DEMOCRATIC NEWSPAPER.

MARION, N. C.

California supplies Boston with codfish and beans.

In spite of the large bounties it enjoys the mercantile marine of France continues to dwindle.

Recent statistics have upset the old notion that blondes are more predisposed to insanity than brunettes.

For the area, the cost of street cleaning in New York is nearly double that of any other city in the world.

The New York Advertiser maintains that the frying pan is responsible for at least 5000 ailments that flesh is heir to.

Secretary Morton says that oleomargarine ought to be as free as butter, and that it is a great deal better to eat than much butter.

The century is old; only six years remain to it. But this is quite sufficient to work mighty changes in the map of Asia, and perhaps in that of Europe, also.

The arrival of 6,748,000 hogs in Chicago during the past year would seem to indicate to the New York Advertiser that that city is getting the fat of the land.

Since the year 1891 more than 11,000 claims, aggregating \$40,000,000, have been made for land taken from the Indians. The sum paid since 1799 under the act passed that year for what are called deprecatory claims will amount to more than one hundred billion dollars.

The Czar of Russia thinks that the beginning of the Siberian Railroad, a new section of which was opened a few days since, was "one of the greatest acts of the glorious reign of my ever lamented father."

Football playing is not only esteemed an excellent advertisement for a college, but some preparatory schools are said by the New York Sun to have gone to the length of enticing good players from rival schools by the offer of free tuition. This means a good deal, since tuition in a fashionable preparatory school costs a pretty sum.

According to the Real Estate Record, office buildings which cost upward of \$1.50 a cubic foot ten years ago can now be erected for from thirty to forty cents a cubic foot. This great saving, due to the increasing use of steam and mechanical devices, must finally result in a marked reduction of rents.

Nothing in all the march of progress is more striking, maintains the New York Independent, than the improvement in the care of the sick, through trained nurses. Bellevue Hospital, in New York, twenty years ago, was supplied with nurses by giving women who had been condemned to a "term on the island" their choice, to go there or to take an equal term as nurse in Bellevue!

The Hamburg Fremdenblatt thinks that the new magazine rides will do away with cavalry in general engagements, because every saddle could be emptied in two minutes in a charge of less than a mile. It says that seventy-five per cent. of the cavalry will be converted into infantry, and the majority of the rest will become bicyclists.

The gypsy moth which is taking possession of New England is an immigrant from France. It reached New England in 1870, and has since multiplied in an alarming way. Its caterpillars are very destructive, and New England would like to have a Federal appropriation of \$200,000 to use in preventing it from interfering with interstate commerce.

The State of North Carolina owns a controlling interest in two of the principal railroads of the State: the North Carolina Railroad, extending from Goldboro to Charlotte, 223 miles, and the Atlantic and North Carolina, from Goldboro to Morehead City. This makes a continuous line of road, 325 miles in length, running through the richest and most thickly populated portion of the State.

The Interior remarks: As a nation, Japan is a child of the nineteenth century. The progress of Christianity in Japan is one of the marvels of modern church history. The first five years of faithful Christian struggle produced one convert. In 1872 was organized the first Evangelical Church of eleven members. Now there are 865 churches with a membership of 85,535.

Attacks were made in these upon Marion Butler, as outside influence charged with trying to bulldoze the legislature. THE LEXINGTON DEFALCATION.

The V. M. I. and the Washington and Lee Professors Lose—The Break a Bad One.

A special from Lexington, Va., tells of great excitement all through Rockbridge county owing to the defalcation and escape of Cashier Figgat, of the Bank of Lexington. Many of the well-to-do country people had their savings deposited in the bank. The defalcations have extended over a period of 23 years—since 1872. The liabilities are \$198,402.12, all but \$6,000 due to depositors. The assets are: Cash on hand, \$6,573.12; cash tickets, value \$1,129.20, corporation bonds, \$20,500; manufacturing companies, bonds, estimated, \$1,000; bills and notes, estimated, \$1,000; real estate and fixtures, \$4,000. To balance, \$65,200.10, making \$198,402.12.

The astounding fact is developed that Figgat has swamped the \$80,000 of the bank's capital stock and in addition \$65,200.10 of \$72,000 belonging to depositors, leaving in cash due depositors the insignificant sum of \$6,573.12.

The Virginia Military Institute is out about \$20,000, which will materially cripple that institution for a time, while the fund of Washington and Lee University loses nothing. All the professors and employees of the latter institution were paid a few days ago, and their money was deposited in this bank. The bill expires therefore leaves them in a bad fix.

It is believed Figgat had confederates. The defaulter has been drinking hard for several years. He was a simple liver, and what he has done with the money is a mystery.

Public Printing Under New System

RALEIGH, N. C.—Bids for the public printing as opened Saturday were as follows: E. M. Uzzell, 33 1/2 cents per thousand ems, plain matter, and 66 1/2 for rule and figure work; Edwards & Broughton, same for plain and 52 for rule and figure work; J. W. Goslin, 34 for plain and 67 for rule and figure work; Barnes Brothers, 28 for plain and 56 for rule and figure; Stewart Brothers, of Winston, 27 for plain and 52 for rule and figure. On blank books and press work Stewart Brothers bid far lower than any of their competitors but their bid was higher than other bids on some work. Chairman Westmoreland, of the committee, said that the impression of the committee is that after the calculation is completed, the Stewarts' bid will be found to be the lowest, taken altogether. No doubt they will get the contract.

The Coast Line Boys the C. S. & N.

CHARLESTON, S. C.—The Charleston, Sumter & Northern Railroad was sold at Sumter for \$450,000, Col. W. G. Elliott being the bidder. Col. Elliott is the president of the Wilmington & Weldon Railroad, and it is generally known that in this purchase he represented the Atlantic Coast Line system.
