

STOP THAT ACHE!

Don't worry and complain about a bad back. Get rid of that pain and lameness! Use Doan's Kidney Pills. Many Marion people have used them and know how effective they are. Here's a Marion case.

Mrs. F. H. Proctor, Court St., says: "Some few years ago kidney trouble came on me and I think too much heavy work is what brought it on. My back ached a great deal and this took the life and ambition out of me. When I bent over a sharp pain would shoot through my kidneys. I was dizzy and often I could hardly stand. Black specks floated before my eyes, too. Mornings I was lame and sore and felt tired. I had nervous headaches, my ankles swelled and my kidneys were out of order. I got Doan's Kidney Pills at the Streetman Drug Co. and they rid me of the complaint in a short time. My back felt like new and continued use entirely relieved me."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Proctor had. Foster-Milburn Co. Mfrs., Buffalo, N. Y.

ASPIRIN

Insist on Bayer Package

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for

Colds Headache
Toothache Lumbago
Earache Rheumatism
Neuralgia Pain, Pain

Accept only "Bayer" package which contains proper directions. Handy boxes of twelve tablets cost few cents. Drugists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

CALOMEL USERS TAKE AWFUL RISK

Very Next Dose of Treacherous Drug May Start Terrible Salivation.

The next dose of calomel you take may salivate you. It may shock your liver or start bone necrosis. Calomel is dangerous. It is mercury, quicksilver. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel without making you sick, you just go back and get your money.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. No salts necessary. Give it to the children, because it is perfectly harmless and can not salivate.

CONSERVE MANURE BY SPREADING ON FIELD

Not Generally Understood That It Saves Nitrogen.

Certain Forms of Bacterial Life Find Conditions in Usual Manure Pile Favorable to Development—Heating Also Occurs.

It is not generally understood just why spreading manure in the open field checks the loss of nitrogen which commonly takes place through the formation of ammonia in barnyard waste. The reason will be seen if one recalls how ammonia is produced. This is due to the activity of certain forms of bacterial life which are always present in manure and which

The Right Way to Care for Manure Produced on the Farm—Conserve the Plant Food Which It Contains to Increase the Fertility of the Soil.

find in the usual manure pile conditions favorable for their development. Through their operations organic matter is broken down into simpler chemical forms, one of which is ammonia. Heating of the pile also occurs. Both of these occurrences are familiar to everyone around a stable or where piles of manure are about.

When manure is spread evenly in the open field not only are the conditions which make for the activity of the bacteria overcome, but new factors tending to check their continued operation are introduced. The mere fact that the waste no longer lies in a pile is a matter of considerable moment, for the pile, as already indicated, furnishes the physical surroundings most favorable for the operation of these organisms. Moisture, which they need, is present in just the right amount. Air in the pile supplies them with the oxygen which they require. The mass of waste holds the heat which is generated in the chemical reactions which accompany the processes of decay. This, in turn, makes possible even greater activity on the part of the bacteria.

MANURE WILL HELP PASTURE

Top Dressing Often Will Bring About Improvement Where Grasses Are Undeveloped.

When pasture begins to fail it may often be improved without ploughing by topdressing the land liberally with barnyard manure or acid phosphate with lime. This is usually the case where the pasture has plenty of the good pasture grasses which, however, are poor and undeveloped. A topdressing on such a pasture will not only bring a good crop of grass in two or three years but also drive out some of the weeds that overrun the rundown pasture lands. This topdressing will be better than reseeding where the soil is exhausted.

Where there is a decided dearth of good grasses, liberal applications of manure may be combined with plowing and reseeding. Where it is necessary to plow as well as topdress with a manure and fertilizer, it is a good idea to grow a crop of potatoes or oats or perhaps buckwheat. Such a crop will pay the cost of reseeding, then the following year a good crop of hay can be taken off, and after that good pasturage may be had for many years.

FALL PLOWING FOR INSECTS

Multitude of Pests May Be Killed After They Have Gone Down and Prepared Winter Homes.

There are a multitude of field insects that may be killed by fall plowing if it is done after they have gone down and prepared their winter homes, which they do before frost. Any time after they become dormant they may be turned up to the weather and will be destroyed, and even if they are not dormant plowing will give the birds and other natural enemies a chance at them. If the plowing is done primarily as an insect campaign it is best to wait until as late as possible. The plowing is good for the land anyway.

SHIPPING SWINE IN SUMMER

Fat Hogs Are Liable to Suffer More or Less En Route to Market During Hot Weather.

Hogs, if fat, are likely to suffer when shipped to market during hot weather. It requires considerable care to ship during the summer, but it can be done if the owner uses good judgment and is able to secure service from the transportation company's officials.

