MOTOR VEHICLE FOR A FARM

Device Invented by Louisiana Men Has for its Object Simple and Inexpensive Implement.

The Scientific American in illustrating and describing a motor vehicle, invented by E. L. Folse and S. E. Robichaux of Raceland, La., says: In this case the invention is an improvement in motor vehicles for farm

Motor Vehicle for Farm Work. work and has for its object the provision of a simple, inexpensive vehicle of the character specified, having means adapted to support cultivating mechanism, and adapted to be driven by the same motor that drives the vehicle.

INCREASING THE CORN YIELD

Result of Interesting Experiment Conducted With Alfalfa by North Dakota Station.

At the North Dakota experiment station, where manure and alfalfa sod preceded corn, the yield was 72.9 bushels per acre in 1915 and 56.9 bushels per acre in 1914, while the yield of corn following corn in 1913 was 52 bushels per acre and in 1914 was 38.7 bushels per acre. This made an increase of 20.9 bushels in 1913 and 18.2 bushels in 1914, or an average increase of 19.5 bushels per acre due to alfalfa and manure preceding the corn crop.

DISPOSAL OF DEAD ANIMALS

Burning Large Carcasses Is Difficult and Laborious and Requires Large Amount of Fuel.

Dead animals on the farm should be buried deep enough to prevent them from being dug up again, or they should be burned. To burn large carcasses like those of dead horses and cattle is difficult and laborious and requires a large quantity of fuel. In most instances it is more economical to bury them.

All animals which have died of infectious diseases and are buried should be covered with a heavy layer of lime before the graves are closed.

Russians Take Captive 11,000 More Austrians.

Petrograd, via London, June 8.—The capture of Lutsk in Volhynia and also of a series of powerfully organized Austrian positions is announced in an official communication given out here today.

In addition to the 40,000 Austrians previously captured in the offensive movement recently inaugurated, the statement says there were captured in yesterday's fighting 58 officers and 11,000 men. A large amount of war material also was taken.

If you know anything let us find it out. Phone, write, telegraph or do anything, just so you let us have it. That's what we're here for. Send in news items as early in the week as possible.

No Second Primary in Congressional Race.

Asheville Citizen, 10th.

Senator Zebulon Weaver of Asheville, is the democratic nominee for congress from the Tenth congressional district. A telegram from Judge M. H. Justice, of Rutherfordton, runner-up in the recent statewide primary, received yesterday by Senator Weaver, announces that Judge Justice will not call for a second primary, but, in the interest of harmony and for the best interests of the democratic party, will not ask the democrats to go to the polls again. Judge Justice also offers congratulations to Senator Weaver and pledges his earnest support to the successful nominee in the November elections.

Official returns from the Tenth district were received by The Citizen yesterday, and show the votes of the various candidates as follows: Zebulon Weaver, 4,583; Judge M. H. Justice, 3,074; Sol. Gallert, 2,043; Frank S. Hewitt, 803. This makes the total vote cast for congressman in the Tenth district 10,503, with 5,252 necessary to nominate. Mr. Weaver lacked just 669 votes of having the necessary number, but his plurality over Judge Justice, his next nearest opponent, was 1,059 votes.

The action of Judge Justice in withdrawing from a second primary, and not forcing the democrats to go to the polls again met with the warmest commendation here yesterday among the leading democrats of the city, and at the same time, assured Senator Weaver of a solid backing against Congressman James J. Britt in the November elections. Both Mr. Hewitt and Mr. Gallert have already tendered congratulations, and have promised their earnest support to Mr. Weaver this fall. Mr. Gallert, in particular, expressing his intention of "taking off his coat" in the interests of the democratic party, as he has so often done before.

"This action of Judge Justice," declared a leading democrat yesterday, "will do a great deal toward cementing the interests of the democratic party in the district in an supreme effort this fall, and I am satisfied that, when the returns from the November election are in and counted, it will be found that the democrats of the district are again represented in congress."

No Second Primary for State Officers.

Raleigh, June 7.—It is stated positively that there will be no second Statewide primary for any purpose, the only second primaries to be pulled off being those for Congress in the Sixth between Goodwin and Brown, and in the seventh between Robinson and U. L. Spence.

War Claim Bill Passes House.

Washington, June 8.—The House today passed a bill introduced by Congressman Pou authorizing payment of \$225,000 to mail carriers of the South who served from January to May, 1860. Approximately \$15,000 will be distributed in North Carolina among carriers or their heirs.

Congressman Pou, chairman of the Claims Committee, has been gathering the data on these claims for several years.

George Craig, son of Governor Craig, is to undertake the examinations for license to practice when the supreme court convenes in September and if successful will form partnership with his father, Governor Craig, at Asheville, when the latter retires from the governorship next January.

Marion Butler Commands.

Raleigh News and Observer.

Have you been reading the news from Chicago? And in especial that part of the news which tells of the doings of North Carolina Republicans at the Republican National Convention? If so those reports are full of confirmation of the repeated declarations of this paper that Marion Butler is the supreme Boss of the Republican party in North Carolina.

The Butler forces ruled in the assigning of committee places to members of the delegation, and Butler himself took the chief place, that of membership on the Committee on Platform, defeating James J. Britt, the only Republican Congressman from North Carolina.

Marion Butler and his forces are rubbing it in on Britt. At the Republican State Convention Britt only got on the Delegation committee by a bit of good fortune, for the Butler forces were against him, though not daring to get out in the open. But they put in the knife at Chicago, and twisted it.

Butler is the Boss of the Republicans of North Carolina. That was demonstrated at the Republican State Convention. It was demonstrated in the Third District Congressional Convention. It has been demonstrated wherever there has been any opposition to the Butler program. It was demonstrated at the State-wide primary in keeping Republicans from voting for a choice for President. It is being even more fully demonstrated at Chicago, where Butler absolutely dominates the Republican delegates from North Carolina.

SAWDUST IS A GOOD FIRE EXTINGUISHER

Sawdust will extinguish small fires in garages, and its value is greatly increased by the addition of bicarbonate of soda (baking powder).

The sawdust floats and forms a blanket over the burning oil, while bicarbonate of soda, when exposed to heat, gives off carbon dioxide gas, which helps to prevent combustion by shutting off access of air. A mixture of 10 pounds of bicarbonate to 1 bushel of sawdust has been found to be satisfactory.

AMERICAN UNION CLAIMS PAID.

Insurance Commissioner Young of North Carolina on Wednesday mailed checks to all North Carolina claimants in the American Union and Monogahela cases. The bonding company, in accordance with the judgment of the court, has paid in in the American Union case \$11,050 and in the Monogahela case \$5,517.69. The agents had settled all these claims and they are now recouped by this return of premiums. In the first case claimants get about one per cent less than the principal and interest of their claims, while in the latter claimants get about one per cent less than the principal of their claims. The allowance for the North Carolina agents is after the deduction of the suits, and the agents were allowed their commissions.—Weekly Underwriter.

NEW PERFECTION

"I SAVE TIME in my COOKING!"

"THE TOUCH of a lighted match gives full heat on the instant and the flame 'stays put' when it's regulated. It turns on and off like a gas stove!"

The New Perfection Oil Cook Stove, the stove with the long blue chimney, is built to save time.

The long blue chimney gives a perfect draft, and assures a clean, even heat and a lasting satisfaction.

New Perfection Oil Cook Stoves are made in many styles and sizes. They are sold by most good dealers who will gladly show them.
