ITEMS OF INTEREST FROM THE COUNTY (Continued from page one)

day afternoon.

Miss Caldwell spent the week-end with homefolks near Greenlee. Mrs. Frank Turner has been on the sick list, but is improving. Carl Morris has entered school at Old Fort.

DYSARTSVILLE

Dysartsville, Sept. 20 .- W. A. Dysart and family of Hickory visited Mr. and Mrs. W. H. Taylor last week. Miss Lucy Roper of Charlotte is home for awhile. Glad she is getting on so well after undergoing an operation for appendicitis.

J. Ray Denton of Atlanta, Ga., visited relatives here last week.

Misses Mamie and Lona Goforth left Saturday to begin their school at the Clinchfield mills.

Daphne Spratt left Sunday to enter Nebo High school.

Vernie Rollins left last week to enter the Shelby high school.

Sim Cowan and family of Marion were visitors here Sunday.

Mr. and Mrs. Will Landis of Marion visited relatives here last week. Ned Jaquins and Hunter Cowan

are in school at Brevard.

* IN

Miss Kate Satterwhite left last Friday for Fayetteville where she will take training as a nurse.

Groceries

Not Generally as Profitable as Some Other Grains, but Needed in Good Rotation.

OATS ARE ECONOMICAL CROP

It is sound farm business to sell some crops for cash. Farm management surveys have shown that the safest and soundest practice is to have about one-fifth of the total receipts on the farm come from sale of crops. The other four-fifths will come from the sale of live stock or live stock products.

The crop that can usually be sold for cash most economically is oats. Oats are not generally as profitable a crop to grow as some others, but a good rotation needs this small grain in it. It makes a very satisfactory con necting link between the corn crop and the hay crop. Corn, if sold as a cash crop, makes a larger return to the acre, but corn can usually be fed more profitably than it can be sold for cash. It is ordinarily a cheaper feed than oats. Hence, if any crop is to be sold, it should be the oats.

WEIGHTS PER BUSHEL

A bushel is regarded as a definite weight rather than a cubic measure in the estimates of production and prices made by the bureau of crop estimates. The weights which are regarded as a bushel for various products are as follows:

Wheat, 60 lbs.; corn, 56 lbs. if shelled, 70 lbs if in ear; oats. 32 lbs.; barley, 48 lbs; rye, 56 lbs.; buckwheat, 48 lbs.; white (Irish) potatoes, 60 lbs.; sweet potatoes, 55 lbs.; apples, 48 lbs.; pears, 48 lbs.; peaches, 48 lbs.; walnuts and hickory nuts, 50

"EVERYWOMAN'

is a superb combination of Spectacle and Pageant thrown on the screen. The scenes of the Banquet, the settings of the Palace of Wealth, in the home of Everywoman, and in dozens of other situations are Georgeous in the extreme, and the gowns and costumes are of

Heat your entire home at less cost than heating only a part of it with stoves. You can do it with the Caloric Pipeless Furnace, which has revolutionized furnace heating by doing away with pipes. It requires only one register, on the ground floor of your home, and thru this every room is made warm.

The principle is simple and practical. As the heated air rises from the furnace thru the center of the register it spreads throughout the whole house, forcing the cold air down into the furnace. There it is purified by the intense heat, properly moistened by a special water pan and again rises and circulates into every nook and corner. This produces a delightful, warm and healthful atmosphere, of even temperature, in every room of the house. The

has numerous exclusive patented features that make it unequalled for heat capacity, economy and covenience. Easily installed in one day in any house, new or old. Burns any fuel. Takes little room. There is no smoke, coal, gas or dirt in the house-no heat-wasting, expensive pipes in walls or cellar. The cellar is always cool enough for storing fruits and vegetables. There is no fire danger-no

bother to keep the furnace in first-class condition. We guarantee its satisone-third of your fuel bill.

Do not confuse the Caloric with other
