

A GREAT DISCOVERY

Certain Ingredients That Really Promote Hair Growth when Properly Combined.

Resorcin is one of the most effective germ destroyers ever discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean, healthy condition of the scalp, which prevents the development of new germs.

Pilocarpin, although not a coloring matter or dye, is a well-known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp.

These ingredients in proper combination, with alcohol added as a stimulant and for its well-defined nourishing properties, perhaps the most effective remedy that is known for scalp and hair troubles.

We have a remedy which is chiefly composed of these ingredients, in combination with other extremely invaluable medicinal agents. We guarantee it to positively cure dandruff and to grow hair, even though the scalp in spots is bare of hair. If there is any vitality left in the roots, it will positively cure baldness, or we will refund your money. If the scalp has a glazed, shiny appearance, its an indication that baldness is permanent, but in other instances we believe baldness is curable.

We want every one troubled with scalp disease or loss of hair to try Rexall "93" Hair Tonic. If it does not cure dandruff and grow hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. We print this guarantee on every bottle. It has effected a positive cure in 93% of cases where put to a practical test.

Rexall "93" Hair Tonic is entirely unlike, and we think, in every particular, better than anything else we know of for the purpose for which it is prescribed. We urge you to try this preparation at our entire risk. Certainly we know of no better guarantee to give you. Remember, you can obtain Rexall Remedies in Marion only at our store—The Rexall Store. J. W. Streetman.

Endorse No-Fence Law.

Raleigh, Feb. 21.—The North Carolina forestry association this afternoon elected E. B. Wright, of Broadman, president, retaining State Forester J. S. Homes, as secretary. Mr. Wright is president of the Butters Lumber Co. Resolutions were adopted strongly endorsing a state-wide no-fence law that will take hogs and cattle out of the forests, urging state legislation that will put this state on such forestry protection basis as to procure federal protection, a paid fire marshal service among other things for state system of fire protection by a technical non-partisan board, endorsing legislation by congress, appropriation of \$80,000 for combating chestnut blight and pledging the association to the greatest possible effort in preventing spread of this blight.

A jury in Guilford county Superior Court decided the famous trip-hammer case in favor of the plaintiff. A Greensboro householder sought the aid of the courts to silence a trip-hammer in a foundry near his residence, alleging that the noise was a nuisance, etc. The jury held with the plaintiff and awarded him \$2,500 damages.

NOTES From MEADOWBROOK FARM

- Study your horse.
- Salt is essential for cows.
- Give young pigs comfortable quarters.
- One breed is always better than a hodgepodge.
- It is not always the largest hen that is the best layer.
- If not moldy sorghum is an excellent root forage for all stock.
- In order to have good-sized sheep grow them rapidly while young.
- Poorly fed sheep will not produce very good wool, nor good mutton.
- Equal parts of corn and oats are hard to excel as a grain feed for sheep.
- During an extra cold spell of weather, add a little corn to the sow's grain ration.
- Do not attempt to winter more sheep than can be done without crowding.
- By the right kind of selection even the commonest dairy herd can be greatly improved.
- Growing pigs should not be crowded into close, filthy quarters, exposed to vermin and disease.
- The driver more than the horse is always more to blame for the animal's being vicious—if he ever is.
- Leave a horse untied when hooked to a vehicle and he will be likely to be gone when you return for him.
- You will appreciate the difference between low-headed and high-headed trees when you are picking the crop.
- Decaying vegetables in storage under the living rooms in the cellar are apt to promote ill health in the household.
- Keep both eyes open when near the gentle bull just the same as if he were ugly, or he may take you unawares.
- The best dairy cow is the one that will convert the forage raised on the farm into the greatest amount of butter fat.
- A dairy thermometer comes into good play any time of year, but is especially valuable to have around for winter churning.

A WAY OPEN

Many a Marion Reader Knows It Well.

There is a way open to convince the greatest skeptic. Scores of Marion people have made it possible. The public statement of their experience is proof of the like of which has never been produced before in Marion. Read this case of it given by a citizen:

Mrs. C. A. Dale, Garden street, Marion, N. C., says: "My system was filled with uric acid and I would have preferred death to the agony I endured. My feet and hands were swollen to twice their normal size and my complexion was bad. My hands became affected to such an extent that I could not cross them and I could not raise my arms to my head. I was as helpless as a child for two months. The pain in my back never ceased and the kidney secretions caused me distress. I was convinced that the doctors did not understand my case and finally I stopped taking their medicine, beginning the use of Doan's Kidney Pills instead. This remedy, which was procured at Streetman's drug store, made so rapid an improvement that I could hardly realize it. In two months I was rid of my trouble and my cure has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

HOW OLD PEOPLE

May Prolong Their Lives

At an advanced age waste is more rapid than repair. The organs act more slowly and less effectually than in youth. The circulation is poor, the blood thin and watery, the appetite poor and digestion weak.

We want to say to every aged person in this vicinity that Vinol, our delicious cod liver and iron tonic (without oil) will prolong life. It creates an appetite, aids digestion and makes good blood. In this natural manner Vinol retards waste and replaces weakness with strength, giving new life to the worn system.

If people in this vicinity only realized how Vinol invigorates old people we would not be able to supply the demand.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

J. W. Streetman, Druggist, Marion

The supply of vegetable matter is most easily maintained in the soil by the growing of green crops and by the application of manure.

Change in the conditions of dairying is driving many men out of the work because they would rather quit than improve their methods.

Horse breeding requires more capital, is more profitable if successful, and involves larger losses if not, than any other kind of stock breeding.

Moles in a garden prove an intolerable nuisance. While they may be trapped, the only sure way is to inject bisulphate of carbon into their runs.

Give the old sows, and those that have been pulled down by late litters, extra care and feed, so they will go through the winter in profitable condition.

A half teaspoonful of Paris green added to heavily sweetened water or molasses will kill the cut worms, but care should be taken that the fowls cannot get at it.

An old horseman says that the chief cause of colic in horses, or the cause of the largest per cent. of these cases, is brought through long abstinence from water.

Alfalfa meal is becoming a popular feed, but in Kansas, where they raise a lot of that kind of hay, farmers claim that the cow can do the grinding cheaper than it can be done at the mill.

When a man tells you that he has sows that he could milk all the year round if he would, see if you cannot gobble onto some of his stock. Cows that hold out are worth their weight in gold.

Farmers all know that cream is a perishable product, but some do not realize the importance of cooling from the separator, and failure to properly cool cream immediately after it comes from the separator is the principal cause for the poor quality.

Wood's Seeds For 1912.

Our New Descriptive Catalog is fully up-to-date, and tells all about the best

Garden and Farm Seeds.
