We see by the daily papers of the 24th inst. that President Cleveland has decided on another bond issue. Already in these "piping times of peace" the interest-bearing debt of the United States has been increased \$162,000,000 and another issue of \$50,000,000 is contemplated. Why is this? The notes and silver certificates for which the treasury of the United States has been paying out gold on demand and thus depriving the government of its gold reserve, are payable in coin and it is so stated on their face. Now why not maintain the parity of the yellow and white metals by saying to Lazard Freres, Morgan Bliss, Belmont Morton and others of that ilk that your paper is a gold coin on demand. Now to maintain the parity of the metals I will pay half of your demand in gold and half in silver so as not to discriminate against either metal. That course we believe would stop the raids on the treasury's gold reserve which are made to force the issuance of interest bearing bonds so as to perpetuate the National banking system in this country. We do not say that the National bank system is a bad one, but we know that the majority of the American people oppose it, and that without United States interest bearing bonds, the system cannot be maintained. We believe that the interest bearing debt of this country will be \$250,000,000 greater in March 1897 than it was in March 1893, and all because the platform of the National Democracy adopted at Chicago has been misunderstood or wilfully ignored by the powers that be. We do not say which is right but the executive and legislative branches of the government cannot agree on the interpretation of the platform. The language is a little equivocal and we hope the next National Convention of the Democratic party will make their platform so plain that he who runs may read. And that they will nominate men for office who will carry out the will of the people or resign in favor of somebody who will.

Major C. T. Pictin is manager of the State Hotel, at Denison, Texas, which the traveling men say is one of the best hotels in that section. In speaking of Chamberlain's Colic, Cholera and Diarrhoea Remedy Major Pictin says: "I have used it myself and in my family for several years, and take pleasure in saying that I consider it an infallible cure for diarrhoea and dysentery. I always recommend it, and have frequently administered it to my guests in the hotel, and in every case it has proven itself worthy of unqualified endorsement. For sale by Morphew and White Druggists."

Mrs. Annie Tremball Slosson, the author of "Fishin' Jimmy," had a strangely impressive experience, a few years ago, while driving through the Green Mountain country of Vermont. She met a man, a wife, who evidently believed himself to be the Christ. Under the title "Through a Glass Darkly," Mrs. Slosson has written for the The Sunday School Times of December 21, a sketch of her meeting with this strange character. "No sermon," she writes, "no chant, no learned theological treatise, nay, not even the reading of the Gospel story itself, had ever made that lonely life of the Stranger, the man of sorrows and acquainted with grief, such a real thing to me."

We will stand by the doctrine of Monroe. If we have to fight "By Jingo."

Twenty-nine miners were killed by an explosion of fire damp in the Nelson mine, near Dayton, Tenn., Friday.

Uncle Sam says to the Brit's Lion. You can't play in my back yard "By Jingo." Venezuela at present seems to be Uncle Sam's back yard. We'll stand by the doctrine of Monroe, if we have to fight "By Jingo."

The wife of Mr. D. Robinson, a prominent landowner of Hartwick, N. Y., was sick with rheumatism for five months. In speaking of it, Mr. Robinson says: "Chamberlain's Pain Balm is the only thing that gave her any rest from pain. For the relief of pain it can not be beat." Many very bad cases of rheumatism have been cured by it. For sale at 50 cents per bottle by Morphew and White Druggists.

The Richmond Times, an ardent admirer of Cleveland, thinks the Senate takes the President's Message too seriously. It says that Mr. Cleveland made a very mild suggestion of war and that the Senate seems to think he was in earnest. The Times is one of the papers that tried so hard a few years ago to make the people believe that the Chicago Convention in denouncing the Sherman law and demanding its repeal, only meant to denounce the purchasing clause and leave the other seven clauses intact. The Times will find that whether the President is in earnest or not that the American people intend to see that the Monroe doctrine is rigidly enforced, regardless of party affiliation.

When most needed it is not unusual for your family physician to be away from home. Such was the experience of Mr. J. Y. Schenck, editor of the Caddo, Ind. Ter., Banner, when his little girl, two years old was threatened with a severe attack of cramp. He says: "My wife insisted that I go for the doctor, but as our family physician was out of town I purchased a bottle of Chamberlain's Colic Remedy, which relieved her immediately. I will not be without it in the future." 25 and 50 cent bottles for sale by Morphew and White Druggists.

The Fastest Regular Train in the World. The Empire State express now holds the world's record as the fastest regular passenger train. The speed of the best trains of foreign nations is: England, 51.75 miles per hour; Germany, 51.25; France, 49.88; Belgium, 45.94; Holland 44.73; Italy, 42.34; Austria-Hungary, 41.75. America now leads the list with 53.33 miles per hour to the credit of the Empire State express. This is the speed now made between New York and Buffalo.—Ex.

