Sugar Hill News.

Sugar Hill, Jan. 15.—There are preparations being made for an entertainment at the close of our school which is only about three weeks off, we are sorry to say.

Mrs. M. J. Harris has been very ill for the past week; but we hope she may immediately recover.

Miss Esther Harris, who has been in school at Nebo, was called home last week on account of the illness of her mother.

"Zero," you should be ashamed of yourself, for coming around just now for it has about froze out the Sunday School here and I am afraid it will never recover from the awful chill which it is receiving these cold snowy Sundays.

ESAW.

Salisbury Watchman: A negro employe of the Southern came very near freezing to death while at work around the water tank in Spencer. When he was found he was frozen almost stiff, but he received prompt medical attention.

Heavy Annual Rainfall.

The rainfall of a village among the hills of Assam, during the ten weeks from May 1 to July 9 this year, was 250 inches. The village is Cherrapunji, the rainiest spot in Asia and presumably in the world. Its annual rainfall is something over 450 inches—say, fifteen times as much as London. Cherrapunji stands on a plateau, overlooking the plain of Sylhea, and it is 4,455 feet above sea level.—Westminster Gazette.

Marriage Made Easy.

Gretna Green, Scotland, became famous for its celebration of irregular marriages. For many years the average number was five hundred. The ceremony consisted only of an admission, before witnesses, by the couple that they were husband and wife, this being sufficient to constitute a valid marriage. After this the officiating unctonary (for many years a blacksmith), together with two witnesses, signed the marriage certificate.
