Don't Let the Fire Start.

The preventive fireman is not so spectacular a figure as the old fashioned fire fighter, but he is more useful to the community. Just as science is giving itself to the task of preventing sickness and plague so the main work of a modern fire department should be in removing the conditions that make fires probable. New York and all other progressive American cities already have the protection that comes from the preventive fireman whose daily inspection reduces the fire hazard and who preaches the gospel of fire prevention wherever he goes. As 90 per cent of our fires are preventable, the field of prevention is practically unlimited.—Lealle's.

Rural mail carriers are to receive back pay. This has been corrected and the carriers are to receive the back pay. North Carolina carriers will receive theirs in a few weeks.

Cough Medicine for Children

Mrs. Hugh Cook, Scottsville, N. Y., says: "About five years ago when we were living in Garbutt, N. Y., I doctored two of my children suffering from colds with Chamberlain's Cough Remedy and found it just as represented in every way. It promptly checked their coughing and cured their colds quicker than anything I ever used." Obtainable everywhere.

VENGEANCE ALL HE SOUGHT

When Crowd Learned Nature of Christmas Gift It Left Him to Commit His Crime.

It was Christmas eve, and a stout man with a large package beneath his arm hurried through the crowded thoroughfare, closely pursued by a small man of haggard aspect, with a thick stick in his hand.

On and on, relentlessly, the forlorn man dogged the other, and those who passed him heard an occasional word drop from his lips, indicative of despair or awful terror.

Finally, some of the crowd turned and followed the pair, determined not to miss the fun. The crowd grew larger, and finally a bold man went up to the person of haggard countenance.

"What's the matter?"
The little man turned.
"Matter?" he echoed. "See that man with a bundle? He is my next-door neighbor, and in that bundle he has a cornet which he has bought for his small son to play upon."

But the crowd waited no longer. It surged ahead and left him to work out his own salvation, and when peace had been restored the remains of the battered man and a battered cornet lay upon the pavement.

Neglected Colds Grow Worse

A cough that racks and irritates the throat may lead to a serious chronic cough, if neglected. The healing pine balsams in Dr. Bell's Pine Tar Honey—Nature's own remedy—will soothe and relieve the irritation, breathing will be easier, and the antiseptic properties will kill the germ which retarded healing. Have it handy for croup, sore throat and chronic bronchial affections. Get a bottle to-day. Pleasant to take. At all Druggists, 25c.

Winter wheat was sown the past fall on an estimated area of 40,000,000 acres, an increase of 837,000 over the revised estimate of the area sown in the fall of 1915, the Department of Agriculture states. The condition on December 1st was 85.7 per cent. normal compared to 87.7 last year.

Lots of Sand.

Because of the difficulty of getting good sand for road work the California highway commission has hit upon the use at one point of what appears to be an inexhaustible source—the bottom of a river. Near San Luis Obispo a cableway excavator takes sand from the bed of the Salinas river and delivers it to a screening plant, whence it is loaded on cars. It is expected, says the Engineering Record, that each winter the pits made the previous season will be filled by freshets and the supply will be never ending.

Co-operation in Kansas.

The state of Kansas road authorities and local officials are jointly planning to finish up the good road between Lawrence and Leavenworth by pooling state, county and federal road funds.

Danger Signal

If the fire bell should ring would you run and stop it or go and help to put out the fire? It is much the same way with a cough. A cough is a danger signal as much as a fire bell. You should no more try to suppress it than to stop a fire bell when it is ringing, but should cure the disease that causes the coughing. This can nearly always be done by taking Chamberlain's Cough Remedy. Many have used it with the most beneficial results. It is especially valuable for the persistent cough that so often follows a bad cold or an attack of the grip. Mrs. Thomas Beeching, Andrews, Ind., writes: "During the winter my husband takes cold easily and coughs and coughs. Chamberlain's Cough Remedy is the best medicine for breaking up these attacks and you cannot get him to take any other." Obtainable everywhere.

Study Food Values

Food provided for the family table deserves the careful thought of every housewife. Do you use thought when buying baking powder?

The quality of cake, biscuits and all quickly raised flour foods depends largely upon the kind of baking powder used.

Royal Baking Powder is made from cream of tartar derived from grapes. It is absolutely pure and has proved its excellence for making food of finest quality and wholesomeness for generations.

Royal Baking Powder contains no alum nor phosphate.
