### MAX GARDNER FOR GOVERNOR

(Continued from first page)

ful farmer, and in this work has studied and practiced the work that falls to the lot of the farmer. He understands the needs of the farmer and North Carolina is peculiarly an agricultural State. Gardner is a business man, endowed by nature with the faculty of making good and his experience in business affairs adds to his worth to the State. His ability has been recognized and his advice is eagerly sought by men of affairs. In politics, Gardner is a winner—not merely of place but of men. He is known as a "vote-getter" for the party. His speeches have been recognized as of the type that win men, to the party and its principles. Gardner's personality is of the attractive type, he is an approachable man and one who makes friends and holds them and is noted for his loyalty to them.

Rutherford county is supporting him, and will show Cleveland, when the day comes, a loyalty to Max Gardner not to be exceeded by his own home county.
