

## A GOOD FRIEND

A good friend stands by you when in need. Marion people tell how Doan's Kidney Pills have stood the test. C. C. Boon, blacksmith of State St., endorsed Doan's eight years ago and again confirms the story. Could you ask for more convincing testimony?

"My experience with Doan's Kidney Pills has been such that I am glad to recommend them," says Mr. Boon. "My kidneys were irregular in action, my back ached and I had trouble in stooping. Doan's Kidney Pills were advertised at the Streetman Drug Co., so I used some. They fixed me up in good shape and I have felt fine since." (Statement given February 19, 1911.)

On April 24, 1918, Mr. Boon said: "I recommend Doan's Kidney Pills just the same now as when I endorsed them before. They helped me when ever my back has troubled me since and I wouldn't be without them. I advise others to try Doan's, for they are just as represented."

**NOTICE—SALE OF E. M. HUTCHINS LAND AT DYSARTSVILLE. FINE BRICK HOUSE AND VALUABLE FARM**

By virtue of an order of the Superior Court for McDowell County in the Special Proceeding entitled Bessie E. Norville and others, the undersigned commissioner will sell, at the Court House door in McDowell County, to the highest bidder, for cash, on

Monday, Sept. 20th, 1920,

the following described lands: Adjoining the lands of J. R. Denton, W. W. Dysart, W. H. Taylor and others, beginning on a small double red oak, J. A. Laughridge and W. L. Duval's corner, and runs west 172 poles, crossing South Muddy Creek, to a pine stump on the east side of the road; then South 21 East 52 poles to the canal or mill creek, crossing the creek; then up the creek as it meanders to the former line; then with said line 20 poles to a black oak; then South 154 poles to a post oak; then East 140 poles to a white oak; then South 48 poles to a small white oak, W. A. Laughridge's corner; then East 41 poles to a stake and pointers; then South 52 poles to a stake, W. A. Laughridge's corner in Pitts & Giles' line; then East 108 poles to a black gum; then North with T. B. Hemphill & Co.'s line 80 poles to a hickory, W. W. Dysart's corner; then South 86 West, with said Dysart's line 56 poles to a red oak on the East side of the Morgan road; then Northward, with W. W. Dysart, A. B. Taylor and J. A. Laughridge's lines and with said public road as it meanders, 148 poles to a large hickory, J. A. Laughridge's corner; then North with said line 42 poles to the beginning, containing 300 acres, more or less. The public school house lot is excepted.

Excepting from said boundary that tract of 32 and 7/8 acres more or less conveyed by Geo. D. Taylor, Com'r to J. L. Padgett (in the settlement of the estate of E. M. Hutchins), beginning on a post oak and runs North 6 West 68 poles to a persimmon on the bank of the Dysartsville road, then with said road North 38 East 16 poles to a red oak; then East 56 1/2 poles to a hickory; then South 87 poles to a black gum; then West 57 1/2 poles to the beginning, containing 32 1/2 acres more or less, excepting the school house lot.

This Aug. 20th, 1920.

W. R. CHAMBERS, Commissioner.

## DEMOCRATS PROUD OF THEIR RECORD

**Say They Will Enter 1920 Campaign in Splendid Condition—Constructive Program Accomplished.**

Raleigh, Sept. 3.—The Democratic party goes into the campaign in North Carolina this month presenting a more constructive program of work accomplished during the next four years, and sounder proposals for the future policy of the state than it has entered any campaign during the last 20 years, in the opinion of political students who have been watching the progress of the state and the political campaigns for the last two decades. The 1919 session of the legislature, both in its general session and in the extra session this summer, wrote into the statute books of the state laws that will rebound to the benefit of the state for many generations to come, and leaves the service of North Carolina with a tax system that embraces the elemental principles of fairness and justice to every property owner in the state, the Democrats claim.

In answer to the constant cry of the opposition for some reform of the taxing system so that the man with large property would have to pay in just exactly the same proportion as the man who had small means, the 1919 session of the legislature passed this reform measure. In answer to the suggestion of the Republicans that the majority party has been extravagant in the expenditure of public funds, the special session this summer announced to the public that there was sufficient surplus in the treasury to enable the finance committee by some increasing in franchise and corporation taxes, to get by without levying a single penny of tax on property for general state funds or for the pension funds.

