Automobiles in North Carolina.

According to figures just prepared by Mr. C. C. Miller, of Watauga county, working in connection with the University Bureau of Extension, McDowell county ranks as the 84th county in North Carolina in the ownership of automobiles. There are 22 automobiles in the county, or one car for every 123 families. Guilford, New Hanover and Currituck ranked first with a car for every 12 families. Guilford lead the State in number

of cars owned with 985, Mecklenburg following a close second with 983. Three counties, Mitchell, Alleghany and Graham, did not have any at all.

From June 1st, 1915 to January 1st, 1916 automobiles increased in the State from 16,410 to 21,084, or nearly 80 per cent.

Adulterating Drugs.

University News Letter.

The present high price of drugs, especially of the coal tar products such as aspirin, acetanilid, salol, and the like, has resulted in much adulteration by unscrupulous makers and dealers. The Indiana State Board of Health has recently examined two specimens of aspirin. One contained nothing but milk sugar and alum; the other common chalk and cream of tartar. A third sample contained but two grains of aspirin, although labelled five grains.

It is stated that 12 persons were killed and 33 injured by a Zeppelin raid over London Sunday night.
