THE MONUMENT TO THE PILGRIMS

A TOP TOWN HILL in Provincetown, Massachusetts, looking out over the restless sea from the great arm which that state flings out into it, stands a great and impressive monument of extraordinary beauty and great dignity.

This monument, one of the tallest on this continent, commemorates the anchoring of the Pilgrims in the historic Mayflower in the year 1620, their adoption of the first charter of a democratic government in the history of the world, the birth of the first white child born in New England and the whole chain of happenings which preceded the settlement at Plymouth.

Built entirely of Maine granite, the construction supervised by the Engineering Department of the United States Army, this structure rests upon a sixty-foot-square foundation, is 28 feet square at the base, approximately 252 feet high and the site is about 100 feet above the tides. The architecture is of the Italian Renaissance order, the design having been copied from the tower of Torre del Mangia at Siena, Italy.

The site was provided by Provincetown; the cost of the monument was defrayed by a joint fund contributed by Congress, the Commonwealth of Massachusetts, the town of Provincetown and individuals in all parts of the country. Dedicatory exercises were held on August 5th, 1910, the President of the United States being in attendance.

This staunch and magnificent commemorative structure, standing in silent triumph, is typical of the reliance and love of freedom which characterized this little band in their battle with the elements and fate and of their descendants in all parts of the world.

Your home paper comes to you as an old friend and neighbor, telling you all the home news while the large city paper enters your home as a stranger. Send in your subscription to The Progress and keep posted on local affairs.

NOT UNDERSTOOD.

Boston Globe.

Not understood; we move along asunder;

Our paths grow wider as the seasons creep,

Along the years, we marvel and we wonder

Why is life life, and then we fall asleep,

Not understood.

Not understood, we father false impressions

And hug them closer as the years go by,

Till virtues often seem to us transgressions,

And thus men rise and fall, and live and die,

Not understood.

Not understood, poor souls with stinted vision,

Of measures giants by their narrow gauge,

The poisoned shafts of falsehood and derision

Are oft impelled against those who mould the age,

Not understood.

Not understood; how many hearts are aching,

For lack of sympathy; ah, day by day,

How many cheerless, lonely hearts are breaking,

How many noble spirits pass away,

Not understood.

O, God, that men may see a little clearer,

Or judge less harshly when they cannot see;

O, God, that men may draw a little nearer

To one another, and be nearer Thee,

And understood.

"Tanlac made me feel younger." "It put me back on the payroll." "I can eat whatever I want now." "I no longer suffer from indigestion." "I gained weight rapidly." These and many more expressions are now heard daily as people tell of their experience with Tanlac. Davis Pharmacy.

"Pay-Up" Week

Oct. 10th to 15th

Keep Your Credit Good for—
Credit is CHARACTER

Your cannot guard your credit too carefully. When you ask for credit, you ask for a Convenience based on Confidence—not on your ultimate desire or ability to pay Promptly when Due. A promise broken signifies lack of Character on your part and results in loss of Confidence in you by your merchant.

Each member reports to the Association, the way you pay your bills. A record is made of these reports which is kept on file for the benefit of all the other members whom may desire information as to your credit standing. These records are kept up to date by frequent reports. So, your standing with this Association is determined by the way you pay your bills.

"Pay-Up" Week is conducted for your protection. Slow and dead beat accounts increase prices. Marion merchants are co-operating this week to improve credit conditions in this community. Do Your Part. Pay Your Bills This Week and make it a habit to pay them Every Month Before the 10th.

Don't forfeit your right to CREDIT. If you can't pay all, pay all you can and explain to your merchant.

Marion Merchants' Association

Thousands Are Finding Health Through Chiropractic--A Wonderful Science of Healing

Within the comparatively brief period of twenty-five years chiropractic has greatly improved the health of the world. Its marvelous cures in cases which had absolutely baffled other practitioners have aroused the admiration of the world. Are you profiting by this really advanced method?

FACTS

The brain is the central operator which controls the function and maintains health of every organ in the body. Do you realize that the lungs could not function for one minute if it were not for brain activity? Do you know that if this operator in the brain should rest for five minutes, your life would end?

All over the body are nerves which extend from the brain to the tissue cells. There is no part of the body that is not supplied. These small nerves are the wires which carry the messages controlling function. The heart beats, the stomach digests, the glands secrete, and muscles produce motion, because of the messages sent out from the brain, over these nerves.

If the nerves are out, the tissue which they supply can no longer function. However, it is possible for them to be pressed upon, and if this happens, their ability to carry their messages from the brain is impaired.

This is exactly what happens in all cases of sickness. The nerves are pressed upon where they emerge from the spine, due to an abnormal position of the vertebrae between which they emerge. Thus the organ supplied is effected so that it cannot properly function. If it is the nerve supplying the stomach, indigestion, or some other form of abnormality exists. If the nerve supplies the heart, heart trouble occurs, etc.

The Chiropractor merely restores the vertebrae to its normal position, and when this is done and the pressure removed from the nerve, health exists.

Whatever your sickness let the Chiropractor examine your spine. You may not realize that this is the real cause of your trouble, but to regain your health is to be convinced.

THE DISEASES WHICH OTHER METHODS HAVE FAILED TO CURE ARE THE ONES UPON WHICH THE REPUTATION OF CHIROPRACTORS HAS BEEN BUILT—Come For a Consultation.