Cleveland Has Run Well. From the New York Mercury. Mr. Cleveland has always run well in England, and the more he is known there the better he runs. From the Albany State (Republican). And he always ran fairly well in this country; for instance: In 1862 he beat Judge Folger for governor of New York by more than 192,000.

In 1864 he beat James G. Blaine for President by 62,082 votes. In 1868 he beat Benjamin Harrison for President by 98,017 votes, but failed to get a plurality of the electoral votes.

In 1872 he beat Benjamin Harrison for President by 350,810 votes.

An Incident in Judge Robinson's Court. Raleigh News and Observer. "Did I understand your honor to charge thus and so?" asked Capt. Cooper at Swain court, while Judge Robinson was presiding. Judge Robinson replied: "Any body that has ever seen a law book, or has ever seen anybody that has ever seen a law book, would know that I didn't charge any such damned rot."

Afterwards, at the suggestion of Mr. George T. Brown, it is said that Judge Robinson apologized to Capt. Cooper.

Good advice: Never leave the house on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by Morphew & White, druggists.

Gold and Silver.

The Director of the Mint has submitted his report to the Secretary of the Treasury, covering the operations of the mints and assay offices of the United States during the last fiscal year.

The value of gold and silver estimated to have been used in the industrial arts during the calendar year 1894 was approximately \$21,541,652, of which \$10,658,604 was gold and \$10,883,048 was silver.

The estimated metallic stock in the United States on July 1, 1895, was: Gold, \$686,229,825; Silver, \$625,853,949, a total 1,263,083,774.

The estimated production of gold and silver in the United States during the calendar year of 1894 was: Gold, 1,910,943 fine ounces, of the value \$133,580,000; silver, 49,500,000 fine ounces, of the commercial value of \$31,422,000 and of the coining value of \$64,000,000.

The estimated production of the world for the calendar year was: Gold, 8,787,888 fine ounces, of the value \$180,626,100; silver, 167,732,565 fine ounces of the coining value of \$246,892,200, of the commercial value of \$105,522,900.

Mr. Preston gives an estimate of the approximate stock of money in the principal countries of the world. He prices the gold stock at \$4,086,800,000; the stock of full legal tender silver at \$3,439,200,000, stock of limited tender silver at \$631,500,000, making a total silver stock in the world of \$4,070,700,000; the uncovered notes are placed at \$2,469,500,000.—Scientific American.

To Napoleon's Troops. Visitors to the battlefield at Waterloo can hardly be failed to be struck with the fact that the monuments upon that classic ground are exclusively devoted to men of the allied forces. Subscriptions have in consequence been invited for erecting—of course, with the permission of the Belgian government—a memorial of some sort to Napoleon's troops somewhere near Braine l'Alleud or Mont St. Jean.

The Record, for one year, only \$1.

The Baptist Female University.

Resolutions were passed at the Baptist State Convention in Henderson, in 1889, looking to the establishment of this institution. A charter was secured in 1891 for an endowed college for girls, to be known as the Baptist Female University of North Carolina.

A site was bought and paid for by the Trustees, in the City of Raleigh. It is 299x238 feet at the corner of Blount and Edenton streets, on the square adjoining the Governor's Mansion, and hardly two squares from the Capitol. Upon this site the Trustees are now erecting a building of brick, trimmed with brown stone, 190 feet long, 44 stories high in the central part, and arranged to contain nine large recitation rooms, six music rooms, two art rooms, a large double parlor, three rooms for the use of the President, thirty-eight sleeping apartments, a Memorial Assembly Hall which will seat from 500 to 600 persons, and a dining hall which will accommodate 325 girls.

The contract for this building is let to the North Carolina Car Company for about \$38,000 and it is stipulated that they are to build only as the Trustees furnish the money. The first story is completed and paid for at a cost of \$2,000, and the second story is getting up. We have now a property paid for, that is worth about \$22,000 and in addition there has been secured over \$10,000 in notes and good subscriptions, for the further prosecution of the work. Success is assured. It is of the greatest importance that the building should be completed and furnished so that the school can be opened to the girls of the State at an early day. It is designed ultimately to put \$75,000 into buildings, a adequate fund, and to secure a loan fund of \$25,000 and an endowment of 100,000.

An earnest appeal is made, not only to the Baptists of the State, but to all friends of education, to help in this great work. Much interest has been awakened, and a large patronage is assured. Large gifts and small are needed, and when the school is opened, we want the girls to come from all sections of the State. The Treasurer of the Institution is F. H. Briggs, Raleigh. For more complete information we refer our readers to Rev. J. Hartwell Edwards, Assistant Finance Secretary, Wake Forest, N. C.

LOSS OF VOICE After Acute Bronchitis CURED BY USING AYER'S Cherry Pectoral A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.
