## Something Was Wrong.

"This chicken soup seems to be rather weak," said the new boarder.

"I don't see why," replied the landlady. "I told the cook how to make it, but perhaps she didn't catch the idea."

"Or perhaps she didn't catch the chicken," suggested the new boarder.—Indianapolis Star.

## Germany Apologizes for Sinking Sussex.

Washington, May 10.—Germany, in a note received by the State Department today by cable from Ambassador Gerard, admits that a German submarine torpedoed the channel steamer Sussex in violation of assurances given the United States, expresses regret for the incident, announces that the submarine commander has been "appropriately punished" and declares readiness to pay an adequate indemnity to Americans injured on the vessel.

It was indicated at the State Department that the German statement had been punished would be accepted, and the Sussex case considered closed except for arranging for the payment of indemnities to the several citizens of the United States who were hurt.

## A Symbol of Health.

The Pythagorians of Ancient Greece ate simple food, practiced temperance and purity. As a badge they used the five pointed star which they regarded as a symbol of health. A red five pointed star appears on each package of Chamberlain's Tablets, and still fulfills its ancient mission as a symbol of health. If you are troubled with indigestion, biliousness or constipation, get a package of these tablets from your druggist. You will be surprised at the quick relief which they afford. Obtainable everywhere.

## Another Explanation of the Brown Mountain Light.

Morganton News-Herald, 11th. Another explanation of the "mysterious" Brown mountain light which has caused so much comment is advanced by Mr. R. P. Connelly, of Charlotte. His theory would base the cause on the idea of cold and warm air currents meeting, static electricity, and other natural forces. He holds that cold air from Grandfather mountain and warmer air from the south, moving in the triangular valley below Brown mountain, causes discharges of electricity and that makes the mysterious light which flares up, moves about, and puzzles scientists and others.
