## UPBUILDING THE TOWN.

By Advertising in Barometer of Local  
Industry, the Newspaper.

Minneapolis Star

If a member of your family died,  
would you print the resolutions on  
a billboard?

If your wife entertained, would  
you send an account of it to the  
theater program man?

If you were going to enlarge your  
business, would you advertise it in  
a hotel register?

If you were going to have a wed-  
ding in your family, would you get  
out a handbill?

You would send such items to a  
newspaper, wouldn't you?

Then why don't you put your  
advertisements in a newspaper?

Every man who uses a billboard  
is adding to nature faking.

Every dollar spent in a theater  
program, in a register, in a direc-  
tory or in a handbill, is a legitimate  
dollar taken away from the news-  
papers of your town.

The newspapers build up your  
town. Why not help build up the  
newspapers? There is no better  
advertisement in the world for a  
town than a good newspaper. A  
newspaper is the barometer of the  
town's industry. Show us a good  
newspaper, full of advertising, and  
we will show you a good town, full  
of live merchants.

Billboards are an eyesore; hand-  
bills are a nuisance; theater pro-  
grams are worthless; hotel regis-  
ters, from an advertising stand-  
point, are ridiculous.

Newspapers are town builders,

town advertisers, fortune makers,

news disseminators, sermon deliv-  
erers, prosperity forecasters. They

are a necessity, not a luxury. They  
must be maintained. Without them  
we would retrograde to the medi-  
eval days.

Don't patronize them from a char-  
itable standpoint. Patronize them  
because they deliver the goods —  
that is, if they are the right kind.

Cut out the foolishness and work  
for the upbuilding of your town  
and State by upbuilding your  
newspapers.

## Suit for \$20,000 Damages.

Papers were filed last Saturday  
in the office of the Clerk of the  
Superior Court by Mr. W. A. Bol-  
linger, father and administrator of  
Miss Willie Bollinger who was kil-  
led last September in the Baptist  
church in Startown by Lonnie Rader,  
against W. P. Rader, and  
wife, parents of Lonnie Rader, and  
Dr. John McCampbell, Superin-  
tendent of the Western Hospital  
and directors A. A. Shuford, I. L.  
Davis and C. H. Armfield, for \$20,-  
000 damages.

It will be alleged that the par-  
ents and Hospital authorities knew  
the young man was insane and are  
responsible for his being at large,  
--Newton Enterprise, 15th.

Every laboring poor man should  
buy himself a town lot, get that  
paid for, and then work to make  
improvements.

## The Cause of Many Sudden Deaths.

There is a disease prevailing in this  
country most dangerous because so de-  
ceptive. Many sudden deaths are caused  
by it—heart disease, pneumonia,  
heart failure or apoplexy are often  
the result of kidney disease. If  
kidney trouble is allowed to advance  
the kidney poison is  
allowed to advance  
the kidney poison  
blood will at-  
tack the vital organs, causing death  
in the bladder, brick-dust, or sediment in  
the urine, headache, backache, lame-  
back, dizziness, sleeplessness, nervous-  
ness, or stiffness, these nerves break  
down and waste away cell by cell.

Says Editor DeCamp, of the  
Gaffney Ledger: We would rather  
be a dog standing on a mountain  
top barking at the moon than to  
be a man who knocks his town.  
One is a fool, and the other the  
basest of mankind—an ingrate."

That puts it to him about  
right—the knocker, we mean. He  
is not in any way a desirable citi-  
zen.—Charlotte Chronicle

## VIRGINIA CORN CROPS.

Richmond Times-Dispatch

B. F. Aycock, of the North Caro-  
lina Corporation Commission, were

in Morganton Tuesday in response

to a petition from the Morganton

Retail Merchants Association and

other citizens of the town and

county asking that the Southern

Railway be required to furnish

better facilities for the receipt and

delivering of freight at the Mar-  
gonton station. The petition asks

for a new and larger freight depot

and that the new one be located on

the north side of the tracks and in

a convenient point to a large ma-

jority of the patrons who are in

danger of the same risk occurring

again, as at present.

Power is too weak through the

years of heavy

clay and sand mining, resulting in

the same

failure as has hap-

pened with the old

station.
