Stop overs allowed at Washington, Baltimore and Philadelphia on return trip only. Pullman and day cars on the train going through to Atlantic City without change.

Big Bridgewater Development May Now Be Held Up.

Charlotte Observer.

That work on the part of contractors at the big two million dollar dam at Bridgewater for the Southern Power Company may be tied up for months, pending court decision, is the latest information to reach Charlotte, as an aftermath of the floods which devastated portions of North Carolina. Ex-Lieutenant Governor W. D. Turner of Statesville, who is largely interested in the big mill at Monbo, so badly damaged, it is claimed, by the breaking away of the dirt arm of the dam at Lookout Shoals, declared yesterday that he would apply for an injunction restraining the Southern Power Co. from building the proposed storage dam at Bridgewater.

Contractors have been in Charlotte conferring with the agents for companies making explosives and other material needed for such work, and the general understanding has been that the Bridgewater dam would be well under way in the very near future. Suit is also being prepared by the former Lieutenant Governor against the Southern Power Company for damages to the Monbo Mill as a result of the breaking away, it is alleged, of the earthen or soil arm of the dam, which is claimed to have released the water that caused so much damage at the Turner Mill. The extent of this suit for damages is not known and the former Lieutenant Governor refused to state what the amount of claims would be.

But the Bridgewater proposition for storage purposes is a big one, entailing an expenditure of more than two millions of dollars, it is said, and originally intended for storage purposes. The land has already been purchased and the water rights adjoining. Mr. Turner declares that the mill owners south of Lookout Shoals are very much opposed to the construction of any more dams on the river, and that if it is known that dams are to be continued there, the fact will interfere with the credit of mill men in procuring enough money to rebuild and resume operations.

Whether this matter will get to the courts of course is a question. The right of hydroelectric power corporations to interpose barriers in a stream are well defined, and at the same time the rights of property owners residing below such barriers in case of damage resulting therefrom are likewise well defined.

There is a phase just here that if property owners residing on a stream can go into the courts and get injunction against other interests putting dams across a river above them, then this would tend to interfere if not absolutely to eliminate all waterpower development.

Whatever may be the outcome further developments along this line will be of supreme interest throughout this section.

One lesson which is to be learned from the devastation of sections of Western North Carolina is that increasing attention must be paid to the preservation of our forests. The mountain sides denuded of trees are menace to both life and property. The conservation of our forests is a thing which deserves full consideration.—Raleigh News & Observer.

Your Bowels Should Move Once a Day

A free easy movement of the bowels every day is a sign of good health. Makes you feel like living. Only 25c. at druggists.

Who Should Be Vaccinated Against Typhoid?

The question, Who should be vaccinated against typhoid fever? has recently been answered by a noted physician of this country. He says all who come under the following heads should be vaccinated against typhoid as their positions largely increase their chances for contracting it: Drummers and railroad men; all vacationists, especially campers, people who travel much; practicing physicians and nurses; all people who live in towns and small cities; people who live in the country; people who live in a town or community where typhoid is epidemic; people who eat at various hotels and restaurants; people who have no means of knowing whether their food has been free from flies and filth; and finally all people who have not big bank accounts or who have loved ones dependent on them.

The doctor does not say as much but he evidently means to include the whole world for fear somebody will wilfully be left out. He does not want the responsibility laid at his door if some one should excuse himself from the above list and should contract typhoid fever and die.

Another doctor who does not want to be responsible for any person's remaining unvaccinated and contracting typhoid fever and perhaps dying says that there are only two classes of people whom he does not advise to take the treatment—the dead and those who have already been vaccinated.

Happiness and Its Shadows.

Wilmington Dispatch.

The great purpose of life is happiness—at least the nearest approach to it that is possible. It is for happiness that we toil, aspire, cultivate ourselves, love, marry, accumulate property and perform all the wholesome duties of life.

Yes, too, it is for happiness that we loaf, cheat, lie, steal and commit all sins and crimes. There is no other ultimate aim known to the human mind than happiness. Our conception of happiness determines our lives. There is the true happiness, the substance, and the false happiness, its shadow. The one lures us upward, through noble endeavors. The other is a mocking will o' the wisp that leads us into morasses of disappointment.

Are you getting the genuine article, or a spurious imitation? There is this to be remembered: Genuine happiness does not cost anywhere near as much as the false variety. Perhaps the only one really to be envied, and yet the one least envied, is the one whose ideals are humblest and best fit into the heart. For true happiness consists not in the multiplication of material wants, but in the simplification of them. True happiness lies not in what the eyes may see, the ears hear, the palate taste and the hands hold, but in the soulfulness that senses these things.

A Doctor's Remedy for Coughs

As a cure for coughs and colds Dr. Bell's Pine-Tar-Honey combines these remedies in just the right proportion to do the most good for summer coughs or colds. A trial will prove the value of this splendid cough medicine. Dr. Bell's Pine-Tar-Honey soothes the irritation, stops your cough, kills the cold germs and does you a world of good. A 25c. bottle will more than convince you—it will stop your cough. All druggists.

"As the rose-tree is composed of the sweetest flowers and the sharpest thorns; as the heavens are sometimes overcast alternately tempestuous and serene; so is the life of man intermingled with hopes and fears, with joys and sorrows, with pleasures and with pains."

Let's you forget what the best medicine for Summer sickness is, buy a bottle of Dr. SETH ARNOLD'S BALSAM and be ready for any sudden attack. Warranted by Marion Pharmacy.

OH! MY BACK!

The Expression of Many a Kidney Sufferer in Marion.

A stubborn backache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, that almost takes the breath away. Doan's Kidney Pills revive sluggish kidneys—relieve aching backs. Here's Marion proof:

C. C. Boone, blacksmith, State St., Marion, says: "My kidneys acted irregularly and were weak. My back ached and it was hard for me to straighten after stooping. I got Doan's Kidney Pills at Streetman's Drug Store and they fixed me up all right, stopping the pains and regulating the action of my kidneys." (Statement given February 19, 1912.)

DOAN'S ALWAYS EFFECTIVE.

Over Two Years Later, Mr. Boone said: "Whenever my back starts hurting me, I take Doan's Kidney Pills and they give me quick relief."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Boone has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.
