University Opens Fall Term.

Chapel Hill, N. C., Sept. 18.—The University of North Carolina opened its doors to students on Tuesday, Sept. 12, when registration for the session of 1916-17 began. It is now 121 years since the first student, Hinton James, reported to the first and only professor at that time, Dr. David Ker, for work at the University. Registration has likewise increased from the one and only student registered that year to the 1090 students reported by President Graham at the formal opening on Friday. Registration continues to go on, and the total has already passed 1100, the largest yet known this early in the year.

There was frost in middle Tennessee last Saturday, the earliest in twenty years.
