

Start With the New Year!

End Your Children In The Thrift and Birthday Savings Club — At The —

Bank of Maxton

The object of this club is to teach thrift and to encourage systematic saving. If your children learn the value of saving money, they will develop other worthy habits and be better men and women as a result. This bank wants to co-operate with parents in teaching children to become regular depositors and to help earn their own money.

If you have a vacant lot, give the children a plot for a garden. Get them started by giving them assistance until their little plot is producing and then let them earn the dollars and cents that may be used in starting a savings account. We have plans of various kinds whereby we can assist children to earn their own money and to put it away where it will draw interest and grow a fund for education or to buy a home.