STATE'S VETERANS RE-ELECT OFFICERS

Asheville, Sept. 27.—All officers were re-elected by the North Carolina Division, United Confederate Veterans, at a business session held in connection with the reunion here today. The officers follow. General William A. Smith of Ansonville, Commander; General A. H. Boyden, Salisbury, Commander First Brigade; General P. G. Alston, Louisville, Commander second brigade; General George H. Hall, Red Springs, Commander Third Brigade and General James M. Ray, Asheville, Commander Fourth Brigade.

Adopt Resolutions. Resolutions, in addition to one of thanks to Asheville, included a measure urging that the original route of the proposed Lee Highway be adhered to; that the North Carolina State Highway Commission designate the State link of the Jefferson Davis Highway; that the railroads of the State be censured for refusing to grant the customary rate of one cent per mile to such reunions; and a resolution of regret at the death of James I. Metz, former Commander in Chief of the Veterans.

HERE LIES A MAN.

Teach me that sixty minutes make an hour, sixteen ounces one pound and 100 cents \$1. Help me so to live that I can lie down at night with a clear conscience without a gun under my pillow and unhaunted by the faces of those to whom I have brought pain.

Grant that I may earn my meal ticket on the square and that in earning it I may do unto others as I would have them do unto me. Deafen me to the jingle of tainted money and to the rustle of unholly skirts. Blind me to the faults of the other fellow but reveal to me my own. Guide me so that each night when I look across the dinner table at my wife who has been a blessing to me, I will have nothing to conceal. Keep me young enough to laugh with little children and sympathetic enough to be considerate of old age. And when comes the day of darkened shades and the smell of flowers, the tread of soft footsteps and the crunching of wheels in the yard, make the ceremony short and the epitaph simple: Here Lies a Man.—Manufacturers News.

HERE'S A GOOD ONE.

A dollar and a penny met. The penny had a bright, clean face, but the dollar was dirty but proud. "You think you are gold, but you are only scrap brass," said the dollar.

The penny replied, "I am what I am, and claim to be no more."

The dollar swelled up with pride and said, "I am patriotic, I am trustworthy, I have the emblem of liberty on my bosom and the United States Government has placed these words on me, 'In God We Trust.'"

After a little thought the penny answered, "I grant you all that, but I go to church oftener than you do." —Staley's.

The United States imported 426,847,256 pounds of crude rubber in 1921.

HOW'S THIS?

HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh.

HALL'S CATARRH MEDICINE consists of an Ointment which quickly Relieves the catarrhal inflammation, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces, thus assisting to restore normal conditions.

This is "Brother" and he wants your vote and Sallie's, too. Don't forget Brother in November.

To the Voters of McDowell County:

I do hereby announce myself as an independent candidate for the office of the Clerk of Superior Court of McDowell County. I am moved to make this independent race for the reason that I am convinced I was not treated fairly in the Democratic primary meetings. My friends have urged me to do this that justice may be done. I ask all my friends to give me their hearty support and I will be elected, and when elected I will serve the public with the utmost courtesy. Yours for votes, W. McD. BURGIN.

The Standard of Comparison

Closed Car Luxury Unsurpassed

The 1923 Six Cylinder Seven Passenger Sedan—\$2195

A dignified beauty and richness unexcelled by any closed car mark the new Buick seven passenger sedan. Lengthening the body, lowering the top and raising hood and radiator have improved the streamline appearance made possible by the long wheel base and added attractiveness has been given by the handsome nicked drum-type head and cowl lamps.

The roomy Fisher built body is furnished in rich plush. Deep cushioned seats for five with two comfortable folding chairs accommodate seven grown persons with ample room for everyone.

The chassis has been improved materially and its easy riding qualities heightened by a new rear spring suspension. In the famous Buick Valve-in-Head engine, changes also have been made to increase dependable performance.

In every detail of body, chassis and power plant, this Sedan has no superiors among closed cars of even greater price.

The Buick Line for 1923 Comprises Fourteen Models:

Fours—2 Pass. Roadster, \$665; 5 Pass. Touring, \$685; 3 Pass. Coupe, \$1175; 5 Pass. Sedan, \$1395; 5 Pass. Touring Sedan, \$1315; Six—2 Pass. Roadster, \$1175; 5 Pass. Touring, \$1195; 5 Pass. Touring Sedan, \$1935; 5 Pass. Sedan, \$1935; 4 Pass. Coupe, \$1865; 7 Pass. Touring, \$1435; 7 Pass. Sedan, \$2195; Sport Roadster, \$1625; Sport Touring, \$1675. Prices f.o.b. Buick Factories. Ask about the G. M. A. C. Purchase Plan, which provides for Deferred Payments.
