Thousands Behind

Three to fifty per hour on high—that's the speed report we get from owners all over the country.

And 20 to 25 miles per gallon of gas is the economy report.

A corking good car—

A price that makes it the greatest value on the face of the earth—

That combination has kept the factory thousands of cars behind sales for weeks and weeks.

But we're getting them in right along.

Better see us about yours today.

LICENSING INSURANCE AGENTS.

It is well to understand the law governing the licensing of insurance agents and the duty imposed on the Insurance Commissioner under it: (Chapter 79, Laws 1913.)

The General Assembly of North Carolina do enact:

Section 1. That before any license is issued to an insurance agent in this State, the agent applying for such li-

cense and the company for which he desires to act as agent, shall apply for such license on forms to be prescribed by the Insurance Commissioner, and before any license to such agent is issued the Insurance Commissioner shall satisfy himself that such person so applying for license as an agent is a person of good moral character, that he has not willfully violated any of the insurance laws of this State, and that he is a proper person for such position.

Gaston Candidate Drops Dead.

Cherryville, Oct. 19.—Hon. John Puett of Dallas, a member of the State Legislature and a man of prominence, dropped dead here tonight in the Commercial Hotel with heart failure just as he was leaving the dining room, having finished his supper. Mr. Puett was booked to speak here tonight at a rally and to all appearances was in perfect health.

Star Dust and Common Clay.

There is in every college man something of the Prodigal, of Esau, and of Saul—of the man who sells out for the price he can clutch—who swaps his star dust for common clay; there is something also of the Prodigal and Paul—of the man who claims his birthright back, who comes to himself and comes back.

Every young man's life is an unprecipitated solution of all biography; of Nero, Benedict Arnold, and Jess Willard; but no less of Socrates, Shakespeare, Newton, Washington, Lincoln, Lee, Pasteur. Every college man recognizes these two clear calls to him, and most men feel that in the ordinary life of everyday that there is a sharp contradiction between them; that there must be a surrender of one of them, that college life at best must be a compromise between his youth and his maturity, what he is now and what he wants to be fifteen years from now—a truce between his happiness and his ambition.—E. K. Graham.

Fair Association Will Ask Legislature for Large Improvements.

Raleigh, N. C., Oct. 19.—With Leonard Tufes, of Pinehurst, re-elected president, the North Carolina Agricultural society, operating the state fair, will, through a special committee of twenty-five, go before the next legislature and urge the appropriation of \$10,000 to be expended in permanent improvements at the fair grounds that will make possible necessary expansion. This determination was reached in the annual meeting tonight. There is to be a campaign launched for the unification of the community and county fairs and the state fair so that co-operation will assure real representation of the development of the state in the state fair. It is considered necessary to at least double the space for agricultural exhibits and the race track and grandstand must be rebuilt and extended.

Villa Captures Mining Town and Burns Houses.

Chihuahua City, Oct. 18. (Via El Paso Junction, Oct. 19.)—Francisco Villa and a part of his command took possession of the mining town of San Andres, twenty-five miles west of here yesterday. Angered because the male population fled to prevent being impressed into his service, Villa ordered the houses burned and permitted atrocities upon the defenceless inhabitants, a refugee from San Andres, who arrived here today reported to General Trevino.
