THE SHOWER MONTH

On The Farm and in The Home

When April rains began to fall
And heavy clouds hung low all day,
The Pig tribe wasn't sore at all.
In fact, all gave their glad Okay.
They cleaned the house with care and then
The sticky dust blew back again.

Old Bollivar could almost hear
The "Thank You" of the seeded grain;
Polly felt blossom time draw near;
Fete saw pie cherries in the rain.
So all were tickled pink with reason
To greet another rainy season.

Spring work is in full swing on the farm, and April ushers in one of the busiest months of the agricultural calendar. As reminders, State College specialists offer the following suggestions, which, if accepted, should result in a more beautiful harvest season.

H. R. Niswonger, extension horticulturist, advises the planting of all types of home garden crops. He lists the following vegetables to be planted this month, and the number of days after planting when they should be ready for use: Beets, 60 days; Beans, 40; carrots, 75; sweet corn, 60; cucumbers, 60; can taloupes, 120; chard, 40; celery, 120; Irish potatoes, 80; kale, 50; garden peas, 40; lettuce, 60; onion seed, 130; okra, 100; parsnips, 125; radishes, 20; squash, 60; spinach, 30; tendergreens, 30; tomatoes, 100; watermelons, 100.

J. O. Rowell, extension entomologist tells farmers to delay planting corn until May if they have been

troubled in the past with stalk borers.

The suggestion of E. Y. Floyd, AAA executive officer, is: See your AAA committeeman or county farm agent immediately and sign a farm plan before April 15 to qualify for Triple-A payments in 1940, if you have not already done so. The 15th is the final date for signing Farm Plans for 1940, and a grower must sign one of these plans if he wishes to receive a payment at the end of the year.

H. W. Taylor, extension swine specialist, says spring pigs should be castrated when they are about five weeks of age. Soybeans planted in rows and cultivated twice will furnish excellent grazing for swine from the time the plants are about 15 inches high until frost, he says.

Lewis P. Watson, extension horticulturist, recommends that sweet potatoes be bedded the first week in April in order to have plants for setting about June 1.

THREE IMPORTANT 4-H ANNOUNCEMENTS MADE

L. R. Harrill, State 4-H Club leader, comes forward this week with three important announcements regarding the 4-H program in North Carolina. The first is that 4-H Club Church Sunday will be observed on April 28; another is that a Dairy Foods Demonstration Contest will be conducted for 4-H club members of the state this year and the third is that loans of as much as \$75 are available to club members through

the Farm Security Administration's Rural Rehabilitation program.

The 4-H Church Sunday is an annual event, and last year Harrill says he received reports at the State College office of 39 organized programs presented by county and community groups. These ranged from the preparation and distribution of the church bulletin, to the presentation of special music, giving inspirational talks, acting as ushers, taking up the collection, conducting Vesper services, placing flowers in the church, and beautifying the church grounds.

Miss Mary E. Thomas, extension nutritionist is in charge of the Dairy Foods Demonstration Contest. County winners will be selected, and these teams will compete at the state 4-H Short Course at State College July 22-27 for the right to compete in the national contest at the National Dairy Show in Harrisburg, Pa., October 12-19. Gold watches will be awarded members of the winning team from each of the four sections of the United States.

The FSA loans will be made to sons and daughters of FSA clients for the purpose of buying calves, pigs, chickens, and other livestock, and they may be made for the purpose of buying seed, plants, fertilizers, and the like for club projects.