The Democrats make no claim that the revaluation act is the paragon of perfection. No tax reform can be made to function perfectly on its first trial, but it is the greatest step forward that has ever been taken in North Carolina towards a real reform of the taxing system, they contend.

## THE CAROLINA OF TOMORROW.

Dr. Clarence Poe's address, "Vision," before the North Carolina Press Association recently in Waynesville was a masterpiece, and could not have failed to give each of his hearers inspiration for greater service in helping to bring the better, brighter day for the State. In closing he said:

My purpose in speaking to you, my fellow-craftsmen, is to ask you to seek this vision of the future of your State and your country. My purpose is to ask you to lift up your eyes to the Hills of Tomorrow and see the North Carolina that is to be, your home county as it is to be, and the part that we may have in hastening their development.

To live on in some consolidated school which insures a large opportunity for childhood; in the lightened labors of housewife to whom home demonstration work has brought more of leisure and recreation; in the happy smile of some boy or girl to whom improved health facilities have meant joy and strength; in some school library which immeasurably widens the intellectual horizon of the community; in some new and larger appreciation of the beautiful in art or nature; in some passion for justice which sweetens law and life—this is the high privilege of the North Carolina editor in this fortunate period of common-wealth-building, and it is better to win such a simple but genuine immortality than have the empty glory of any career however dazzling, which burnt itself out in serving the ends of self.

May every one of us get this vision of his possibilities for service to North Carolina and strive for their fulfillment, finding while he lives the happiness of constructive activity; and dying—

"Join the choir invisible Of those immortal dead who live again

In minds made better by their presence,

Whose music is the gladness of the world."

## EXCHANGE YOUR LIBERTY BONDS

Holders of Liberty Bonds from which all the coupons have been clipped are requested to take the securities immediately to their banks here which will transmit them to the Federal Reserve Bank of Richmond where they will be exchanged for bonds having coupons covering all interest payments for the rest of the life of the bonds. Word to this effect has been sent out from Washington.

Moreover, when Liberty Bonds paying 4 per cent interest are sent in, new bonds paying 4 1-4 per cent interest will be issued.

In this federal reserve district many Liberty Bonds were bought which when issued carried only six interest coupons. These are known as "temporary" bonds. Their coupons have fallen due. The government now wishes to issue "permanent" bonds in their place.

The additional one-fourth of one per cent interest offered on the unconverted 4 per cent bonds is now being lost by the bond-holders. The highest rate of interest will be paid, from the next interest date, however, to all owners of 4 per cent Liberty Bonds in this district, the Treasury Department has announced, who get the securities to the Federal Bank of Richmond for conversion into 4 1-4 per cent bonds.

## WHERE POPULATION IS FOUND.

More than one-fifth of the population of the country is located in 33 leading cities having 200,000 or more inhabitants. A table showing these cities in order of their rank for 1920 issued by the census bureau, places their combined population of 22,724,565, which is slightly more than one-fifth the total population of the country, as estimated by Dr. Joseph A. Hill, chief statistician of the bureau at 105,000,000.

## The Certain-teed Guarantee as a Basis for Estimating Roofing Cost

The Certain-teed guarantee provides a basis for estimating the approximate cost per year of your new roof.

Certain-teed Roofing, Number 3 Heavy, is guaranteed for fifteen years. It usually lasts longer.

Taking fifteen years as the assured life and dividing the unusually low cost of Certain-teed, as compared to most modern types of roofing, by this figure, you readily see how economical Certain-teed is.

The light and medium weights of Certain-teed are also guaranteed, five years for the former and ten years for the latter.

In addition to its durability, Certain-teed is weather-proof, fire-resistant and spark-proof.

And it costs less to buy, less to lay and less to maintain than any other type of good roofing.

When you need a dealer about roofing, if he hasn't a quantity of Certain-teed in stock he can quickly get more from a nearby Certain-teed warehouse or distributing center.
