guard runs a silver chain. On one of the silver bands of the venerable leathers scabbard is the name "Ethan Allen engraved in large letters; on another band, "E Brasher, maker, N. York;" while on a third band appears the name "Martin Vosburg, 1775."—Philadelphia Ledger.
